The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which, provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remains a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—

No. 1, Certificate of the opium advertised for sale

No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory

for the year 1906-1907, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

THE INDIAN LAW REPORTS.

published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

THE following Notices are published for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 27th December 1907.*

INDIAN OCEAN,—MAURITIUS.

Port Louis—Dredged Area.

No. 575 (first publication).—The British Admiralty has given Notice (No 1721 of 1907) that the undermentioned rectangular area in port Louis, Mauritius, has been dredged to a depth of 29 feet at low-water springs; this area is included between imaginery lines drawn between the following positions:—

(*a*) Positions situated at distances of $2\frac{1}{2}$ cables N. 33° W. and $2\frac{6}{10}$ cables N. 58° W. respectively from the port jetty-head.

(*b*) Positions situated at distances of $2\frac{6}{10}$ cables S. 5° W. and $3\frac{1}{10}$ cables S. 16° W., respectively, from the Martello tower, Fort George.

The north-western boundary of this area as given above is only approximate, a small irregular space having been dredged to the north-west-ward of it.

Approximate position, Martello tower station, lat. 20° $8\frac{1}{2}'$ S., long. 57° 29′ E.

NOTE.—The positions of the mooring buoys in port Louis are not to be depended on, as the moorings are constantly shifted.

* The week ending 23rd December 1907.

General Summary.—Throughout the Province the weather has been cold but seasonable. The harvesting of winter rice still continues, but has been completed in one or two districts. In Bihar and Orissa the pressing of sugarcane is in full swing and the prospects have improved. Where irrigation is possible the sowing of spring crops has been completed. In Darbhanga mustard is in flower. The prospects of the *rabi* crop have improved in the Presidency Division. In Chota Nagpur and Orissa they are reported to be fair, but in Bihar the crop is suffering greatly for want of rain. The prospects of the *dalua* rice crop in Orissa are fair. The outturn of winter rice is very poor. In the districts of Bankura, Nadia, Balasore, Ranchi and the Chilka tracts of Puri the stocks are reported to be insufficient. There is scarcity of fodder in the Katwa thana of Burdwan, in the Jamui subdivision of Monghyr and of water in the north of Murshidabad and the Dumraon thana of Shahabad. Cattle-disease is reported from Sambalpur, Ranchi and Hazaribagh. Scarcity is anticipated in Nadia, Murshidabad, the Katra and Raipur thanas of Bankura, the Manjhi and Darauli thanas of Saran, Balasore, the Chilka tracts of Puri, Ranchi and portions of Hazaribagh, and at the end of the cold season if no rain falls in Birbhum, Jessore and the Bhabhua and Sasseram subdivisions of Shahabad. Prices have risen slightly throughout Bihar, but have remained practically stationary in the other portions of the Province. Gratuitous relief has been given in the Kendrapara subdivision of Cuttack to 729 men, 1,533 women and 950 children. One test work has been opened and is attended by 167 men, 29 women and 21 children. Some gratuitous relief has been given in the neighbourhood of the Chilka lake in Puri.

The report received from the Feudatory States of Orissa for the week ending the 23rd December shows that no rain fell during the week. The harvesting of winter rice and the pressing of sugarcane continues. The outturn of rice varies in the different States from 50 to 75 per cent. of a normal crop. The prospects of the *rabi* crop are not good. Cattle-disease is reported from Kalahandi, Ranpur, Nayagarh and Athmalik. Fodder and water are sufficient.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

☁, dew.

ORDERS BY THE HONOURABLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The following rules for the award of the Maharaja of Darbhanga Memorial Scholarship have been adopted by the Syndicate:—

(1) That the scholarship shall be called the "Darbhanga Research Scholarship" and that it shall be awarded for the purpose of encouraging original research in medicine in its various branches.

(2) That all Graduates and Licentiates in Medicine of the Calcutta University shall be eligible to compete for the scholarship.

(3) That the value of the scholarship shall be R50 a month; that it shall be awarded every alternate year and that it shall be tenable for one year only from July to June.

(4) That the scholarship shall be awarded under the following conditions:—

(*a*) That the scholar shall be appointed by the Syndicate on the recommendation of the Faculty of Medicine.

(*b*) That the scholar shall be required to devote at least 4 (four) hours a day Sundays and holidays excepted, during the tenure of his scholarship to research work in any special branch of Medical Science to be previously selected by him and approved by the Board of Studies in Medicine and that his work shall be open to inspection by a member of the Facutly of Medicine to be specially deputed by the Faculty in that behalf.

(*c*) That applications for the scholarship shall be invited by the Registrar in the month of January of the year in which the scholarship is to be awarded and that such applications must reach the University office not later than the 30th of April next following. Every candidate must state in his application the special subject or branch of Medical Science in which he proposes to carry on investigation or research work and must also state in what respects his investigations appear to him to tend to the advancement of Medical Studies. He shall also state in his application the place where he intends to carry on his research work. If in a recognised Laboratory or Hospital, a recommendation from the Head of such Laboratory or Hospital as to the fitness of the candidate to conduct such work and the probable value of such work, must accompany the application. If the candidate intends to carry on his investigations privately his application must be supported by a certificate to the above effect from a member of the Faculty of Medicine.

(*d*) That during the tenure of his scholarship, every Research scholar shall be required to submit short quarterly reports of his work to the member of the Faculty of Medicine who may be deputed to inspect his work and upon whose favourable report the continuance of his scholarship shall depend.

(*e*) Each scholar shall, at the end of his tenure of scholarship, submit a complete statement of the work he has done during the year. This statement which shall be type-written and otherwise ready for publication, shall be laid before the Faculty of Medicine who shall, if publication be deemed advisable decide all questions in connection therewith.

In accordance with rule 4 (*c*) of the above rules applications for the Darbhanga Research Scholarship for 1908 are hereby invited by the undersigned.

MUNICIPAL OFFICE,
Dated the 2nd January 1908.

CORPORATION OF CALCUTTA.

IN compliance with the provisions of section 565 of the Calcutta Municipal Act, the following amended draft bye-laws under clause 14 of section 559 of the same Act, which the General Committee intend to make in supersession of those published in the *Calcutta Gazette* of the 18th September 1907 in Part I.-B, prescribing the qualifications to be required from licensed plumbers and regulating their appointment, suspension and dismissal are published for general information.

Objections, if any, to the proposed amended bye-laws will be received by the Secretary to the Corporation up to Saturday, the 8th February 1908.

BYE-LAWS UNDER CLAUSE 14 OF SECTION 559.

1. *Qualifications.*—Before any license is granted to any person or firm to act as a licensed plumber, whether for purposes of Chapter XX or XXI of the Act, or both, such person or a resident member of the said firm or some one in their respective employ must satisfy the Chairman or other officer to whom the Chairman may delegate his powers in this behalf, in the following respects :—

For a license for purposes of Chapter XX—

(*a*) That such person or member or some one in their respective employ as aforesaid has a practical knowledge of plumbing work and has for a recent period of at least three years been employed as a plumber ;

(*b*) Is able to carry out work in both lead and iron and can wipe, straight or branch joints on lead pipe of any market size and perform any other work usual to the trade of a plumber.

For a license for purposes of Chapter XXI—

(*a*) That such person or member of the firm or some one in their respective employ can timber trenches in a workman-like manner in bad ground ;

(*b*) can build in brickwork in Flemish or English bond, and that he generally understands masonry work ;

(*c*) can lay and joint stoneware pipes both in straight lines and with curves, and can place them in proper gradients by method of levellings ;

(*d*) can insert a junction in a pipe sewer and a junction block in a brick sewer in a manner approved by the Engineer ;

(*e*) can properly restore road surfaces.

2. *Appointment* —No license shall be granted unless such person or firm satisfies the Chairman or other officer as aforesaid regarding the qualifications as shown in paragraph (1) and unless in the opinion of the Chairman or other officer as aforesaid, such person or firm has a suitable place of business together with a proper and sufficient stock of tools, plant and material for the purpose of carrying on the trade or business of a plumber.

3. *Suspensions and dismissal of licensed plumbers* —A licensed plumber appointed as aforesaid may be suspended or dismissed as the Chairman may think fit :—

(*a*) If the plumber, in the opinion of the Chairman,—

(*i*) fails to carry out any work entrusted to him in a worman-like manner or does it negligently ;

(*ii*) fails to carry out the work within a reasonable time as the Chief Engineer may direct or delays in doing so without assigning good and sufficient reasons when called upon to do so ;

(*iii*) fails to comply with any direction given him by the Engineer or other Officer empowered in that behalf.

(*b*) If any accident or other damage is caused by or through the negligence or want of care or precaution on the part of the plumber or his servants or workmen in the course of business ;

(*c*) If any work is done in contravention of the provisions of the Act and the bye-laws and regulations made thereunder.

4. *Proviso* —Provided that a license issued to a firm or person on the ground that such firm or person have in their employ a person with a practical knowledge of plumbing work as aforesaid shall be deemed to be revoked or withdrawn if such firm or person at any time cease to have in their respective employ a competent person as aforesaid.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, *or*

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT

The following Act of the Governor Generaf of India in Council received the assent of the Governor General on the 3rd January, 1908, and is hereby promulgated for general information:—

ACT NO. I OF 1908.

An Act further to amend the Legal Practitioners Act, 1879.

XVIII of 1879.

WHEREAS it is expedient further to amend the Legal Practitioners Act, 1879; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Legal Practitioners (Amendment) Act, 1908.

XVIII of 1879.

Amendment of section 4 of Act XVIII of 1879.

2. In section 4 of the Legal Practitioners Act, 1879, the following amendments shall be made, namely:—

(*a*) after the words "this Act" the words "or enrolled as a Pleader in the Chief Court of the Punjab under section 8 of this Act" shall be inserted; and

(*b*) after the words "no such Vakil" the words "or Pleader" shall be added.

Addition to section 7 of Act XVIII of 1879.

3. To section 7 of the said Act the following shall be added, namely:—

"Provided that, on the admission as a Pleader of any person who has been previously entered as a Vakil or Attorney on the roll of a High Court established by Royal Charter, the High Court may in its discretion issue to such person a certificate authorising him to practise permanently in the Courts and in the offices specified therein, and a certificate so issued shall not require to be renewed under this section."

Amendment of section 25 of Act XVIII of 1879.

4. To section 25 of the said Act the following shall be added, namely:—

"Provided also that no stamped paper shall be required in the case of a certificate whether original or renewed authorising, under section 7, a Vakil or Attorney on the roll of a High Court established by Royal Charter to practise as a Pleader."

Amendment of section 38 of Act XVIII of 1879.

5. In section 38 of the said Act, "7," shall be added after "5," and "25," after "16."

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 3rd January, 1908, and is hereby promulgated for general information:—

ACT NO. II OF 1908.

An Act further to amend the Indian Tariff Act, 1894.

VIII of 1894. WHEREAS it is expedient further to amend the Indian Tariff Act, 1894; It is hereby enacted as follows:—

Short title. 1. This Act may be called the Indian Tariff (Amendment) Act, 1908.

Amendment of Schedule III of Act VIII of 1894. 2. In No. 1 of Schedule III of the Indian Tariff Act, 1894, as amended by the Indian Tariff Act (1894) Amendment Act, 1896, "annas 2" shall be substituted for "anna 1" in the fourth column as the rate of duty to be levied and collected per Imperial gallon or six quart bottles of ale, beer, porter, cider and other fermented liquors. VIII of 1894. III of 1896.

STATEMENT OF OBJECTS AND REASONS.

The present rate of duty on beer and other fermented liquors, whether imported or manufactured in the country, is one anna per gallon. The tariff rate has remained unaltered since 1863, and the excise duty since 1890, when it was first imposed. The rate of taxation is relatively inadequate, in view of the greatly enhanced taxation to which spirit, both country and imported, has in recent years been subjected. Moreover, as shown by the declared value of imports, a large quantity of the beer which comes into India from abroad pays less, at one anna a gallon, in proportion to its value than it would do under the ordinary tariff rate of 5 per cent *ad valorem*. Recently the Indian Excise Committee have recommended that the duty on beer and other fermented liquors should be raised from one anna to two annas per gallon, and the object of this Bill is to give effect to that recommendation.

The Indian Limitation Bill.

(Part I.—Preliminary.—Secs. 1-2.—Part II.—Limitation of Suits, Appeals and Applications.—Secs. 3-5.)

The bracketted marginal references relate to sections of the Indian Limitation Act, 1877.

A Bill to consolidate and amend the law for the Limitation of Suits, and for other purposes.

WHEREAS it is expedient to consolidate and amend the law relating to the limitation of suits, appeals and certain applications to Courts; and whereas it is also expedient to provide rules for acquiring by possession the ownership of easements and other property; It is hereby enacted as follows:—

PART I.

PRELIMINARY.

[S 1.] 1. (*1*) This Act may be called the Indian Limitation Act, 190 .

Short title extent and commencement.

(*2*) It extends to the whole of British India; and

(*3*) *This section and section 33 shall come into force at once. The rest of* this Act shall come into force on the first day of *January, 1909.**

[S 3.] 2. In this Act, unless there is anything repugnant in the subject or context,—

Definitions.

(*1*) "bill of exchange" includes also a hundi and a cheque:

(*2*) "bond" includes any instrument whereby a person obliges himself to pay money to another, on condition that the obligation shall be void if a specified act is performed, or is not performed, as the case may be:

(*3*) "easement" includes also a right, not arising from contract, by which one person is entitled to remove and appropriate for his own profit any part of the soil belonging to another or anything growing in, or attached to, or subsisting upon, the land of another;

(*4*) "foreign country" means any country other than British India:

(*5*) "good faith:" nothing shall be deemed to be done in good faith which is not done with due care and attention:

(*6*) "*moveable property*" *includes growing crops:*

(*7*) "plaintiff" includes also any person from or through whom a plaintiff derives his right to sue; "applicant" includes also any person from or through whom an applicant derives his right to apply; and "defendant" includes also any person from or through whom a defendant derives his liability to be sued:

(*8*) "promissory note" means any instrument whereby the maker engages absolutely to pay a specified sum of money to another at a time therein limited, or on demand, or at sight:

(*9*) "suit" does not include an appeal or an application:

(*10*) "trustee" does not include a benamidar, a mortgagee remaining in possession after the mortgage has been satisfied, or a wrongdoer in possession without title.

* This is the date proposed for the commencement of the new Civil Procedure Code Bill.

PART II.

LIMITATION OF SUITS, APPEALS AND APPLICATIONS.

[S. 4.] 3. Subject to the provisions contained in sections 4 to 27 (inclusive), every suit instituted, appeal preferred, and application made, after the period of limitation prescribed therefor by the first schedule shall be dismissed, although limitation has not been set up as a defence.

Dismissal of suits, etc., instituted, etc., after period of limitation.

Explanation.—A suit is instituted, in ordinary cases, when the plaint is presented to the proper officer; in the case of a pauper, when his application for leave to sue as a pauper is made; and, in the case of a claim against a company which is being wound up by the Court, when the claimant first sends in his claim to the official liquidator.

Illustrations.

(*a*) A suit is instituted after the prescribed period of limitation. Limitation is not set up as a defence and judgment is given for the plaintiff. The defendant appeals. The Appellate Court shall dismiss the suit.

(*b*) An appeal presented after the prescribed period is admitted and registered. The appeal shall be dismissed

[S. 5, para. 2.] 4. Where the period of limitation prescribed for any suit, appeal or application expires on a day when the Court is closed, the suit, appeal or application may be instituted, preferred or made on the day that the Court re-opens.

Where Court is closed when period expires.

[S. 5, para. 2] 5. Any appeal or application for a review of judgment *or any other application to which this section may be made applicable by the Code of Civil Procedure* may be admitted after the period of limitation

Extension of period in certain cases.

The Indian Limitation Bill.

(*Part II.—Limitation of Suits, Appeals and Applications.—Secs. 6-11.*)

Prescribed therefor, when the appellant or applicant satisfies the Court that he had sufficient cause for not preferring the appeal or making the application within such period.

[S. 5A.] **6.** Wherever it is shown to the satisfaction of the Court that an appeal or an application for a review of judgment was presented after the expiration of the period of limitation prescribed for such appeal or application owing to the appellant or applicant having been misled by any order, or practice, or judgment of the High Court of the Presidency, Province or District, such appeal or application, if otherwise in accordance with law, shall for all purposes be deemed by all Courts to have been presented within the period of limitation prescribed therefor.

Limitation for certain appeals or applications for review of judgment.

[S. 7.] **7.** (*1*) Where a person entitled to institute a suit or make an application is, at the time from which the period of limitation is to be reckoned, a minor, or insane, or an idiot, he may institute the suit or make the application within the same period after the disability has ceased, as would otherwise have been allowed from the time prescribed therefor in the third column of the first schedule.

Legal disability.

(*2*) Where such person is, at the time from which the period of limitation is to be reckoned, affected by two such disabilities, or where, before his disability has ceased, he is affected by another disability, he may institute the suit or make the application within the same period, after both disabilities have ceased, as would otherwise have been allowed from the time so prescribed.

Double and successive disabilities.

(*3*) Where the disability continues up to the death of such person, his legal representative may institute the suit or make the application within the same period after the death as would otherwise have been allowed from the time so prescribed.

(*4*) Where such representative is at the date of the death affected by any such disability, the rules contained in sub-sections (*1*) and (*2*) shall apply.

Illustrations.

(*a*) The right to sue for the hire of a boat accrues to A during his minority. He attains majority four years after such accruer. He may institute his suit at any time within three years from the date of his attaining majority.

(*b*) A, to whom a right to sue for a legacy has accrued during his minority, attains majority eleven years after such accruer. A has, under the ordinary law, only one year remaining within which to sue. But under this section and section 9 an extension of two years will be allowed him, making in all a period of three years from the date of his attaining majority, within which he may bring his suit

(*c*) A right to sue accrues to Z during his minority. After the accruer, but while Z is still a minor, he becomes insane. Time runs against Z from the date when his insanity and minority cease.

(*d*) A right to sue accrues to X during his minority. X dies before attaining majority, and is succeeded by Y, his minor son. Time runs against Y from the date of his attaining majority.

(*e*) A right to sue for an hereditary office accrues to A who at the time is insane. Six years after the accruer A recovers his reason. A has six years, under the ordinary law, from the date when his insanity ceased within which to institute a suit. No extension of time will be given him under this section read with section 9.

(*f*) A right to sue as landlord to recover possession from a tenant accrues to A, who is an idiot. A dies three years after the accruer, his idiocy continuing up to the date of his death. A's representative in interest has, under the ordinary law, nine years from the date of A's death within which to bring a suit. This section read with section 9 does not extend that time, except where the representative is himself under disability when the representation devolves upon him.

[S. 8.] **8.** Where one of several joint-creditors or claimants *or one of several persons jointly entitled to make an application* is under any such disability, and a discharge can be given without the concurrence of such person, time will run against them all: but, where no such discharge can be given, time will not run as against any of them until one of them becomes capable of giving such discharge without the concurrence of the others.

Disability of one joint creditor.

Illustrations.

(*a*) A incurs a debt to a firm of which B, C and D are partners. B is insane, and C is a minor. D can give a discharge of the debt without the concurrence of B and C. Time runs against B, C and D.

(*b*) A incurs a debt to a firm of which E, F and G are partners. E and F are insane, and G is a minor. Time will not run against any of them until either E or F becomes sane, or G attains majority.

[S. 7, last para.] **9.** Nothing in *section 7 or in section 8* applies to suits to enforce rights of pre-emption, or shall be deemed to extend, for more than three years from the cessation of the disability or the death of the person affected thereby, the period within which any suit must be instituted or application made.

Special exceptions.

[S. 9.] **10.** Where once time has begun to run, no subsequent disability or inability to sue stops it:

Continuous running of time.

Provided that, where letters of administration to the estate of a creditor have been granted to his debtor, the running of the time prescribed for a suit to recover the debt shall be suspended while the administration continues.

[S. 10.] **11.** Notwithstanding anything hereinbefore contained, no suit against a person in whom property has become vested in trust for any specific purpose, or against his legal representa-

Suits against express trustees and their representatives.

The Indian Limitation Bill.

(Part II.—Limitation of Suits, Appeals and Applications.—Sec. 12.—Part III.—Computation of Period of Limitation.—Secs. 13-19.)

tives or assigns (not being assigns for valuable consideration), for the purpose of following in his or their hands such property, *or the proceeds thereof, or for an account of such property or proceeds*, shall be barred by any length of time.

[S. 11.] **12.** (*1*) Suits instituted in British India on contracts entered into in a foreign country are subject to the rules prescribed by this Act.

Suits on foreign contracts.

(*2*) No foreign rule of limitation shall be a defence to a suit instituted in British India on a contract entered into in a foreign country, unless the rule has extinguished the contract and the parties were domiciled in such country during the period prescribed by such rule.

Foreign limitation law.

PART III

COMPUTATION OF PERIOD OF LIMITATION.

[S. 12.] **13.** (*1*) In computing the period of limitation prescribed for any suit, appeal or application, the day from which such period is to be reckoned shall be excluded.

Exclusion of day on which right to sue accrues.

(*2*) In computing the period of limitation prescribed for an appeal, an application for leave to appeal as a pauper, and an application for a review of judgment, the day on which the judgment complained of was pronounced, and the time requisite for obtaining a copy of the decree, sentence or order appealed from or sought to be reviewed, shall be excluded.

Exclusion in case of appeals and certain applications.

(*3*) Where a decree is appealed from or sought to be reviewed, the time requisite for obtaining a copy of the judgment on which it is founded shall also be excluded.

(*4*) In computing the period of limitation prescribed for an application to set aside an award, the time requisite for obtaining a copy of the award shall be excluded.

[S. 13.] **14.** In computing the period of limitation prescribed for any suit, the time during which the defendant has been absent from British India shall be excluded.

Exclusion of time of defendant's absence from British India.

[S. 14.] **15.** (*1*) In computing the period of limitation prescribed for any suit, the time during which the plaintiff has been prosecuting with due diligence another civil proceeding, whether in a Court of first instance or in a Court of appeal, against the defendant, shall be excluded, where the proceeding is founded upon the same cause of action and is prosecuted in good faith in a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to entertain it.

Exclusion of time of proceeding *bona fide* in Court without jurisdiction.

(*2*) In computing the period of limitation prescribed for any application, the time during which the applicant has been making another application for the same relief shall be excluded, where the last-mentioned application is made in good faith to a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to grant it.

Like exclusion in case of application.

Explanation 1.—In excluding the time during which a former suit or application was pending or being made, the day on which that suit or application was instituted or made, and the day on which the proceedings therein ended, shall both be counted.

Explanation 2.—A plaintiff resisting an appeal presented on the ground of want of jurisdiction shall be deemed to be prosecuting a suit within the meaning of this section.

[S. 15.] **16.** In computing the period of limitation prescribed for any suit, *or application for the execution of a decree, the institution or execution* of which has been stayed by injunction or order, the time of the continuance of the injunction or order, the day on which it was issued or made, and the day on which it was withdrawn, shall be excluded.

Exclusion of time during which institution of suit *or execution of decree* is stayed by injunction or order.

[S. 16.] **17.** In computing the period of limitation prescribed for a suit for possession by a purchaser at a sale in execution of a decree, the time during which the judgment-debtor has been prosecuting a proceeding to set aside the sale shall be excluded.

Exclusion of time during which judgment-debtor is attempting to set aside execution-sale.

[New.] **18.** *In computing the period of limitation prescribed for any suit against the Secretary of State for India in Council, or against a public officer in respect of any act purporting to be done by such public officer in his official capacity, where, previous to the institution of the suit, the notice in writing required by the provisions of the Code of Civil Procedure in that behalf has been delivered or left in pursuance of the said provisions, the two months next after the said notice was so delivered or left shall be excluded.*

Exclusion of period of notice in suit against Secretary of State.

[S. 17.] **19.** (*1*) Where a person who would, if he were living, have a right to institute a suit or make an application, dies before the right accrues, the period of limitation shall

Effect of death before right to sue accrues.

The Indian Limitation Bill.

(*Part III.—Computation of Period of Limitation.—Secs. 20-24*)

be computed from the time when there is a legal representative of the deceased capable of instituting or making such suit or application.

(*2*) Where a person against whom, if he were living, a right to institute a suit or make an application would have accrued dies before the right accrues, the period of limitation shall be computed from the time when there is a legal representative of the deceased against whom the plaintiff may institute or make such suit or application.

(*3*) Nothing in sub-section (*1*) applies to suits to enforce rights of pre-emption or to suits for the possession of immoveable property or of an hereditary office.

[S. 18.] **20.** Where any person having a right to institute a suit or make an application has, by means of fraud, been kept from the knowledge of such right or of the title on which it is founded,

Effect of fraud.

or where any document necessary to establish such right has been fraudulently concealed from him,

the time limited for instituting a suit or making an application—

(*a*) against the person guilty of the fraud or accessory thereto, or

(*b*) against any person claiming through him otherwise than in good faith and for a valuable consideration,

shall be computed from the time when the fraud first became known to the person injuriously affected thereby, or, in the case of the concealed document, when he first had the means of producing it or compelling its production.

[S. 19.] **21.** (*1*) Where before the expiration of the period prescribed for a suit or application, *including an application for the execution of a decree*, in respect of any property or right, an acknowledgment of liability in respect of such property or right has been made in writing signed by the party against whom such property or right is claimed, or by some person through whom he derives title or liability, a new period of limitation according to the nature of the original liability, shall be computed from the time when the acknowledgment was so signed.

Effect of acknowledgment in writing.

(*2*) Where the writing containing the acknowledgment is undated, oral evidence may be given of the time when it was signed; but oral evidence of its contents shall not be received.

Explanation 1.—For the purposes of this section an acknowledgment may be sufficient though it omits to specify the exact nature of the property or right, or avers that the time for payment, delivery, performance or enjoyment has not yet come, or is accompanied by a refusal to pay, deliver, perform or permit to enjoy, or is coupled with a claim to a set-off, or is addressed to a person other than the person entitled to the property or right.

Explanation 2.—In this section "signed" means signed either personally or by an agent duly authorized in this behalf.

[S 20.] **22.** (*1*) Where interest on a debt or legacy is, before the expiration of the prescribed period, paid as such by the person liable to pay the debt or legacy, or by his agent duly authorized in this behalf,

Effect of payment of interest as such.

or where part of the principal of a debt is, before the expiration of the prescribed period, paid by the debtor or by his agent duly authorized in this behalf,

Effect of part-payment of principal.

a new period of limitation, according to the nature of the original liability, shall be computed from the time when the payment was made:

Provided that, in the case of part payment of the principal of a debt, the fact of the payment appears in the handwriting of the person making the same.

(*2*) Where mortgaged land is in the possession of the mortgagee, the receipt of the *rent or* produce of such land shall be deemed to be a payment for the purpose of sub-section (*1*).

Effect of receipt of produce of mortgaged land

Explanation.—Debt includes money payable under a decree of Court.

[New.] **23.** (*1*) *The expression "agent duly authorised in this behalf", in sections 21 and 22, shall, in the case of a person under disability, include his lawful guardian or manager, or an agent duly authorised by such guardian or manager to sign the acknowledgment or make the payment.*

Agent to include guardian or manager of person under disability.

[S. 21] (*2*) Nothing in *the said* sections renders one of several joint contractors, partners, executors or mortgagees chargeable by reason only of a written acknowledgment signed, or of a payment made by, or by the agent of, any other or others of them.

One of several joint contractors, etc., not chargeable by reason of acknowledgment or payment made by another of them.

[S. 22, para. 1.] **24.** (*1*) Where, after the institution of a suit, a new plaintiff or defendant is substituted or added, the suit shall, as regards him, be deemed to have been instituted when he was so made a party.

Effect of substituting or adding new plaintiff or defendant.

[New.] (*2*) *Nothing in sub-section (1) shall apply to a case where a party is added or substituted*

The Indian Limitation Bill.

(Part III.—Computation of Period of Limitation.—Secs. 25-27.—Part IV.—Acquisition of Ownership by Possession.—Secs. 28-29)

owing to an assignment or devolution of any interest during the pendency of a suit or where a plaintiff is made a defendant or a defendant is made a plaintiff.

[S. 23.] **Continuing breaches and wrongs.**

25. In the case of a continuing breach of contract and in the case of a continuing wrong independent of contract, a fresh period of limitation begins to run at every moment of the time during which the breach or the wrong, as the case may be, continues.

[S. 24.] **Suit for compensation for act not actionable without special damage.**

26. In the case of a suit for compensation for an act which does not give rise to a cause of action unless some specific injury actually results therefrom, the period of limitation shall be computed from the time when the injury results.

Illustrations.

(*a*) A owns the surface of a field. B owns the subsoil. B digs coal thereout without causing any immediate apparent injury to the surface, but at last the surface subsides. The period of limitation in the case of a suit by A against B runs from the time of the subsidence.

(*b*) A speaks and publishes of B slanderous words not actionable in themselves without special damage caused thereby. C in consequence refuses to employ B as his clerk. The period of limitation in the case of a suit by B against A for compensation for the slander does not commence till the refusal.

[S. 25.] **Computation of time mentioned in instruments.**

27. All instruments shall, for the purposes of this Act, be deemed to be made with reference to the Gregorian calendar.

Illustrations.

(*a*) A Hindu makes a promissory note bearing a Native date only, and payable four months after date. The period of limitation applicable to a suit on the note runs from the expiration of four months after date computed according to the Gregorian calendar.

(*b*) A Hindu makes a bond, bearing a Native date only, for the repayment of money within one year. The period of limitation applicable to a suit on the bond runs from the expiration of one year after date computed according to the Gregorian calendar.

PART IV.

ACQUISITION OF OWNERSHIP BY POSSESSION.

[S. 26.] **Acquisition of right to easements.**

28. (*1*) Where the access and use of light or air to and for any building have been peaceably enjoyed therewith, as an easement, and as of right, without interruption, and for twenty years,

and where any way or watercourse, or the use of any water, or any other easement (whether affirmative or negative) has been peaceably and openly enjoyed by any person claiming title thereto as an easement and as of right, without interruption, and for twenty years,

the right to such access and use of light or air, way, watercourse, use of water, or other easement shall be absolute and indefeasible.

Each of the said periods of twenty years shall be taken to be a period ending within two years next before the institution of the suit wherein the claim to which such period relates is contested.

Acquisition of easement against Government.

(*2*) *Where the property over which a right is claimed under sub-section (1) belongs to Government, that sub-section shall be read as if for the words "twenty years" the words "sixty years" were substituted.*

Explanation.—Nothing is an interruption within the meaning of this section unless, where there is an actual discontinuance of the possession or enjoyment by reason of an obstruction by the act of some person other than the claimant, and unless such obstruction is submitted to or acquiesced in for one year after the claimant has notice thereof and of the person making or authorizing the same to be made.

Illustrations.

(*a*) A suit is brought in 1911 for obstructing a right of way. The defendant admits the obstruction, but denies the right of way. The plaintiff proves that the right was peaceably and openly enjoyed by him, claiming title thereto as an easement and as of right, without interruption from 1st January, 1890, to 1st January, 1910. The plaintiff is entitled to judgment.

(*b*) In a like suit the plaintiff shows that the right was peaceably and openly enjoyed by him for twenty years. The defendant proves that the plaintiff, on one occasion during the twenty years, had asked his leave to enjoy the right. The suit shall be dismissed.

[S. 27.] **Exclusion in favour of reversioner of servient tenement.**

29. Where any land or water upon over or from which any easement has been enjoyed or derived has been held under or by virtue of any interest for life or any term of years exceeding three years from the granting thereof, the time of the enjoyment of such easement during the continuance of such interest or term shall be excluded in the computation of the period of twenty years in case the claim is, within three years next after the determination of such interest or term, resisted by the person entitled, on such determination, to the said land or water.

Illustration.

A sues for a declaration that he is entitled to a right of way over B's land. A proves that he has enjoyed the right for twenty-five years; but B shows that during ten of these years C, a Hindu widow, had a life interest in the land, that on C's death B became entitled to the land, and that within two years after C's death he contested A's claim to the right. The suit must be dismissed, as A, with reference to the provisions of this section, has only proved enjoyment for fifteen years.

J. M. MACPHERSON,
Secretary to the Government of India.

STATEMENT OF OBJECTS AND REASONS.

1. One immediate circumstance which has moved the Government of India to undertake legislation in connection with the Indian Limitation Act, 1877, is the hardship which has been caused to the holders of mortgages of immoveable property, in forms other than what is known as the English form, over a large part of India, by reason of the recent decision of the Judicial Committee of the Privy Council in the case of *Vasudeva* v. *Srinivasa* (11 C. W. N. 1005). In that case their Lordships, over-ruling the decisions of the High Courts of Bombay, Madras and Allahabad, have advised that the period of limitation prescribed by the Indian Limitation Act, 1877, for suits to enforce payment of money secured by such mortgages, is twelve years as provided in article 132 of the Second Schedule of that Act, and not the longer period of sixty years prescribed by article 147. In the opinion of the Privy Council the latter article applies only to the class of mortgages in which a suit may be brought for "foreclosure or sale," that is, only to English mortgages. Previous to this decision for nearly a quarter of a century, the law had been held by the High Courts of Bombay and of Allahabad to be that every suit by a mortgagee either for foreclosure or for sale was governed by the sixty years' rule of limitation enacted in article 147, and the same view of the law had been accepted by the High Court of Madras and by some other High Courts. The effect of the decision of the Privy Council has been that in the territories within the jurisdiction of the above High Courts a number of suits for the enforcement of mortgages, which, before the decision of the Privy Council, would have been within time, have been and must be dismissed by the Courts on the ground that they are barred by limitation, and that the claims under a still larger number of mortgages have become unenforceable owing to the construction thus put on the Statute of Limitation. This result is undoubtedly hard on mortgagees who have relied on the view of the law taken by the High Courts of their Provinces and now find themselves debarred of all remedy because that view has been decided to be incorrect. The Government of India are of opinion that some provision should be made to meet these cases, and it is accordingly proposed in the Bill to allow to these mortgagees a period of two years within which to bring their suits, provided that the whole period from the date when the money secured by the mortgage became due does not exceed sixty years in all. Provision is also made for the continuance of pending suits and for the restoration of suits which have been dismissed on the ground of limitation since the date of the Privy Council decision.

2. Legislation is also necessary to give effect to the recommendations of the Committee on the Code of Civil Procedure. These have been incorporated in the present Bill

3. It seems desirable also to take this opportunity of setting at rest some doubts on other provisions of the Limitation Act which have been caused by conflicting decisions of the different High Courts. These relate for the most part to matters of detail rather than to questions of principle, and a sufficient account of the amendments proposed in respect of them will be found in the *Notes on Clauses* annexed to this Statement.

4. It would be possible to enact the proposed alterations by an amending Act. But the Limitation Act of 1877 has been already amended by no less than eleven different enactments. It is clearly desirable to have the whole of the statutory law on the subject dealt with in one Act and to clear the Statute-book of these scattered enactments. It is proposed for this reason to introduce an amending and consolidating Bill, embodying the alterations to which attention has been called, re-enacting the present Act in other respects and repealing the various Acts and provisions in which the law is now contained.

H. ERLE RICHARDS.

The 2nd January, 1908.

Notes on Clauses.

The sections and schedules of the Act have been rearranged, the saving and repealing provisions being placed at the end.

In the Act various suits, appeals and applications are described by reference to the number of the particular section of any Act under which the suit, appeal or application in question may be instituted, preferred or made. Most of these references are to sections of the Code of Civil Procedure, and as the majority of these sections have, in the Civil Procedure Code Bill now before the Legislature, been relegated to Rules which may from time to time be altered and may be different in different Provinces, it has been considered advisable in framing the clauses and articles in the Bill to avoid these references and to render the provisions of the Bill self-contained as far as possible.

CLAUSES OF BILL.

Clause 1.—It is proposed that section 33, which provides for suits on mortgages affected by the Privy Council case, should take effect on the passing of the Bill, and that the rest of the Act should come into force simultaneously with the Code of Civil Procedure now before the Legislature. Section 1.

Clause 2.—The definitions have been rearranged in alphabetical order.

No. (6) has been added to make the term "moveable property" include growing crops in accordance with the amendment proposed in the Civil Procedure Code Bill. This is for consideration. It was approved by the Select Committee on the Code of Civil Procedure of 1903 and was inserted in their Draft Bill (Schedule IV.) Section 3.

Clause 5.—Words have been inserted in this clause to include applications to which the clause may be made applicable by the Code of Civil Procedure. This amendment has the approval of the Special Committee on the Code of Civil Procedure of 1907. Section 5 para. 2

Clauses 7 and 8.—The last clause of section 7 with some verbal modifications has been placed as a separate clause after clause 8 so as to make it clear that its provisions are applicable to cases governed by either of the clauses 7 or 8. Sections 7, 8.

Cases of a person entitled to institute a suit or make an application being under any legal disability are dealt with by sections 7 and 8 of the Act.

It has been held in a series of decisions of the Madras High Court that section 7 applies only to cases where the right to bring a suit or to make an application is vested either—

(i) in a single individual who is under a disability, or
(ii) in a number of individuals, all of whom are under a disability.

These cases are: *Seshan* v. *Rajagopala*, I. L. R. 13 Mad. 236, where there was a decree in favour of three persons of whom two only were minors, and it was held that section 7 did not apply to an application for the execution of the decree: *Vigneswara* v. *Bapayya*, I. L. R. 16 Mad. 436, and *Moidin* v. *Beevi*, I. L. R. 18 Mad 38, which were cases of suits where some only of several persons entitled to institute them were under disability, and it was held, following the case in I. L. R. 13 Mad. 236, that the suits were not governed by section 7; *Ahinsa* v. *Abdul*, I. L. R. 25 Mad. 26, where Benson and Bhashyam Ayyangar, JJ., adopted the same construction of section 7 and held that, apart from section 8, the protection afforded by section 7 would extend only to cases where each and all of the persons jointly entitled to sue were affected by disability at the time from which the period of limitation was to be reckoned, and that if any one of them was then free from disability, section 7 cannot be availed of by all or any of them; and *Periasami* v. *Krishna*, I. L. R. 25 Mad. 431, where a Full Bench of the Madras High Court upheld the same view.

On the construction put upon section 7 by the Madras High Court, cases in which the right is vested jointly in a number of persons of whom some only are under any disability must be left to be governed by section 8 alone, and under the latter part of that section, if there is no one among these persons who can give a discharge without the concurrence of those who are under disability, time would commence to run only from the date when the last of them becomes free from disability and then, apparently, they would have in every case the full period prescribed for the suit or application in question, there being nothing in section 8, corresponding to the last clause of section 7, to limit the period to three years from the cessation of disability or to exclude suits for pre-emption from its scope.

Clause 8.—There is conflict between the Calcutta, Bombay and Allahabad High Courts on the one hand and the Madras High Court on the other on the question, whether an application for the execution of a decree can be saved from limitation by the fact of some only of the decree-holders being under a disability. In *Anundo* v. *Anundo*, I.L.R. 14 Cal. 50; *Surjo* v. *Arun*, I. L.R. 28 Cal. 465; *Govind* v. *Tatia*, I. L.R. 20 Bom. 383, and *Zamir* v. *Sunder*, I. L.R. 22 All. 199, it has been held that a disability of some only of several joint decree-holders would save an application for the execution of the decree from being barred; while the Madras High Court, in *Seshan* v. *Rajagopala*, I. L.R. 13 Mad. 230, and in *Periasami* v. *Krishna*, I. L.R. 25 Mad. 431 F.B., has held the contrary. The High Courts of Calcutta, Bombay and Allahabad hold that the case comes under section 7, but the Madras High Court holds that it comes neither under section 7 nor under section 8. If the right view of section 7 is that it deals only with cases where the person, or all the Section 8

persons if there are more than one, entitled to bring a suit or make an application, is or are under disability, the case in question should properly be dealt with by section 8; all the High Courts are agreed that one of several joint decree-holders cannot give a valid discharge without the concurrence of the others; but the Madras High Court in the Full Bench case felt a difficulty in bringing the case under section 8, for the reason that applications are not mentioned in that section while they are in section 7. In the course of his judgment in the case Bhashyam Ayyangar, J., observed that the addition of the words suggested in this amendment would bring the case in question within the operation of section 8 (I. L.R. 25 Mad. 431, at p. 442).

Section 7, last paragraph.

Clause 9.—This is the last paragraph of section 7.

Clause 11.—The proposed amendment is intended to remove certain doubts.

Section 10.

It has been held in some cases that this section does not include a suit for an account of the trust property.

In *Saroda* v. *Brojo*, I. L. R. 5 Cal. 910, property had been vested in the defendant upon trust to manage it and maintain the plaintiff out of the profits during his minority and to make it over to the plaintiff on his attaining the age of majority; the suit was for a decree directing the defendant to account for all such property, and the profits, receipts and disbursements connected therewith. It was held by White and Maclean, JJ., that the object of the suit not being to recover any property in specie, section 10 did not apply. A similar view was adopted in *Advocate General* v. *Bai Punjabai*, I. L. R. 18 Bom. 551 (at pp. 566, 567), where the claim was against a trustee for an account of income and disbursements in respect of trust-property and for the balance if any. In *Hurro* v. *Tarini*, I. L. R. 8 Cal. 766, however, Wilson, J., directed an account and in a manner doubted the correctness of the rule laid down in I. L. R. 5 Cal. 910, and in *Nistarini* v. *Nandlal*, I. L. R. 30 Cal. 369 (at p. 384), a trustee was directed to render accounts irrespective of any question of limitation. In *Ranga* v. *Baba*, I. L. R. 20 Mad. 398, the question whether section 10 applied to a suit charging breaches of trust and claiming an account was regarded as a somewhat doubtful question and was left open.

Section 8, clause 1, of the Trustee Act, 1888 (51 & 52 Vict., c. 59), saves from the bar of limitation a claim against a trustee "to recover trust-property, or the proceeds thereof still retained by the trustee, or previously received by him and converted to his use." It has been held that actions against express trustees claiming an account of such property cannot be barred by the Statute of Limitations: *Rochefoucault* v. *Boustead* (1897), 1 Ch. 196, at p. 208; *North America Co.* v. *Watkins* (1904), 1 Ch. 242.

Section 14.

Clause 15.—This is section 14 of the Act. The second paragraph of this section is omitted as it is proposed in the Civil Procedure Code Bill to leave out the provision relating to staying proceedings contained in section 20 of the present Code of Civil Procedure.

Section 15.

Clause 16.—Words are proposed to be inserted in the clause so as to make its provisions applicable to cases where the execution of a decree has been stayed by injunction or order.

This section is not applicable to cases of applications for execution of decrees: *Rungiah v. Nanjappa*, I. L. R. 26 Mad. 780, 782, although in *Beni* v. *Surja*, I. L. R. 26 All. 140, the High Court of Allahabad in computing the period of limitation for an application for execution of a decree allowed the period, during which an injunction staying the execution was in force, to be excluded; it is not, however, clear upon the judgment under what provision of the Act this exclusion was allowed.

The Courts have in many cases where the execution of a decree has been stayed by an injunction or order relieved the decree-holder from the bar of limitation by treating the application made after the withdrawal of the injunction or order as an application to revive or continue some previous application; *Kalyanbhai* v. *Ghanesham*, I. L. R. 5 Bom. 29, p. 34 *et seq.*; *Narayan* v. *Sono*, I. L. R. 24 Bom. 345; *Issur* v. *Abaul*, I. L. R. 4 Cal. 415; *Hurronath* v. *Chuni*, I. L. R. 4 Cal. 877; *Ashraf* v. *Bepin*, I. L. R. 30 Cal. 407, at pp. 411, 413; *Gurudeo* v. *Amrit*, I. L. R 33 Cal. 689; *Lakhmi* v. *Ballam*, I. L. R. 17 All. 425, and *Qamaruddin* v. *Jawahir*, I. L. R. 27 All. 334 P. C., may be cited as instances.

But it is not always possible by this method to relieve an applicant for execution, in cases where execution has been stayed by reason of an order of Court, from the bar of limitation; as for instance in cases where there was no pending application for execution at the date of the injunction or order (*Sarup* v. *Watson*, 6 C. W. N. 735); or where the previous application had been dismissed after the removal of the bar but before the date of the fresh application (*Dukhiram* v. *Jogendra*, 5 C. W. N. 347).

In the course of their judgment in *Rungiah* v. *Nanjappa*, I. L. R., 26 Mad. 780, Benson and Bhashyam Ayyangar, JJ., observed as follows: "it is only reasonable and proper that in computing the period of limitation prescribed for an application for execution of a decree, the time during which the attaching decree-holder prosecutes a suit under section 283, or during which execution of the decree or a portion of it has been stayed by injunction or otherwise, should be excluded" (at p. 783).

N. W.

Clause 18.—The addition of this clause was recommended in the Civil Procedure Bill of 1903. In their report the Select Committee observed as follows:

"In proposing an additional section (16A) we have acted on the view that the purpose of clause 424 (section 424 of the Code of Civil Procedure) is to give notice and facilitate

compromise, but not to shorten the period of limitation. Where, for example, the period of limitation is only thirty days, the deduction of two months on account of notice negatives the right of suit."

Section 19. *Clause 21.*—There is a conflict between the Madras High Court and the other High Courts on the question whether the provisions of section 19 apply to applications for execution of decrees; the Madras High Court has answered the question in the negative; *Rama* v. *Venkatu*, I. L. R. 5 Mad. 171 F. B.; *Sreenivasa* v. *Bonuswamy*, I. L. R. 28 Mad. 40; and the other High Courts have answered it in the affirmative: *Trimbak* v. *Kashinath*, I. L. R. 22 Bom. 722, 727; *Venkatrao* v. *Bijesing*, I. L. R. 10 Bom. 108; *Ram v. Jakur*, I. L. R. 8 Cal. 716; *Toree* v. *Mahomed*, I. L. R. 9 Cal. 730; *Norendra* v. *Bhupendra*, I. L. R. 23 Cal. 374, 387; *Ramhit* v. *Satgur*, I. L. R. 3 All. 247 F. B.; *Janki* v. *Ghulam*, I. L. R 5 All. 201; *Fateh* v. *Gopal*, I. L. R. 7 All. 424; *Mahomed* v. *Payag*, I. L. R. 10 All. 228; *Bhagat* v. *Chint*, Punj Record No. 28 of 1885; *Bhagabutty* v. *Ashutosh*, 8 C. W. N. 470.

It may be observed that under section 8, 37 & 38 Vict., c. 57, the right to take proceedings to enforce a judgment may be saved by acknowledgment or payment: *Jay* v. *Johnstone*, 1893, 1 Q. B., p. 25, on appeal, p. 189, where at p. 190, Lindley, L. J., opened his judgment with the following remark: "The question raised by this appeal is a very important one, namely, whether proceedings can be taken to enforce a judgment after twelve years, there having been no payment or acknowledgment in the meantime."

The proposed amendment is intended to make it clear that the provisions of the clause apply to applications for the execution of decrees.

Section 20. *Clause 22.*—The expression "produce of land" may not include rent paid by tenants in occupation of the land. [See *Ummer* v. *Abdul*, I. L. R. 2 Mad. 165]. The proposed amendment will remove the doubt.

There is a conflict between the Calcutta and the Madras High Court on the one hand and the Allahabad High Court on the other on the question whether the word "debt" in this section includes what may be called a judgment-debt; the Calcutta and the Madras High Court answering the question in the negative: *Kader Bux v. Gour*, 6 C. W. N. 766; *Periasami* v. *Krishna*, I. L. R. 25 Mad. 431, 442; *Kuppu* v. *Rengu*, I. L. R. 27 Mad. 608; *Srinivasa* v. *Ponnu*, I. L. R. 28 Mad. 40, and the cases of *Kally* v. *Heera*, I. L. R. 2 Cal. 468, and *Mungul* v. *Shama*, I. L. R. 4 Cal. 708, decided under sections 20 and 21 of Act IX of 1871; and the Allahabad High Court answering it in the affirmative: *Roshan* v. *Mata*, I. L. R. 26 All. 36; *Janki v. Ghulam*, I. L. R. 5 All. 201; *Ramhit* v. *Satgur*, I. L. R. 3 All 247; *Muhamad* v. *Payag*, I. L. R. 16 All. 228; *Ashanullah* v. *Dakkhina*, I. L. R. 27 All. 575. It seems that acknowledgments and payments should in this respect have the same effect, and it may be observed that under section 8, 37 & 38 Vict., c. 57. a payment would save the right to take proceedings to enforce a judgment; *Jay* v. *Johnston* (1803), 1 Q. B. 189.

The explanation is added to remove this conflict.

New. *Clause 23* (1).—There is a conflict of authority on the question whether a guardian of a minor is an agent within the meaning of these sections. In *Tilluck* v. *Chutta*, I. L. R. 26 All. 598, it was held that a payment made by a natural guardian of certain minors of interest due on a bond executed by their deceased father did not meet the requirements of section 20; in *Wajibun* v. *Kadir*, I. L. R. 13 Cal. 292, it was held that an acknowledgment given by the natural guardian of a minor was not enough to give the creditor a fresh period of limitation, and the same view was taken in *Maharana* v. *Vadilal*, I. L. R. 20 Bom. 61. On the other hand, in *Annapaganda* v. *Sanga*, I. L. R. 26 Bom. 221 F. B., it was held that a payment made or acknowledgment given by a guardian appointed under Act VIII of 1890, if it was within the powers of the guardian under section 27 of the Act, would be sufficient; payment made by such a guardian who had borrowed money on a bond for the benefit of the minor was held to be a good payment under section 20; *Norendra* v. *Raicharan*, I. L. R. 29 Cal. 647; and an acknowledgment made in the course of certain execution proceedings by the pleader of a minor judgment-debtor was held to be within the requirements of section 19 in *Narendra* v. *Bhupendra*, I. L. R. 23 Cal. 374, at p. 387; and in *Sobhanadri* v. *Sriramulu*, I. L. R. 17 Mad. 221, an acknowledgment made by a natural guardian was held to meet the requirements of section 19. In *Beti Maharani* v. *Collector of Etawa*, I. L. R. 17 All. 198 P.C., an acknowledgment made by the Court of Wards on behalf of a person who had been declared disqualified on her own application was held to be sufficient; it may be doubted, however, whether such a disqualified proprietor is a person under disability in the same sense as a minor or an idiot or an insane person.

It may be observed that acknowledgments and payments made by guardians and managers are almost always made for some benefit to the estate of the person under disability, *e.g.*, to avert an impending suit; it would be manifestly unfair, after a creditor has, at the request of the guardian, accepted a payment or an acknowledgment and refrained from suing at once, to allow the minor afterwards to say that the creditor's remedy has become barred.

The addition of this sub-clause will remove the conflict.

Section 22. *Clause 24.*—The proposed amendment is recommended in the fourth schedule annexed to the Civil Procedure Code Bill, 1907. In the notes annexed to their report, the Special Committee made the following observation with reference to this amendment:

"The Committee have amended section 22 of the Limitation Act to supply an omission which has been noticed by the High Courts, namely, the absence of any provision with

regard to a devolution of interest *pendente lite* where it takes place otherwise than by reason of death. The section as amended will include not only cases in which a devolution of interest takes place *pendente lite* owing to death but also to other cases in which such devolution occurs."

Section 26. It is also proposed to save cases where a plaintiff has been made a defendant or *vice versâ* from the operation of this clause: *Jibanti* v. *Gokul*, I. L. R. 19 Cal. 760; *Khaden* v. *Rama*, I. L. R. 17 Mad. 12.

Clause 28.—A clause has been added to provide a rule for the acquisition of easements against the Government.

It is the last clause of section 15 of the Indian Easements Act, V of 1882. There is a conflict on the question whether section 26 applies against the Government. In *Arsan* v. *Rakhal*, I L.R. 10 Cal. 214, 219, Garth, C. J., went on the assumption that it did; whereas in *Secretary of State* v. *Mathura Bai*, I. L. R. 14 Bom. 213, and *Viresa* v. *Tattaya*, I. L. R. 8 Mad 467, it has been held that it does not.

Sixty years is the period of limitation applicable against the Government.

Illustration (*b*) has been omitted as it has been pointed out that it goes beyond the terms of the section which does not require "actual user": *Koylas* v. *Pudao*, I. L. R. 7 Cal. 132.

This illustration does not occur under section 15 of the Indian Easements Act, V of 1882.

Sections 1, 2 and 6. *Clause 31.*—Portions of section 2 have been omitted as unnecessary, having regard to the provisions of the General Clauses Act, 1897, section 6 (*a*), (*c*), and section 8.

Sub-clause (2) (*b*).—The Madras Regulation, VI of 1831, has been repealed except as to the scheduled districts in Madras by the Madras Hereditary Village-offices Act (Mad. Act III), 1895. This Act, however, clearly provides special rules of limitation for suits, appeals and applications, making certain sections of the Limitation Act applicable thereto. Sub-clause (1) (*b*) will therefore save the periods prescribed by this Act from being altered or affected by anything herein contained and it need not be specifically mentioned.

Sub-clause (3).—The sections of the Act corresponding to clauses 28 and 29 of the Bill were repealed by the Indian Easements Act, V of 1882, in the Provinces to which it applies; this sub-clause is added to provide that these provisions of the Bill shall not affect the Easements Act.

New. *Clause 32.*—This clause provides for cases in respect of which the period of limitation has been shortened by the Bill. It proceeds on the lines of the last clause in section 2 of the Act (now repealed by the Repealing and Amending Act, 1891).

Clause 33 (*1*).—The Privy Council has held in the recent case of *Vasudeva* v. *Srinivasa*, 11 C. W. N. 1005, that article 147 (providing a period of sixty years) is applicable only to suits on English mortgages, and that suits on all other mortgages are governed by the twelve years rule contained in article 132. Previous to this decision, the law, as laid down in the decisions of the High Courts of Bombay, Madras and Allahabad, was that article 147 applied to every suit by a mortgagee in which he asked either for foreclosure or for sale: *Motiram* v. *Vital*, I L. R. 13 Bom. 90 F. B.; *Datto* v. *Vithu*, I. L. R 20 Bom. 408 F. B.; *Narayana* v. *Venkata*, I. L. R. 25 Mad. 220 F. B.; *Shib* v. *Ganga*, I. L R 6 All. 551 F. B.

The result has been that in the said territories a large number of mortgage-suits for which the period of limitation had hitherto been believed to be sixty years would be found to be barred by limitation.

This sub-clause is meant to provide for these suits; as also for the continuance of pending suits.

New. *Clause 33* (*2*).—This sub-clause is proposed to provide for the restoration of suits of the description mentioned above which have been dismissed on the ground of limitation since the date of the Privy Council decision. It proceeds on the lines of section 12, Act XXIII of 1861.

Section 2. *Clause 34 and Schedule III.*—The Indian Limitation Act, 1877, and the several general enactments amending it are proposed to be repealed.

Notes on schedules.

SCHEDULE I.

This is Schedule II of the Act. The existing numbering has been retained as far as possible.

Article 5 *Article 5.*—This amendment has been proposed in the fourth schedule of the Civil Procedure Code Bill, 1907. Clause 128 (*f*) of the Civil Procedure Code Bill proposes to authorize the framing of rules extending the summary procedure to the trial of suits other than suits on negotiable instruments.

Article 11. *Article 11.*—The article is proposed to be amended so as to provide for all cases in which the Civil Procedure Code Bill proposes to give a right of suit to challenge orders passed in proceedings relating to resistance and obstruction to the delivery of possession of property to a decree-holder or to a purchaser of property sold in execution of a decree and to dispossession in such delivery of possession.

Article 33 has been divided in order to preserve the numbering of the present Act.

Article 34 of the Act is proposed to be omitted.

A wife, even if a minor, should not be looked upon by the law as a chattel and an object of possession. The Civil Procedure Bill of 1907 has left out the provision relating to a decree for the recovery of a wife (O. XXI, r. 32).

Article 35 of the Act is also proposed to be omitted.

The scope of this article is very limited. It does not apply to cases arising under the Indian Divorce Act. The Allahabad High Court has held that it does not apply to Hindus or Muhammadans, as their personal law does not require an antecedent demand to sustain a suit for restitution of conjugal rights, nor make restitution unenforceable against a minor, and it has further held that the withholding of conjugal rights by either party is a continuing wrong, and that a claim for restitution cannot be barred by limitation: *Binda* v. *Kaunsilia*, I. L. R. 13 All. 126, 146. The same view was taken in *Bai Sari* v. *Saukla*, I. L. R. 16 Bom. 714. These views have been so far modified by the rulings of the Calcutta and Madras High Courts and by the later rulings of the Bombay High Court as to make the article applicable to Hindus and Muhammadans in cases of suits preceded by demand and refusal as mentioned in the third column: *Dhunjibhoy* v. *Hirabai*, I. L. R. 25 Bom. 644 F. B.; *Asirunnissa* v. *Busloo*, I. L. R. 34 Cal. 79; *Saravanai* v. *Poovayi*, I. L. R. 28 Mad. 436. The operation of the article may be easily avoided by a party if he simply refrains from making a demand which, it may be noted, is not under the Hindu or Muhammadan law necessary to give rise to a cause of action. It is a very usual thing in Hindu and Muhammadan families for a wife to go and stay with her parents or brothers and the effect of this article is that if owing to any domestic quarrel the wife should in a fit of temper refuse to return, the husband would be compelled to take the matter into Court within two years.

Article 44.—The article is proposed to be amended so as to be applicable to all transfers of property. Article 44.

It has been held in one case that the word sale does not include a mortgage or a lease: *Ramausar* v. *Raghubar*, I. L. R. 5 All. 490.

Article 60.—There is conflict on the question whether money deposited with a banker is a loan or a deposit. Article 60.

In *Issur* v. *Jiban*, I. L. R. 16 Cal. 25, Wilson, J., held that it is a deposit and not a loan within the meaning of article 59.

In *Ichha* v. *Natha*, I. L. R. 13 Bom. 338, it was held that a deposit with a banker is ordinarily a loan.

In *Dharam* v. *Ganga*, 4 All. Law Journal, 628, it has been held that ordinary dealings between native bankers and their customers are matters of loan within the meaning of article 59.

In *Manchaji* v. *Dorabji*, I. L. R. 19 Bom. 775 and *Perundavi* v. *Nammalvar*, I. L. R. 18 Mad. 390, at p. 394, it was held that whether a particular transaction was a loan or a deposit would depend on the facts of each case.

The amendment suggested would bring the law into conformity with the view taken by ordinary men of business in this country.

Article 99.—It was held in *Patabhi* v. *Ramayya*, I. L. R. 20 Mad. 23, that this article could not apply to a case where not the *whole* but only a *part* of the money due under a joint decree was realized from the plaintiff by the sale of his property by the Court and that it was doubtful whether such a case fell under article 61 or under the general article 120. Article 99.

In *Raja of Vizianagram* v. *Raja Satrucherla*, I. L. R. 26 Mad. 686, at p. 716, Bhashyam Ayyangar, J., pointed out that a strictly grammatical and literal interpretation of this article would lead to anomalous if not absurd consequences, and observed that he would be strongly inclined to read the section as if after the words "had paid" there were the words "on account of". He held that each time that an amount is paid by or levied from the party seeking contribution in excess of his share, he has a right of suit for contribution in respect of such payment. Referring to this case, Stanley, C. J., in *Ibn Hasan* v. *Brijbhukan*, I. L. R. 26 All. 407, observed as follows: "It seems to me very questionable whether the learned Judge has not taken too great a liberty of interpolation with the article in question"—p. 425.

The question whether the word "paid" in article 100 of Act IX of 1871 (which corresponded to the present article 99) covered a case where money was realized by the sale of plaintiff's property was left in doubt by Mitter and Maclean, JJ., in *Fuckoruddin* v. *Mohima*, I. L. R. 4 Cal. 529.

The amendments proposed would meet the points indicated above.

Article 111.—The amendment proposed will make it clear that this article is applicable only to suits to enforce the personal liability of the purchaser. Article 111.

It has been held by the High Courts of Bombay, Madras and Allahabad that a suit by an unpaid vendor to enforce his charge on the land for the unpaid purchase-money is governed by article 132 and not by this article: *Chunilal* v. *Bai Jetha*, I. L. R. 22 Bom. 846; *Virachand* v. *Kumaji*, I. L. R. 18 Bom. 48; *Har* v. *Muhamdi*, I. L. R. 21 All. 454; *Ramakrishna* v. *Subrahmania*, I. L. R. 29 Mad. 305 F. B., overruling *Natesan* v. *Soundra*, I. L. R. 21 Mad. 141, and *Avuthala* v. *Dayumma*, I. L. R. 24 Mad. 233.

Article 116.—It is proposed to amend this article so as to exclude from its operation suits for arrears of rent payable under a registered lease. Article 116.

There is conflict on the question whether a suit for arrears of rent due under a registered lease is governed by this article or by article 110 which provides three years for

suits for arrears of rent. The Calcutta High Court has held that such suits, if not governed by the Bengal Tenancy Act (that is, if the rent is not due in respect of agricultural lands) would come under article 116 and not under article 110: *Umesh* v *Adarmoni*, I. L. R. 15 Cal. 221; *Raneegunge Coal Company* v. *Jadunath*, I. L. R. 19 Cal. 489; suits for rent due under a registered contract are also held to be governed by article 116 by the Madras High Court: *Vythilinga* v. *Thetchama*, I. L. R. 3 Mad. 76 The Allahabad High Court has however held that such suits are governed by article 110, which specifically deals with suits for arrears of rent: *Ramnarain* v. *Kamta*, I. L. R. 26 All. 138.

The ruling of the Calcutta and Madras High Courts would reduce the scope of article 110 to cases of tenancies for a term not exceeding one year and monthly tenancies, as all other tenancies must be created by registered instruments.

Article 118. *Article 118.*—The amendment is proposed to remove a conflict of authority, and it adopts the view taken by Bhashyam Ayyangar, J, in *Chiruvolu* v. *Chiruvolu*, I. L. R. 29 Mad. 390.

In a suit to set aside an adoption where but for the adoption the estate would be in a Hindu female a remote reversioner has been held to claim through the presumptive reversioner in the following cases:—*Ayyadori* v. *Solai*, I. L. R. 24 Mad. 405; *Chiruvolu* v *Chiruvolu*, I. L. R. 29 Mad. 390 F. B.; *Harnath* v. *Mandil*, I. L. R., 27 Cal. 379, at p. 403; *Srinivasa* v. *Hanmant*, I. L. R. 24 Bom 260, at p. 266; *Siddheswar v. Sham Chand*, 23 W. R. 285 (decided under Act IX of 1871); *Mrinomoyee* v. *Bhoobun*, 23 W. R 42 (decided under Act XIV of 1859).

The contrary view has been taken in the following cases:—*Abinash* v. *Harinath*, I. L. R. 32 Cal. 62, at p. 71; *Bagwanta* v. *Sukh*, I. L. R. 22 All. 33, at pp. 44, 45.

In the case of *Chirnvolu* v. *Chirnvolu*, I. L. R. 29 Mad. 390 F. B., however, the Court observed that in suits relating to the alienations by a qualified owner (such as a Hindu widow) the presumptive reversioner cannot, on the current of authority, be held to represent remote reversioners (at p. 411). The conflict therefore is limited to suits relating to adoption.

Article 163. *Article 163.*—The amendment is recommended by the Special Committee on the Civil Procedure Code Bill, 1907.

Article 166. *Article 166.*—The amendment is recommended by the same Committee. In the notes on Schedules annexed to their report they observe as follows:

"The Code [s. 312] contemplates the confirmation of a sale of immoveable property immediately on the expiration of the thirty days allowed by article 166 of the Limitation Schedule. But the period allowed for an application to set aside a sale on the ground that the judgment-debtor had no saleable interest therein is sixty days [article 172]. The result is that in some Provinces the confirmation of a sale is delayed for sixty days; whilst in other Provinces, sales which have been already confirmed are liable to be set aside. The Committee think that in the matter of limitation an application under section 313 should be brought into line with an application under section 312, and they therefore propose to repeal article 172 and to amend article 166 so as to include applications under section 313."

Article 171. *Articles 171, 172.*—Article 171 of the Act has been broken up into these two articles. References to the sections have been omitted and words have been added to describe the order of dismissal referred to.

Article 172 of the Act is omitted from the Bill [*Vide* notes on article 166.]

Article 174 of the Act is omitted as it has been repealed by the Provincial Insolvency Act, 1907, with effect from the 1st January, 1908.

Articles 175A, 175C *Articles 176, 177.*—These two articles have been substituted for the three articles in the Act. Article 177 is recommended by the Special Committee of 1907.

Article 177. *Article 179.*—In article 177 of the Act the description of the application intended to be governed by it does not seem to be accurate.

Section 598 of the Code deals with the application to be made by an intending appellant; section 603 deals with the admission of the appeal. Section 598 requires that the application should pray for a certificate that the case is a fit one for appeal; section 603 does not require that any application should be made for the admission of the appeal.

It may be noted that the word *may* in section 603 of the present Code has been replaced by the word *shall* in O. XLIV, r. 8, of the Code of Civil Procedure Bill, 1907.

Article 179. *Article 181, third column, clause 2.*—There is conflict on the question whether, where an appeal has been withdrawn, time would run from the date of withdrawal of the appeal or from the date of the original decree.

In *Peria* v. *Lakshmi*, I. L. R. 30 Mad. I. F. B., it has been held by the Madras High Court that in case of an appeal which has been withdrawn time should run from the date of the order of the Appellate Court dismissing the appeal on such withdrawal.

The Bombay High Court has on the other hand held that when an appeal is withdrawn time would run from the date of the original decree: *Abdul* v. *Moidin*, I. L. R. 22 Bom. 500, at p. 506.

New. *Article 181, third column, clause 4.*—There is conflict on the question whether when a decree has been amended time for an application for execution would run from the date of the decree or from the date of the amendment.

In *Kali Prasanna* v. *Lal Mohan*, I. L. R. 25 Cal. 258, the application for amendment (to include in the decree certain costs which had been awarded by the judgment) was regarded as an application for review; the same view was taken in *Venkata* v *Venkata*, I. L. R. 24 Mad. 25, where the application was to amend the amount of costs entered in decree; and in *Amar* v. *Asad*, I. L. R. 32 Cal. 908, it was held that time would run from the date of amendment as the amended decree was the final decree to be executed.

The Allahabad High Court on the other hand has held that an application under section 206 of the Code of Civil Procedure to amend a decree so as to bring it into conformity with the judgment is not an application for review, and that time will run from the date of the decree as originally drawn up: *Ahsan* v *Dakkhini*, I. L. R. 27 All. 575; *Kallu* v. *Fahiman*, I. L. R. 13 All. 124; *Muhammad* v. *Muhammad*, I. L. R. 17 All. 39; and *Daya* v. *Nanhi*, I. L. R. 20 All. 304.

Article 181, third column, clause 6.—There is conflict on the question whether the date referred to in this clause is the date of the order of the Court directing notice to issue or the date on which the notice actually issues from the Court, some time being usually taken in the drawing up and signing of the notice.

The Calcutta and the Madras High Courts have held that the date of actual issue is meant: *Kedareswar* v. *Mohin*, 6 C. W. N. 656; *Ratan* v. *Deb*, 10 C. W. N. 303; *Cheruvath* v. *Nerath*, I. L. R. 30 Mad. 30.

The Bombay and the Allahabad High Courts have held that where notice has been issued time would run from the date of the Court's order to issue the notice: *Govind* v. *Dada*, I. L. R. 28 Bom. 416; *Damoda* v. *Sonaji*, I. L. R. 27 Bom. 622; *Udit* v. *Rampertab*, 1 All. W. N. 147.

SCHEDULE II.

This schedule specifies the territories in which previous to the recent decision of the Privy Council (11 C. W. N. 1005) the law was held to be that the period of limitation for every suit by a mortgagee, whether he asked for foreclosure or for sale, was sixty years as provided by article 147 and not twelve years as provided by article 132.

The list is not exhaustive as it is not definitely known whether there are not other Provinces or Districts where the same view of the law prevailed.

SCHEDULE III.

The enactments proposed to be repealed are specified in this schedule.

J. M. MACPHERSON,
Secretary to the Government of India.

INDIAN LIMITATION BILL.

The Hon'ble MR. ERLE RICHARDS said:—"My Lord, the title of the Bill which I now ask leave to introduce appears to be somewhat ambitious. It is the 'Indian Limitation Act,' and it might be assumed from that title that this Council was to be asked to embark on a general amendment of the Law of Limitation. I desire at the outset to make it clear that there is no such intention. The Bill is intended primarily to remedy a hardship caused by a recent decision of the Privy Council to which I will return in a moment; to make some amendments ancillary to the Code of Civil Procedure Bill which is now before this Council and which, it is hoped, will be shortly passed into law; and in addition to amalgamate in one enactment the various Acts through which the law is at present scattered. For the rest the amendments are, as is believed, of an unimportant character directed solely to clearing up points as to which there exist a conflict between the various High Courts. The Bill makes no other changes in the law.

"For some years past there has been a difference of opinion as to the period of time within which suits to enforce payment of money secured by mortgages other than English mortgages might be brought: some High Courts have held that the period was sixty years and that the case was governed by Article 147; other High Courts have held that Article 132 applied and that the time was twelve years. The result has been that the law has differed in different Provinces: in some Provinces the sixty years' rule prevailed: in others twelve years was the time allowed. The Privy Council have now decided that the latter view is correct and that the period of limitation for suits of this character all over India is twelve years and no more. This result has caused coniderables hardship in the territories within which the sixty years' rule had prevailed. Suits for the enforcement of mortgages, which before the decision of the Privy Council would have been within time, have been and must be dismissed by Courts on the ground that they are barred by limitation: and claims under a still larger number of mortgages have become unenforceable owing to the construction now put upon the Statute. Mortgagees relied and were entitled to rely on the view of the law taken by the High Courts of their respective Provinces, and it does not seem fair that they should lose their rights merely because that view has now turned out to be incorrect. The Government of India are of opinion that some provision should be made to meet these cases and the Bill accordingly proposes that suits in the Provinces in which the sixty years' rule prevailed, may be brought within two years from the passing of the Bill: it also provides for the continuance of pending suits and for the restoration of suits which have been dismissed on the ground of limitation since the date of the Privy Council decision.

"Further amendments, My Lord, are required, as I have said, to make the law of limitation conform to the new proposals in regard to civil procedure. The two Statutes are to some extent interwoven, and it is not possible to amend the one without making necessary some amendments in the other. Such of these amendments as are matters of substance have been recommended either by the Select Committee of 1903 or by the Special Committee of 1907 and have been already discussed in connection with the Code of Civil Procedure Bill. Some objection has been taken to the definition of 'moveable property,' a definition recommended by the Select Committee of 1903, and that objection will be carefully considered. The other amendments of substance are not, as is thought, of a contentious character. Beyond these, the changes are more matters of form.

"Another class of amendments is that necessitated by differences entertained by various High Courts as to the construction of the present Act. I have already made reference to one difference which the Privy Council have now finally determined, but there are other cases in which similar conflicts exist, conflicts which may result in the same sort of hardship. It seems most desirable to take an early opportunity of ending these conflicts by legislation. It is believed that the amendments required raise no general questions of importance.

"Other changes in the existing periods of limitation have been suggested to the Government of India, but have been rejected on the ground that they raise questions of principle, and for that reason, even if beneficial in themselves, are not within the scope of this Bill; such for instance are proposals for the reduction of the period of limitation now given by Articles 145, 146 and 147 of the existing Act. The tendency of modern legislation is beyond doubt to shorten the time of limitation and on general principles that is a result to be desired. But in India we must proceed slowly: changes of the law in these respects are apt to create hardship and in many matters, especially in those relating to land, Western legislation is not a safe precedent for India. Moreover we have in this as in other questions to take into account the great difference in practice in the various Provinces It has been suggested for instance that the period of 60 years allowed under the existing law for suits for redemption should be curtailed and that, following English law, one uniform period should be enacted for all mortgage suits—a suggestion which has the support of high authority. But it is clear that in India any such change would have far-reaching results, and that however desirable in some Provinces it would be altogether opposed to the habits of the people in others. This is an illustration of the sort of difference to which I have referred. I mention these matters in passing, because they have been the subject of some discussion in connection with the present Bill, but they are not material to the motion before the Council; for the Bill is intended to be restricted and will, I think, be found to be restricted to minor amendments for the most part of a non-contentious character.

"My Lord, if the amendments to which I have called attention were alone in print this Bill would be of small dimensions, but it has been thought desirable to take this opportunity of reprinting the present Limitation Act with the amendments which have been made in it from time to time by the Legislature since 1877 and those now proposed. There are no less than eleven amending Acts already on the Statute-book, and it is from every point of view desirable to substitute one enactment for the twelve, or if this Bill were passed in the form of an amending Bill only, for the thirteen, in which the law would otherwise be contained. Our statute-book, if I may use that expression for convenience though it is not accurate in fact, is full of amending Acts: there are some 350 Acts of general application and of these about 120 are amending Acts, many of them making but trifling changes, altering a few words or perhaps a clause or two. The result is that our collection of Statutes has become confused and complicated, and that it is increasingly difficult for those who have to refer to it to find the law with accuracy. The Government of India from time to time issue copies of Acts as amended up to date, but these copies have no authority and the amending volumes are themselves the sources of some confusion. It seems desirable therefore, when opportunity offers, to consolidate Acts, that is, to reprint them as amended, repealing the amending Acts in the manner proposed in the present case and so to simplify the Statute-book. 'Consolidation' is a long word, but in this connection it means reprinting and nothing more.

"A draft Bill, containing the amendments now before this Council and some others put forward for discussion but not adopted was circulated to Local Governments and others some two months since: but owing to a misunderstanding which has only recently come to my notice an altogether insufficient interval was allowed for replies. I have to express my regrets to those consulted that this was so. These criticisms with which we are favoured on our legislative proposals are of the utmost value and it would be most unwise for this Council to pass any Act such as this until it had been sufficiently discussed. The Bill as now before this Council is not, as I have said, of a contentious character, but adequate opportunity for discussion must be given before it is passed into law."

The motion was put and agreed to.

The Hon'ble MR. ERLE RICHARDS introduced the Bill.

The Hon'ble MR. ERLE RICHARDS moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, JANUARY 8, 1908.

NOTICES TO MARINERS.

THE following Notices are published for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 4th January 1908.*

INDIA, WEST—BOMBAY COAST—NORTH KANARA.

Caution—Danger to Navigation near Karwar.

No. 1 (first publication).—The Bombay Government has given notice (No. 136 of 1907) that 19 teak logs on a raft in transport from Gangawali to Kodibag on 3rd instant were lost at sea off Beitkoe (Bhatkul) near Karwar. Mariners are hereby warned.

AUSTRALIA, NORTH COAST—TORRES STRAIT.

Glamis Castle shoal—Position of—.

No. 2 (first publication).—The British Admiralty has given notice (No. 1766 of 1907) that careful but unsuccessful search has been made for Glamis Castle shoal in Torres strait in approximately lat. 10° 18′ S., long. 141° 1′ E., without finding or seeing any indication of danger; but as it is considered possible that this shoal may exist in approximately lat. 10° 15′ S., long 141° 1′ E., it has been decided to retain it with P D. marked against it on the charts in this latter position.

This Notice affects the following Admiralty Charts:—Western approach to Torres strait, No. 447; gulf of Carpentaria, No. 1043, Australia, No 2759a: Also, Australia Directories, vol. II, 1907, page 579, vol. III, 1906, page 40.

AUSTRALIA, NORTH COAST—TORRES STRAIT.

Prince of Wales channel—Non-existence of rock.

No. 3 (first publication)—The British Admiralty has given notice (No. 1767 of 1907) that a careful but unsuccessful search has been made for the rock reported in 1891 about 5 miles N. 79° W. from Quoin point, Goode island, and marked E D. on the charts in Prince of Wales channel in approximately lat. 10° 32½′ S., long. 142° 4½′ E, without finding any indication of danger

As this rock was originally reported as being seen only, and no soundings taken over it, it is considered that it does not exist, and it has therefore been erased from the charts.

(*Variation 4° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Albany pass to Booby island, No. 437; Torres strait, No. 2375: cape Grenville to Booby island, No. 2354; western approach to Torres strait, No. 447: Also, Australia Directory, vol. II, 1907, page 495.

AUSTRALIA, NORTH COAST—Torres strait.

Unsuccessful search for shoal in the western entrance.

No. 4 (first publication).—The British Admiralty has given Notice (No. 1768 of 1907) that careful but unsuccessful search has been made for the shoal reported in the western entrance to Torres strait in approximately lat. 10° 37¾′ S., long. 141° 34½′ E., and marked P. D. on the charts.

As this shoal has previously been searched for by a surveying vessel without finding any indication of danger, it has been decided to place E.D. against it on the charts with the note, 'Unsuccessfully searched for by *Paluma*, 1893, *Fantome*, 1907."

This Notice affects the following Admiralty Charts:—Cape Grenville to Booby Island, No. 2354, western approach to Torres strait, No. 447; gulf of Carpentaria, No. 1043: Also, Australia Directories, vol. II, 1907, page 578; vol. III, 1905, page 39.

AUSTRALIA, SOUTH—Gulf of St. Vincent.

Port Adelaide—Movements of Dredger.

No. 5 (first publication).—With reference to Notice to Mariners No. 72, dated 8th February 1907, issued by this office, the British Admiralty has given further notice (No. 1773 of 1907) that the dredger when at work in the vicinity of the second line of leading lights in the entrance to port Adelaide river will on inward and outward bound vessels making the signals described in Notice to Mariners No. 75 of 1907 be moved to the south side of the channel. A red ball by day or a *red* light under a *white* light by night will be always shown from the dredger.

Vessels must pass to the north-westward of the dredger.

The signals abovementioned are as follows:—

(*a*) Inward-bound vessels when abreast of the buoy showing an occulting light at the entrance to the river must give blasts of thirty seconds' duration every minute with a whistle or siren until answered by the dredgers in a similar manner.

(*b*) Outward-bound vessels when abreast of No. 3 beacon must give the same signal as above until it is repeated by the dredgers.

Approximate position, No. 3 beacon, lat. 34° 46¾′ N., long. 138° 29′ E.

This Notice affects the following Admiralty Publication:—Australia, vol. I, 1897, page 329.

AUSTRALIA, SOUTH-EAST—Victoria.

Port Phillip Entrance, Coles Channel—Position of buoy altered.

No. 6 (first publication).—The British Admiralty has given notice (No. 1781 of 1907) that in consequence of the extension to the westward of West sand on the eastern side of Coles channel, Port Phillip entrance, the red conical buoy formerly marking the southern point of West sand has been moved about $1\frac{1}{10}$ cables N. 3° W. from its former position; it is consequently now in a position situated at a distance of 13¼ cables N. 27° E. from Swan island beacon.

Approximate position on chart No. 309, Swan island beacon, lat. 38° 15¼′ S., long. 144° 41¾′ E.

(*Variation 8° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Port Phillip, West channel, No. 309; port Phillip entrance, Nos. 1171a, 2747: Also, Australia Directory, vol. I, 1897, page 451.

INDIA, WEST—Kathiawar coast.

Porbandar—Non-existence of wreck in approach.

No. 7 (first publication).—The British Admiralty has given notice (No. 1787 of 1907) that the wreck in the approach to Porbandar has not been seen or heard of for nearly 12 years, and is not now considered to exist. It has, therefore, been erased from the charts.

Approximate position, lat. 21° 29½′ N., long. 69° 30½′ E.

This Notice affects the following Admiralty Charts:—Dwarka point to Dice head, No. 1420 gulf of Kutch to Viziadrug, No. 2736; Karachi to Vengurla, No. 826: Also, West Coast of Hindustan Pilot, 1898, page 265.

INDIAN OCEAN—Comoro Islands, Mayotta.

Bandeli Passage—Depths in—.

No. 8 (first publication)—With reference to Notice to Mariners No. 140, dated 23rd April 1906, issued by this office, the British Admiralty has given further Notice (No. 1789 or 1907) that further examination shows that the depths in Bandeli passage, Mayotta island, are less than those formerly found, and that at present there is a depth of 17 feet in the entrance not far from the leading line.

Vessels of any draught should only attempt the passage at about high water.

Approximate position, lat. 12° 53′ S., long. 45° 17′ E.

This Notice affects the following Admiralty Chart:—Mayotta island, No. 2741: Also, Africa Pilot, part III, 1905, page 561.

CHINA SEA.

Hong Kong—Storm signals altered.

No. 9 (first publication).—The British Admiralty has given notice (No. 1792 of 1907) that the storm signals at that port have been altered as follows. They are made from a mast in front of the Water Police station at Kaulung point, but do not necessarily imply that bad weather is expected at Hong Kong:—

	Signal.	Signification.
1.	A cone point upwards ...	Indicates a typhoon to the north of Hong Kong.
2.	A cone point upwards and drum below.	Indicates a typhoon to the north-east of Hong Kong.
3.	A drum	Indicates a typhoon to the east of Hong Kong.
4.	A cone point downwards and drum below.	Indicates a typhoon to the south-east of Hong Kong.
5.	A cone point downwards ...	Indicates a typhoon to the south of Hong Kong.
6.	A cone point downwards and ball below.	Indicates a typhoon to the south-west of Hong Kong.
7.	A ball	Indicates a typhoon to the west of Hong Kong.
8.	A cone point upwards and ball below.	Indicates a typhoon to the north-west of Hong Kong.

Red signals indicate that the centre is believed to be more than 300 miles away from the Colony.

Black signals indicate that the centre is believed to be less than 300 miles away from the Colony.

The above signals will, as heretofore, be hoisted only when typhoons exist in such positions or are moving in such directions that information regarding them is considered to be of importance to the Colony or to shipping leaving the harbour.

These signals are repeated at the Harbour Office, H.M.S. *Tamar*, Green island signal mast, and the flagstaff on the premises of the Hong Kong and Kaulung Wharf and Godown Company at Kaulung.

URGENT SIGNAL.

In addition to the above, when it is expected that the wind may increase to full typhoon force at any moment, the following urgent signal will be made at the Water Police Station, and repeated at the Harbour Office:—

Three explosive bombs, at intervals of ten seconds.

A black cross will be hoisted at the same time, superior to the other shapes.

NIGHT SIGNALS.

The following night signals will be exhibited from the flagstaff on the roof of the Water Police Station at Kaulung, the Harbour Office flagstaff, and H M S. *Tamar*:—

I.—Three lights vertical, *green, green, green.* Indicates that a typhoon is believed to be situated more than 300 miles from the Colony.

II.—Three lights vertical, *green, red green.* Indicates that a typhoon is believed to be situated less than 300 miles from the Colony

III.—There lights vertical, *red, green, red.* Indicates that the wind may be expected to increase to full typhoon force at any moment.

No. III signal will be accompanied by the explosive bombs, as above, in the event of the information conveyed by this signal being first published by night.

The above night signals will be substituted for the day signals at sunset, and will, when necessary, be altered during the night.

SUPPLEMENTARY WARNINGS.

For the benefit of native vessels and passing ocean vessels, a cone will be exhibited at each of the following stations during the time that any of the above day signals are hoisted in the harbour:—

Gap rock	Cape Collinson.	Sai Kung.
Waglan.	Aberdeen.	Sha Tau Kok.
Stanley.	Sau Ki Wan.	Tai Po.

This will indicate that there is a depression somewhere in the China Sea, and that a storm warning is hoisted in the harbour.

Further details can always be given to ocean vessels, on demand, by signal, from the lighthouses.

Approximate position, Police flagstaff, lat. 22° 18′ N., long. 114° 10′ E.

This Notice affects China Sea Directory, vol. III, 1904, page 76.

CHINA, SOUTH COAST—HONG HAI BAY.

Sam Chau Inlet—Alteration in depths.

No. 10 (first publication).—With reference to Notice to Mariners No. 275, dated 3rd August 1906, issued by this office, the British Admiralty has given further notice (No. 1803 of 1907) that information has been received respecting the depths in the channels into Sam chau inlet as follows:—

a. The channel between Hsi hu (Entrance) island and Wai Chia (Outer bank) has narrowed considerably by the shifting to the southward and westward of the southern end of Outer bank: there are now depths of from 21 to 26 feet in it.

b. The channel westward of Nei chia (Inner bank) has now a least depth, off Tu ti chueh, of 9 feet in it, and the channel generally is shoaler than shown on the charts.

c. The channel eastward of Nei chia between Hsiyung tu and Tung ching chueh has deepened, and there are depths of from 40 to 50 feet to the southward of Tung ching chueh. At the southern junction of channels eastward and westward of Nei chia there are depths of from 21 to 27 feet at low water.

The Outer and Inner banks break heavily at low water even in very light south-easterly winds.

Approximate position, Entrance islands, lat. 22° 41′ N., long. 114° 59′ E.

This Notice affects the following Admiralty Chart:—Sam chu inlet, No. 3459: Also, China Sea Directory, vol. III, 1904, page 137, and Supplement, 1907.

PACIFIC OCEAN—PHILIPPINE ISLANDS—PANAY, EAST COAST.

Turia Rock—Buoy altered.

No. 11 (first publication).—The British Admiralty has given Notice (No. 1804 of 1907) that the conical buoy marking Turia rock in the approach to Ilo Ilo having disappeared, it has been replaced by a can buoy painted in red and black horizontal bands moored in a depth of 27 feet, at a distance of 4½ miles S. 70° E. from Calabazae lighthouse.

Approximate position, lat. 11° 3′ N., long 123° 4′ E.

Vessels are recommended to give the above buoy a berth of half a mile in passing.

NOTE.—This buoy appears to be on the western side of Turia rock Vessels therefore should pass to the westward of it. The track, which is shown on the Admiralty charts as passing to the eastward of it, has been erased in consequence.

(*Variation 1° Easterly in 1907.*)

This Notice affects the following Admiralty Chart :—Sulu or Mindoro sea, No. 2578: Also, Eastern Archipelago, part I, 1902, page 266.

PACIFIC OCEAN, SOUTH—SOCIETY ISLANDS—TAHITI ISLAND.

Papiete—Shoals in Pass.

No. 12 (first publication).—The British Admiralty has given notice (No. 1805 of 1907) that two shoal heads, one on either side of the leading line, with depths of 3¾ fathoms over them, have been found in Papiete pass. These shoals have been placed on the chart on either side of the leading line at a distance of 4 cables N. 13° W. from the Obelisk on Soaotoi reef.

Approximate position lat. 17° 31¾′ S., long. 149° 34½′ W.

(*Variation 9° Easterly in 1907.*)

This Notice affects the following Admiralty Chart :—Papiete pass to Papenu pass No. 1158 : Also, Pacific Islands, vol. III, 1900, page 59 ; and Supplement, 1903.

PACIFIC OCEAN, SOUTH—TUAMOTO ARCHIPELAGO—HIKUERU OR MELVILLE ISLAND.

Tupapati—Occasional light.

No. 13 (first publication).—The British Admiralty has given notice (No. 1806 of 1907) that a *white fixed* light elevated 42 feet above high water, and visible in clear weather from a distance of 7 miles, has been established on a mast, 39 feet high, erected at the landing place of the village of Tupapati, Hikueru island.

Approximate position, lat. 17° 35′ S., long. 142° 42′ W.

This light is only exhibited when a vessel is in sight.

As the exact position of this light is not given, the name "Tupapati, light shown when ship is sighted," has been placed on the chart against Hikueru island.

This Notice affects the following Admiralty Chart :—Tuamotu, &c., No. 767 : Also, List of Lights, Part VII, 1907, page 117 ; and Pacific Islands, vol. III., 1900, page 124.

BAY OF BENGAL—ORISSA COAST.

Dhumra River—"E" Buoy replaced.

No. 14 (first publication).—With reference to Notice to Mariners No. 544 of 7th December 1907, issued by this office, the Port Officer, Cuttack and Balasore Ports, has given further notice, dated 31st December 1907, that the "E" Buoy has been replaced in

position in 28 feet reduced, light house structure bears S. 53° East, magnetic, distance 6,200 feet.

Crossing *South* Channel Bar.

Course in with "E" buoy bearing W. S. W. magnetic, gives 11 feet reduced on bar:—

Water on Bars.	Reduced.
South Channel	11 feet.
Chandipur	11 feet.
Jutá	6 feet.

BAY OF BENGAL—Chittagong coast.

South Patches light-vessel—Temporarily removed.

No. 15 (first publication).—With reference to Notice to Mariners No. 499, dated 9th November 1907, issued by this office, a further telegraphic communication has been received from the Port Officer, Chittagong, intimating that the South Patches light-vessel was removed from her station on the 2nd January 1908.

CHINA SEA—Sulu Archipelago.

S S. "Progress"—Report of accident on Uncharted-rock.

No. 16 (first publication).—The Harbour Master, Hong-kong, has given notice (No. 829 of 1907) that the Master of the Norwegian S.S. *Progress* reports having struck a Pinnacle rock having a depth of 3 fathoms:—

In Latitude ... ... 6° 7′ 45″ North.
Longitude ... ... 118° 25′ 30″ East.

Baguan island bearing S E. ½ E. Mag, 2 miles.

INDIAN OCEAN,—Mauritius.

Port Louis—Dredged Area.

No. 575 (second publication).—The British Admiralty has given Notice (No 1721 of 1907) that the undermentioned rectangular area in port Louis, Mauritius, has been dredged to a depth of 29 feet at low-water springs; this area is included between imaginery lines drawn between the following positions:—

(*a*) Positions situated at distances of 2½ cables N. 33° W. and $2\frac{6}{10}$ cables N. 58° W. respectively from the port jetty-head.

(*b*) Positions situated at distances of $2\frac{8}{10}$ cables S. 5° W. and $3\frac{7}{10}$ cables S. 16° W., respectively, from the Martello tower, Fort George.

The north-western boundary of this area as given above is only approximate, a small irregular space having been dredged to the north-west-ward of it.

Approximate position, Martello tower station, lat. 20° 8½′ S., long. 57° 29′ E.

Note.—The positions of the mooring buoys in port Louis are not to be depended on, as the moorings are constantly shifted.

(*Variation 9° Westerly in 1907.*)

This Notice affects the following Admiralty Chart:—Port Louis, No. 713; Also, Islands in the Southern Indian Ocean, 1904, page 309.

EASTERN ARCHIPELAGO—Celebes, north coast.

Mantrau island—Non-existence of Reef north-westward of.

No. 576 (second publication).—The British Admiralty has given Notice (No. 1722 of 1907) that the result of a survey shows that the reef, with a depth of 9 feet over it, reported by the German vessel *Mathilde* to be situated 2½ miles north-westward of Mantrau island, in the approach to Manado, does not exist. It has in consequence been erased from the charts.

Approximate position on chart No. 930, lat. 1° 45½′ N., long. 124° 41½′ E.

This Notice affects the following Admiralty Charts:—Celebes island on No. 930; Celebes sea, No. 2575; Eastern Archipelago, No. 942a; Moluccu passage to Manila, No. 943; China sea, No. 1263: Also, Eastern Archipelago, part I, 1902, page 426; Eastern Archipelago, part II, 1904, page 392.

LIBERALITY OF BABU KARALI CHARAN SARKAR.

Extract (paragraphs 1 and 2) from a letter from H. C. STREATFEILD, ESQ., I.C.S., *Officiating Secretary to the Government of Bengal, to the Director of Public Instruction, Bengal, No. 1, dated Calcutta, the 2nd January 1908.*

I AM directed to acknowledge the receipt of your letter No. 21837, dated the 5th December 1907, in which you report that Babu Karali Charan Sarkar, of Natunhat, thana Chandrakona, district Midnapore, has made over to you one Government Promissory Note for Rs. 1,000, bearing interest at 3½ per cent. per annum, together with 47 currency notes of the value of Rs. 3,975, which are to be invested in purchasing Government securities of the nominal value of Rs. 4,000, bearing interest at 3½ per cent. per annum. The annual interest of the promissory notes of Rs. 5,000 is to be spent in awarding two stipends of Rs. 7 each a month to students reading any one of the six systems of Hindu philosophy in the Government Sanskrit College, Calcutta, on the conditions specified in paragraph 3 of your letter.

2. In reply, I am to say that the Lieutenant-Governor is pleased to accept the donation and desires that the thanks of the Government may be communicated to the donor for his liberality.

RESOLUTION ON THE ANNUAL PROGRESS REPORT OF FOREST ADMINISRATION IN THE PROVINCE OF BENGAL FOR THE YEAR 1906-1907.

REVENUE DEPARTMENT—FORESTS.

Calcutta, the 6th January 1908.

RESOLUTION—No. 84.

READ—

Annual Progress Report of Forest Administration in the Province of Bengal for the year 1906-07.

Read also—

The corresponding report for the previous year, and the Resolution of Government thereon.

Changes in area.—There has been a net decrease of 12,856 acres in the area of Reserved Forests, but 6,589 acres have been added during the year to the Protected Forests. The diminution in the area of Reserved Forests is largely fictitious: it is due almost entirely to the correction of the figures for Angul in accordance with the results of the Forest Survey. Large additions were made to the Protected Forests in the Kolhan Government Estates in Singhbhum, while in the Sundarbans Division, a considerable area was excluded owing to the grant of cultivation leases and the disforestation of Fraserganj island. At the close of the year there were 4,240 square miles of Reserved Forests and 3,432 square miles of Protected Forests.

2. *Forest Surveys and Working-Plans.*—Considerable attention was paid to clearing the artificial boundary lines and repairing boundary pillars or replacing them where necessary. It is reported that, on the whole, the boundaries have been well kept.

The survey of the Sundarbans Reserved Forests was commenced during the year, and 930 square miles (nearly half the total area) was surveyed.

For the Angul Forests an almost complete working plan has been prepared. Steps are being taken to prepare a working-plan for the small portion of the Singalila Forest in the Darjeeling district which is sufficiently near a market to be capable of being worked systematically. Efforts to introduce regulated fellings are being made in the reserved forests of the Hazaribagh and Sambalpur Ranges, and in the Protected Forest known as the "Old Reserve" in the Sonthal Parganas. Various revised plans for the forests in the Darjeeling, Puri and Tista Divisions were sanctioned. The annual plans of operations were acted up to.

3. *Communications, etc.*—The expenditure on roads and bridges was Rs. 42,574 against Rs. 40,237 last year. The greater portion of the expenditure was in the Singhbhum Division. Less has been spent on new construction, and more on repairs to existing roads. The work done in the Angul Division was less than had been provided for owing to the difficulty in obtaining labour. The expenditure on buildings shows a slight increase. A considerable portion of the amount was devoted to providing improved quarters for subordinates.

4. *Protection of Forests: breaches of Forest Laws.*—There was a reduction from 2,098 to 2,251 in the number of offences brought to light during the year. The decrease in the Darjeeling Division is explained by the smaller immigration of workmen from Nepal. None of the offences were of a specially serious nature. The number of cases taken into Court fell from 284 to 255. In 86 per cent. of the cases disposed of, convictions were obtained. The punishments were generally adequate, but in Darjeeling the fines averaged less than Rs. 4 in each case. Rupees 10,260 was realised by compounding 1,862 cases. This method of disposing of cases is no doubt simple and convenient; but, as noted last year, it has a less deterrent effect than prosecutions, and it needs careful supervision by the Divisional Officers. The Lieutenant Governor notices that the average amount paid as composition-money per case and per person was higher than in the preceding year.

Shooting offences are reported to be prevalent in the 24-Parganas portion of the Sundarbans Division. These offences are said to be difficult to prevent

owing to the large number of unlicensed guns in that district. The attention of the local officers will be directed to this matter.

5. *Protection from fire.*—The cost per square mile of the measures taken to protect the forests from fire was Rs. 7-11-5 against Rs. 8-2-3 in the previous year. The precautions taken were effective on the whole. In Sambalpur about 1,971 acres were burnt and in Angul about 1,660. The Angul fires are believed to be due to an incendiary. In the Singhbhum Reserves only 488 acres were burnt. The arrangements that have been made with the Chiefs of the Native States conterminous with Government Reserves, have contributed to the recent comparative immunity enjoyed by the Singhbhum, Angul and Puri Forests. Reasonable assistance was given by the users of Protected Forests in preventing fires. This was the case even in the Santhal Parganas, where it was not so formerly.

6. *Protection from Cattle.*—The conditions governing grazing in the Reserved and Protected Forests were substantially the same as in the previous year. Five sixths of the Reserved Forests were closed to all grazing while practically all the Protected Forests were open to it, though in 12 per cent. of the area browsers are not admitted. A small part of the Darjeeling forests has been converted into pasture land as an experimental measure. Grazing rights are generally the most valued of all the privileges allowed to the users of Protected Forests and restrictions are difficult of enforcement. The users prefer the immediate benefits of the grazing to the future, and in their eyes problematical, increase in timber and firewood.

7. *Protection against injuries from natural causes.*—Creeper-cutting was carried out over an area of 16,302 acres. Much remains to be done in the way of cutting the small creepers that prevent the establishment of the young growth of valuable species of trees. No damage was caused by storms or frost, and very little by insects. Wild elephants did damage in the Tista Division.

8. *Administration.*—A new division was created in Singhbhum for the Kolhan Protected Forests. The number of divisional charges is now 12, the Darjeeling and Direction Divisions being combined.

During the year, revised hunting and shooting rules were issued for certain forests; transit and other rules for the Sundarbans Division were revised, and rules were issued for the demarcated protected forests in the Porahat Estate, Singhbhum Division.

The number of appointments in the Provincial Service has been increased to ten, and the charge of six out of the eleven divisions was held by officers of this service. Final orders regarding the reorganisation of the subordinate forest establishment were issued after the close of the year under review. A school for giving a brief course of practical training to selected Foresters and Deputy Rangers has been started at Kurseong. Seven students are being trained, and it is hoped that this course will gradually raise the standard of the staff of Deputy Rangers and Foresters and create a class of desirable recruits for the lower grades of Forest Rangers.

9. *Financial.*—Viewed from the commercial standpoint, the results of the year's working are satisfactory. The total revenue was Rs 10,94,210 and the total expenditure Rs. 6,06,313, leaving a net revenue of Rs. 4,87,897. As compared with the previous year, the revenue rose by 10½ per cent. and the expenditure by 16 per cent. The increased expenditure was due mainly to new surveys. There were decreases in the revenue of the Darjeeling and Angul Divisions, but no Division except that newly established in Singhbhum was worked at a loss. Angul shows a small profit for the first time in its history. The outturn of marketable timber is still small in comparison with the area of the forests. The young timber however is promising, and a large expansion of the revenue may be confidently anticipated.

10. The Lieutenant-Governor's thanks are due to Mr. McIntire for his efficient administration of the department and for his interesting report.

By order of the Lieutenant Governor of Bengal,

E. A. GAIT,
Chief Secy. to the Govt. of Bengal.

2 *Lengths of embankments and areas protected.*—The lengths of embankments in each class and the areas to which they give protection are shown below. The embankments generally are effective against moderate floods, but in many places they are overtopped or breached during very high floods.

* In addition to this area, 6,40,000 acres are efficiently protected by the flood banks of the Orissa Canals, the total length of which is 224 miles and 1,647 feet.

† 1,618 feet of spur embankments, Panar river, were maintained during the year at Government expense.

There has been a net increase of 2,226 feet in the length of the class A embankments in Orissa, mainly due to the construction of retired lines. The correct length of Schedule D embankments in that circle is now shown. There has been no change in the lengths of embankments in the other Circles.

3. *Floods.*—In the Orissa Circle the floods in the rivers Brahmini, Byturni and Salindi were fairly high. The flood in the Mahanadi was a moderate one. The highest flood in the Subarnarekha at Bhograi was 2·30 feet less than the maximum known flood at that place. In the Managuni river, a hill stream in the district of Puri, there was a high flood on the 22nd July.

In the South-Western Circle there was a high flood in the Cossye river. The highest level of the flood recorded at Midnapore on the 26th July was 93·00 at the anicut and 95·10 near the Workshops. At Panchkura the level recorded on 27th July was 32·40, which is 2 60 feet below the level recorded at that place on 10th October 1878. The Selye and the Darkeswar were also in fairly high flood. The flood in the Damodar was low, and this helped to reduce the level at Ghatal. The highest flood recorded in 1906 at this place on 28th July was 30·00, which is 3 feet below the level recorded on 25th September 1900. The flood in the Bhagirathi river was a high one. The highest level was recorded on 27th August 1906, when the level at Kalukhali was 70·70 and at Berhampore 64·31; the latter was only 0·42 below the highest recorded flood level at this point.

In the Gandak Circle there were high floods in all the rivers issuing from the hills in the north of Bihar. In the Bur Gandak river the flood level at Muzaffarpur rose to 178·10 on the 19th August, which is higher than the level recorded in September 1898 by 0·10 feet. On the Gandak the flood level on 20th August was at Siswa and Chuthia very nearly as high as the highest flood recorded which was in August 1903. On the Bagmati at Belahia, the flood on the 19th August was 3 feet below the level recorded on 16th August 1893. The flood in the Ganges, as recorded at Bazitpur, was a fairly high one, the reading being 143·90 on 17th September, against 147·74 recorded on 14th August 1879.

4. *Breaches.*—In the Orissa Circle five breaches occurred, viz, two in the embankments on the Managuni river, right and left, and three in embankments on the Khursua, left and right. The breaches were of little importance. In the South-Western Circle 44 breaches occurred in the Schedule D embankments and 10 in the *takavi* embankments. Of these, 30 occurred in the embankments on the left of the Selye, 7 in the Pannah circuit, 5 in the Shaikpur circuit and 8 in the embankment on the right of the Cossye. The total expenditure incurred in closing breaches and in making good special damage caused by flood was Rs 41,669 against Rs. 34,443 in the previous year. There was a serious breach in the Laltakuri retired line in the Murshidabad district, and the Kalukhali sluice was carried away. Fortunately the breach did not occur till the flood had begun to fall, and the damage to the country was not serious. It has been decided not to rebuild the sluice and the breach has been filled up. In the Gandak Circle only two breaches of small importance occurred in the 17th and 18th miles of the Tirhut embankment. There were no breaches in the embankments in the Northern Circle.

5. *Surveys and Investigations.*—In the Orissa Circle levels were taken to ascertain the cost of raising parts of the Argowal Circuit embankment. This has been roughly estimated at Rs. 28,846. A survey is in progress in the Bichitrapur Government khas mahal estate to ascertain the locality and the maximum height and width of bunds that can be allowed for the improvement of the estate.

In the South-Western Circle a survey was made and levels taken for a retired line of embankment at Dowlatchak in the Shaikpur Circuit embankment (Schedule D, No. 20). With the object of maintaining a record of the present state of embankments levels were taken of the Schedule D embankments in No. 2 Subdivision of the Cossye Division. Out of a total of 189 miles the work was completed during the year for 126 miles. Levels were taken of a typical village site in the area exposed to flood between the abandoned line and the retired line of the Laltakuri embankment on the

Bhagirathi in order to estimate the probable cost of raising the village sites above the high flood line. It has been ascertained that the cost would be great, and it has not been established that it is necessary.

In the Gandak Circle levels were taken along the whole length of the Tirhut embankment to obtain more correct values for the datum blocks which are fixed as a record of high flood levels.

6. *Original Works.*—The outlay of the year (without charges for Establishment and Tools and Plant) under this head amounts to Rs. 42,280 distributed over the different classes of embankments as under:—

			1906-07.	1905-06.
			Rs.	Rs.
Class A	...	..	11,195	15,385
„ B	...	...	29,918	49,088
„ C	...	...	1,167	Nil
„ D	...	...	...	„
Total		...	42,280	64,473

The more important works were as under:—In the Orissa Circle, the weir across the Janardan ghai or spill channel from the Brahmini river was strengthened, and flank embankments were constructed, the outlay of the year being Rs. 6,599.

In the South-Western Circle, the raising of the crest of the embankment on the left bank of the Hooghly near Diamond Harbour was proceeded with, the outlay during the year being Rs. 12,576. The work has now been completed.

No original works were carried out during the year in the Gandak and Northern Circles.

7. *Ordinary Repairs.*—The expenditure on repairs (without book charges for Establishment and Tools and Plant aggregated Rs. 3,16,472, which is distributed under the different classes of embankments as follows:—

			1906-07.	1905-06.
			Rs	Rs.
Class A	...	...	24,805	33,810
„ B	...	...	2,17,378	2,14,566
„ C	...	...	61,418	1,06,082
„ D	...	...	12,988	7,166
Total		...	3,16,589	3,61,624

The expenditure on repairs to the Orissa embankments was Rs. 24,805 against Rs. 33,810 in the previous year. The total cost of repairs to the Schedule D embankments (class B) in the Midnapore district which are in the Orissa Circle was Rs. 36,625.

In the South-Western Circle the expenditure on ordinary repairs to Schedule D and other embankments was Rs. 1,09,274, against Rs. 1,42,392 in the previous year. There was a decrease in the districts of Hooghly, Midnapore, Murshidabad and 24-Parganas, while the expenditure in the Burdwan district was rather greater than that of the previous year.

On (class C) *takavi* embankments under contract in the Midnapore, Muzaffarpur, Saran and Champaran districts a sum of Rs. 61,418 was expended during the year, as compared with the contract provision of Rs. 1,05,070. The outlay incurred on the maintenance and special repairs of the Gandak embankments was Rs. 35,996 against Rs. 66,984 in the preceding year. The reduced expenditure during the year under review was due to the fact that no retired lines were constructed. The expenditure on repairs to the Midnapore embankments of this class in the Cossye and Balasore Divisions was Rs. 25,422, against Rs. 39,098 during the previous year.

On (class D) *takavi* embankments with an annual apportionment of actual cost the outlay incurred on repairs was Rs. 12,988, against Rs. 7,166 in the previous year. The increase took place chiefly in the districts of Muzaffarpur, Darbhanga and Hooghly.

8. *Retired Lines.*—In the Orissa Circle the amount expended in constructing retired lines of embankments, including under this head slope-cutting, which is an alternative measure, was Rs. 3,722, against Rs. 6,546 in the previous year In the South-Western Circle the cost of constructing retired lines in the Burdwan, Hooghly, Midnapore, Murshidabad and 24-Parganas districts was Rs 28,674 against Rs. 8,100 in the previous year. The increase took place in the 24-Parganas district, the expenditure of the year being Rs. 17,386, against Rs. 1,023 in the preceding year. No retired lines were constructed in the Gandak and Northern Circles.

9. *River Protective Works.*—In the Orissa Circle the total outlay incurred on repairs to revetments and other works for the protection of the river banks, was Rs. 1,035, against Rs. 4,883 in the preceding year. The expenditure on similar works in the Gandak Circle amounted to Rs. 1,304, against Rs. 4,110 of the year before.

10 *Financial.*—The actual outlay during the year on the Orissa embankments (class A) maintained as agricultural works, exclusive of charges for Establishment and Tools and Plant, was Rs. 24,805, against Rs. 33,810 in the previous year, the average rate per mile being Rs. 47. The expenditure on class B Government embankments was Rs. 2,17,378, against Rs. 2,14,566 in the year before, the average rate being Rs. 201, against Rs. 199 in 1905-06.

Government has contracted to maintain certain embankments on behalf of the persons benefited at a fixed annual charge in the districts of Saran, Champaran, Muzaffarpur and Midnapore. The following statement shows the expenditure incurred on these embankments as compared with the contract payments :—

Note.—The figures in this table under column "Maintenance Charge" represent the cash outlay on maintenance and repairs without any book charges for Establishment or Tools and Plant.

11. *Works undertaken under the provisions of the Drainage Act, VI. (B.C.) of 1880.*—The Dankuni, Howrah, Rajapur and Barajolla drainage works in the Hooghly district in charge of the Executive Engineer, Northern Drainage and Embankment Division, were maintained in good order during the year. The cost of their upkeep compared with the previous year is shown below :—

	1905-06.	1906-07.
	Rs.	Rs.

Total	... 14,182	10,724

Fairly good crops were obtained from the whole of the areas drained by these works.

12. *Works undertaken under the provisions of the Sanitary Drainage Act, VIII (B.C.) of 1895.*—The only work which has as yet been taken up under

this Act is that known as the Magra Hât Drainage Scheme in the 24-Parganas district. It is designed to drain the swamps around Magra Hât in the central portion of the tracts enclosed by the 24-Parganas embankments. The swamps are mainly those along the Kaorupukur khal near Hotar, those drained by the Surjipur sluice, those at Joynagar and along the Srichandra and Sangrampur khals, as well as north of the railway near Sangrampur and at Dhosa and Hobka. The total area covered by the scheme is about 290 square miles. Satisfactory progress was made with the work. The outlay for the year was Rs. 4,04,311.

13. *Drainage works carried out under the provisions of the Embankment Act, II (B.C.) of 1882.—Original Works.*—In the South-Western Circle plans and estimates were prepared for works disigned to improve the drainage of the Arapanch basin. The scheme, as a whole, hinges on the proposed canalisation of Tolly's Nala, and has been deferred till that question is settled. As a measure of present relief the outfall channel from the existing sluices was cleared at a cost of Rs. 27,070 including charges for establishment and tools and plant.

A new sluice at Dhutkhali, which had been commenced in the previous year, was completed at a cost of Rs 26,408 including all charges. A tunnel sluice at Fulbagicha, in the 131st mile of the Khari khal Right embankment, Schedule D, No. 78, was completed at a cost of Rs. 1,330.

In the Orissa Circle the sluices and channels for the drainage of the country within the Argoal Circuit embankment, which were commenced last year, were proceeded with. The total expenditure to end of the year including charges for establishment and tools and plant amounted to Rs. 47,176, of which Rs. 31,040 were spent during the year under review. At the close of the year the sluice had been nearly completed, and about half of the excavation of the channels had been done.

Maintenance and Repairs.—The Charrial khal drainage scheme was maintained in good condition at a cost of Rs. 1,902, as compared with Rs. 2,492 in the previous year. A large number of sluices in the Schedule D embankments are maintained under the provisions of the Act at the cost of the estates benefited.

14. *Drainage works carried out at the cost of Government, but not under the provisions of any Act.*—Work in connection with the improvement of the drainage channel from Daudpur to Utterpadima, known as the Tajpur drainage project, in the Contai subdivision of the Balasore Division was in progress, but was retarded by the scarcity of labour and delay in obtaining possession of the land. Altogether Rs. 3,716 were expended.

The Bullee Bhil drainage works in the 24-Parganas district were efficiently maintained at a cost of Rs. 5,931. In the Midnapore district the Balliaghye main drain, which is used both for drainage and as a navigable channel, was kept open to traffic throughout the year; but it is reported that silt-clearance is again wanted. The branch drain from 0 mile to the 6th mile-post was closed to traffic for silt-clearance from 1st January to 10th June 1906. The total amount spent on this clearance was Rs. 21,264, the expenditure of the year being Rs. 13,125. The khas tahsil khals in charge of this Department in the same district were maintained in an efficient state at a cost of Rs. 10,001.

ORDER.—Ordered, that a copy of the Resolution and of its Appendices (A and B) be published in the Supplement to the *Calcutta Gazette* and submitted to the Government of India, Public Works Department, for information.

Ordered, also, that copies of the Resolution and of its Appendices (A and B) be forwarded to the Revenue and Financial Departments of this Government; the Secretary to the Board of Revenue, Lower Provinces, the Commissioners of the Presidency, Burdwan, Patna, Bhagalpur, Chota Nagpur and Orissa Divisions; the Director-General of Commercial Intelligence; the Superintending Engineers of the Orissa, South-Western, Sone, Gandak and Northern Circles; and the Examiner, Public Works Accounts, Bengal, for information.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Secretary to the Government of Bengal.

(a) The difference of Rs. 4 between this column and column 2 of the last year's statement is due to the increase of Rs. 4 in the embankment cess demand owing to increase in the land revenue jama of certain estates by resettlement.

(b) The difference of Rs. 2 between this column and column 10 of the previous year's statement is due to the increase of Rs. 4 in the embankment cess demand as stated above and to a decrease of Rs. 2 owing to the abatement of land revenue sanctioned on account of the acquisition of land required by Bengal and North-Western Railway.

(c) The total advance payment at the close of the year is Rs. 6,207, which includes Rs. 621 shown in this column.

(d) The difference of Rs. 3 between this column and column 10 of the last year's statement is due to partition and omission of fractions of a rupee.

(e) Out of the balance of Rs. 6,828, a sum of Rs 1,168 has been collected since the close of the year and for the remaining action under certificate procedure will be taken in due course.

(f) The difference of Rs. 20 and Rs. 355 between the figures in columns 3 and 4 and those shown in columns 6 and 7 of the previous year's statement is due to the transfer of some advance amounts to the arrear due from certain estates.

(g) The balance has been arrived at by deduction of Rs. 589 due to Government on account of khas mahals benefited by the embankment.

RESOLUTION ON THE ADMINISTRATION REPORTS OF THE FEUDATORY STATES OF ORISSA AND CHOTA NAGPUR FOR THE YEAR 1906-1907.

RESOLUTION—No. 85P.

POLITICAL.

Dated Calcutta, the 7th January 1908.

READ—

The Annual Report on the Administration of the Tributary and Feudatory States of Orissa for the year 1906-07.

Read also—

The Annual Report on the Administration of the Political States in the Chota Nagpur Division for the year 1906-07.

THE Native States, the administration of which is dealt with in the reports under review, are attached to the Divisions of Orissa and Chota Nagpur. The Commissioner of Chota Nagpur supervises the administration of the Seraikela and Kharsawan Political States. The twenty-four Feudatory States of Orissa are now dealt with direct by a Political Agent who is subordinate to the Commissioner of Orissa and Superintendent of the Tributary Mahals.

2. During the year 1906-07, owing to the death of the Chiefs of Rehrakhol and Hindol and the abdication of the Chief of Keonjhar, Government undertook the administration of these three States. The other States under Government management at the close of the year were Baramba, Bonai, Kalahandi, Nayagarh, Narsingpur, Nilgiri, Pal Lahora and Kharsawan.

3. On the whole, the history of the past year is one of progress and steady development. Much attention has been given to the various branches of administration. The reorganization of the Kalahandi and Bonai Police has been completed, and the forces of other States have been strengthened and improved. Criminal justice was, on the whole, carefully and adequately administered; but in certain States greater dispatch in the disposal of cases is to be desired. In Jail administration some advance has been made. Four new jails have been built and many others enlarged; and new and useful forms of labour have been introduced.

4. An interesting chapter of the Political Agent's report deals with the management of the State forests. The Chiefs have begun to realize the great economic importance of these forests; and their increased interest is evidenced in the general strengthening of forest establishments and in the stricter enforcement of forest rules. The evil results of denudation are not confined to the Native States, but affect the neighbouring British districts. This circumstance has been emphasized by the recent floods in Orissa. There can be no doubt that these floods would have been less serious had the catchment area of the rivers which flow through Cuttack and Balasore been as well wooded as they were formerly. A proposal to appoint an officer to advise the Chiefs on the working of their forests and to control those of States under management is now before the Government of India.

5. The economic condition of the people was satisfactory. In many of the States the crops were excellent; and they were poor only in Narsingpur. There was a brisk export trade in food-grains; and the consequent high prices, while benefiting the cultivators, did not affect the labouring classes, who are usually paid in kind. Public health was also good. The benefits of vaccination were more widely appreciated; and the dispensaries continued to increase in popularity.

6. The financial position of the States under Government Management was considerably strengthened, and all of them showed an increase in their closing balances. The same is true of States under the administration of their Chiefs, except in the case of Athgarh, Ranpur, Daspalla and Khondpara. The principle that the minimum reserve balance should be equivalent to at least

three months' working expenditure is a sound one, and should be strictly adhered to. The expenditure on public works was fairly adequate; and many improvements were made in roads, buildings, etc. This was especially the case in Mohurbhanj where 53 miles of road were completed and a new jail and public offices are in course of erection. Satisfactory progress was made in the matter of education. There has been an increase in the number of schools and scholars.

7. The Lieutenant-Governor notices with pleasure that, with few exceptions, the Chiefs are developing a quickened and more intelligent interest in the administration of their States. Their encouragement of industrial, agricultural and educational schemes, the greater attention paid to details of administration, the extension of public works, etc., show a growing sense of their own and their people's interests. The history of the past year promises well for the future Sir Andrew Fraser has visited the Patna State during the year, and the Sonpur, Boad, Athmalik, Narsinghpur, and Dhenkanal States since its close. What he saw confirms the impression created by this Report as to the general success of their administration.

8. The Lieutenant-Governor desires to record his appreciation of the good work done by Mr. Cobden-Ramsay during the year. His Honour's thanks are also due to the Commissioner of the Orissa Division for his efficient supervision of his extensive charge.

ORDER.—Ordered, that a copy of the Resolution be forwarded to the Commissioner and Superintendent of the Tributary Mahals, Orissa, and the Commissioner of the Chota Nagpur Division, for information and guidance.

Ordered, also, that a copy of the Resolution, together with three copies of each of the Reports, be submitted to the Government of India in the Foreign Department for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

FIRST FORECAST OF WHEAT CROP OF BENGAL, 1907-1908.

THE following note is published for general information.

E. A. GAIT,
Chief Secy. to the Govt. of Bengal.

The 7th January 1908.

DEPARTMENT OF AGRICULTURE, BENGAL.

FIRST FORECAST OF THE WHEAT CROP OF BENGAL, 1907-08.

[On an average of five years ending 1905-06 the area under wheat in the territory to which this forecast relates has represented some 4·8 per cent. of the total area under wheat in India.]

The ratio of the irrigated wheat acreage to the total wheat acreage (*a*) in British India and (*b*) in the territory now reported on has in the five years ending 1905-06 averaged (*a*) 38·7 per cent. and (*b*) 2·1 per cent., respectively.

Explanatory.—Under recent orders of the Government of India three forecasts of the wheat crop are to be issued, *viz.*, the first forecast on the 20th December, the second on the 1st March and the third on the 15th May. The first forecast now being issued gives a summary of the state of the crop at present and the area on which it has been sown.

Character of the season.—The rainfall was below the normal in September. In October and November there was little or no rain. Sowings commenced at the normal time in Burdwan, Hooghly, Nadia, Murshidabad, Patna, Darbanga, Monghyr, Purnea, Darjeeling, the Sonthal Parganas, Ranchi and Singhbhum, but they were late elsewhere, due to want of rain. Some rain was received in the beginning of December in Lower Bengal, Orissa, and Chota Nagpur, but in Bihar, where the crop is important, drought was experienced. The season for wheat has been, on the whole, unfavourable, especially in Bihar.

Area sown.—The area sown, as reported now, amounts to 965,516 acres. The area sown last year was estimated at 1,402,600 acres. Sowings are still in progress in some districts, but they have not come up to expectations on account of continued drought in October and November.

Prospects.—Prospects are reported to be poor in most districts. Fair crops are reported from Birbhum, Champaran, Monghyr, Bhagalpur, Sambalpur and on irrigated areas in Gaya and Saran. In Darjeeling the condition of the crop is good.

Bankura ...	6,000	9,000	7th November 1907	Sowings were a little late. There was no rain from the beginning of October and the weather was unfavourable The crop is being sown.	
Midnapore ...	2,300	500	1st November Sadr. In Ghatal not yet sown.	Only about 500 acres have been sown in the Sadr Subdivision Sowings were late in the Sadr Subdivision for want of rain. In Ghatal there were 1,800 acres under this crop last year. Sowings in this subdivision have not commenced yet. Weather conditions have been unfavourble for the growth of the crop. The condition of the crop in the Sadr Subdivision is bad.	
Hooghly ...	2,100	270	End of October ...	The area sown is very small owing to want of rain. There has been no rain up to date since the middle of September. The sowings were normal.	

District.	Area sown last year (1906-07), in acres.	Area sown this year (1907-08), in acres.	Date at which the sowings of the crop begun.	A brief statement regarding the weather and general condition of the crop, and whether the date of sowing was this year early, normal or late.	Remarks by the Department of Agriculture, Bengal.
1	2	3	4	5	6
Nadia ...	31,100	11,000	25th September to 1st November 1907.	Sowings were normal. Weather conditions were unfavourable. Owing to absence of rain and want of moisture in the soil, the crop could not be sown in many places. The condition of crop is poor.	
Murshidabad ...	60,900	20,970	10th October 1907 ...	Sowings were normal. Weather conditions were unfavourable and the condition of the crop is poor.	
Jessore ...	1,100	1,150	1st November 1907	The sowing was late. The weather was not favourable for the growth of the crop. The condition of the crop is not good owing to want of rain.	
Patna ...	117,800	105,700	1st October 1907 ...	Sowings were begun at the normal time. The rainfall was deficient and unfavourable for the growth of the crop. The condition of the crop is poor for want of moisture.	
Gaya ...	166,800	40,100	Middle of October...	The sowing was late. There were floods at the beginning of September and drought afterwards which affected the crops badly. The condition of the crop on irrigated lands is fair: that on unirrigated lands is bad. Insect pests have caused damage in many places.	

Shahabad ...	170,000	125,000	15th October ...	The sowings were late all over the district owing to want of rain. The weather and rainfall conditions were most unfavourable. The crop will be poor if no rain falls during December.
Saran ...	72,800	42,300	20th 1907 ...	Sowings were a little late and in defect for want of rain. The weather not favourable. The condition of the crop is generally poor for want of rain, but it is fair on irrigated lands.
Champaran ...	98,200	87,900	23rd „ „ ...	The decrease in the area sown is due to the early cessation of rain and to want of moisture in the soil. The weather has not been favourable up to date. The condition of the crop is fair at present, but rain is wanted.
Muzaffarpur ...	69,700	61,700	1st week of November 1907.	Sowings were late for want of Hathiya rain. Weather and rainfall conditions were not favourable for the growth of the crop. There was a want of moisture in the soil. The seed has germinated in most places, but if there is no rain within the next few weeks the outturn will be very low.
Darbhanga ...	90,800	77,000	October ...	The date of sowing was normal. Owing to lack of rain the condition of the crop is below the average. If it rains a fair harvest may be expected.
Monghyr ...	248,000	192,700	15th October 1907 ...	The date of sowing was normal. Weather conditions have been fair, but rain is still wanted. The condition of the crop at present is fair.
Bhagalpur ...	166,200	148,000	25th „ „ ...	The date of sowing was late on account of the early cessation of rain. Rainfall was not favourable. The condition of the crop is as yet fair.

District.	Area sown last year (1906-07), in acres.	Area sown this year (1907-08), in acres.	Date at which the sowings of the crop begun.	A brief statement regarding the weather and general condition of the crop, and whether the date of sowing was this year early, normal or late.	Remarks by the Department of Agriculture, Bengal
1	2	3	4	5	6
Purnea ...	23,800	23,800	Middle of October 1907.	Sowings were normal. Owing to continued drought the moisture in the soil is decreasing and the growth of the crop will be retarded if there be no rain soon The condition of the crop so far is good.	
Darjeeling ...	4,200	3,600	15th September 1907	Sowings were normal. Rainfall was insufficient. The weather has been favourable. The condition of the crop is fair.	
Sonthal Parganas	27,200	10,300	15th October "	The date of sowing was normal, but the conditions of weather and rainfall have been unfavourable. The condition of the crop is poor.	
Cuttack ...	1,30 0	1,300	25th October to 15th November 1907.	Sowings were late. The weather has not been favourable. Rain is wanted.	
Balasore ...	100	50	15th October 1907...	Sowings were early. Weather and rainfall were not favourable for the growth of the crop, so the area was less than that of last year. The condition of the crop is poor.	
Angul ...	100	100	.....		
Sambalpur ...	100	60	15th October to 1st November 1907.	Owing to want of sufficient moisture the entire estimated normal area was not cultivated. The date of sowing was not normal. The general condition of the crop seems to be fair at present.	

Hazaribagh ...	19,100	2,504	.....	.....	Complete report not received.
Ranchi ...	500	100	End of October 1907	The sowing was normal. Owing to early cessation of rain the condition of crop is bad.	
Palamau ...	12,000	1,512	10th October ...	The date of sowing was early. The prospects of the crop are not quite favourable, as there has been no rain. The sowing commenced earlier than usual. The area sown up to date is not large because the soil is very hard.	
Manbhum ...	2,600	600	2nd week of November.	The date of sowing was late. Weather conditions were not favourable. The condition of the crop is poor.	
Singhbhum ...	2,000	2,600	15th October ...	The date of sowing was normal. Weather and rainfall conditions have not been favourable. The condition of the crop appears to be poor for want of rain.

FINAL FORECAST OF INDIGO CROP OF BENGAL, 1907.

THE following note is published for general information

E. A. GAIT,
Chief Secy. to the Govt. of Bengal.

The 7th January 1908.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE INDIGO CROP OF BENGAL, 1907.

[On an average of five years ending 1905-06, the area under Indigo in the territory to which this forecast relates has represented some 37·6 per cent. of the total area under Indigo in British India.]

Character of the season.—The final forecast of the indigo crop exceeds the estimate made in October last. The season proved favourable in the four indigo districts of North Bihar, Champaran, Saran, Muzaffarpur and Darbhanga. In North Monghyr and Bhagalpur the season was not unfavourable. In Purnea the crop was injured by drought in May and June and by floods in July. The less important districts suffered from drought.

Area sown.—The North Bihar figures have been corrected from information supplied by the Bihar Indigo Planters' Association. The total area under the crop throughout the Province is now estimated at 146,800 acres: the figures for 1906 and 1905 were 137,800 and 161,500, respectively. In Champaran last year owing to floods there was a decrease of 9,000 acres in the area sown. This year there has been an increase of 14,000 acres: a net increase of 5,000 acres

over the area sown in 1905. In Muzaffarpur last year there was an increase of 7,000 acres: this year there has been a decrease of 3,000. The area in Darbhanga and Saran remains unchanged. There is an increase of 1,000 acres in Monghyr and a similar decrease in Purnea.

Character of the crop.—Since the preliminary forecast the character of the crop has improved in Champaran, Saran and Muzaffarpur, and has slightly fallen off in Darbhanga. In Monghyr and Bhagalpur the crop has come up to expectations. In Purnea and the less important districts there has been a considerable falling off. The crop of Muzaffarpur is reported to have been 97 per cent. of a normal one, of Darbhanga 84 per cent., of Saran 82 per cent , of Champaran 80 per cent. The estimate for Bhagalpur is 80 per cent. and the estimate for Monghyr 90 per cent. Purnea reports only 35 per cent. of a normal crop. The provincial outturn of the crop in North Bihar, including Monghyr, amounts to 86 per cent. of a normal crop and in Lower Bengal and the minor districts of Bihar to 52 per cent.

In calculating the gross yield for the Province it has been the custom to take all round rates of 20 lbs. for the principal Bihar districts and 12 lbs. for the other districts as the normal. On this basis the total outturn for the Province amounts to 31,980 factory maunds. I have ascertained that the yield in Muzaffarpore is estimated as not exceeding 18·7lbs per acre and if this be taken as the average yield in North Bihar for the present year the outturn would not exceed 27,665 factory maunds or 29,913 factory maunds for the Province.

Messrs. Moran and Co. estimate the total outturn for Bihar at 25,000 maunds and of the other districts at 1,700 maunds, a total of 26,700 maunds against 25,800 maunds in the previous year.

W. R. GOURLAY,

* New winter rice.
† The report is for the week ending 28th December 1907.

General Summary.—Another week has passed without rain, and the *rabi* crops especially in Bihar are suffering. The weather has been cold but seasonable. The harvesting of winter rice has been completed in many districts and sugarcane-pressing still goes on. The outturn of rice in Bankura is estimated at 64 per cent. of a normal crop. The irrigation of *rabi* in the Sone canal area continues. In Orissa some *dalua* rice has been transplanted. *Kulthi* and *mung* are being harvested. *Rabi* prospects in the western portion of Lower Bengal are fair, but in the eastern portion below the average, except in Khulna where rape and mustard are doing well. In South Bihar in irrigated areas the prospects are fair, and poppy is doing well; but in North Bihar through want of rain prospects are unfavourable. In Orissa, *dalua* rice is doing well. The sugarcane crop in the Burdwan and Orissa Divisions is fair. Darbhanga alone reports a good outturn of winter rice. Stocks of grain are reported insufficient in Bankura, Nadia, Balasore, Palamau, the north of Murshidabad and portions of the Sonthal Parganas and Puri. In Bengal, Orissa and Chota Nagpur prices are stationary, but there has been a rise in Bihar probably due to the great export of grain to the United Provinces. Scarcity is apprehended in the Raipur, Khatra, Taldangra and Simlapal police divisions of Bankura, in Nadia, in the north of Murshidabad, in the Bhabhua and Sasseram subdivisions of Shahabad, the Daraull and Manjhi thanas of Saran, in Hazaribagh, Ranchi and Palamau and towards the end of the season in Birbhum, Jessore and Gaya if no rain falls. Some gratuitous relief was given in the Chilka tracts in Puri. In Cuttack one test-work was attended by 134 men, 22 women and 13 children and gratuitous relief was given to 247 men, 1,402 women and 1,127 children. In Balasore one test-work was opened and attended by 250 men. Water is scarce in the north of Murshidabad, in the Dumraon thana of Shahabad, and fodder is scarce in Nadia and Monghyr. The condition of agricultural stock is good, but cattle-disease is reported from Gaya, Cuttack, Sambalpur, Hazaribagh, Ranchi, Palamau and Manbhum.

The report received from the Feudatory States of Orissa for the week ending the 28th December 1907 shows that no rain fell during that period. Harvesting of winter paddy is almost completed: sugarcane-pressing is still going on in some States. The prospects of *rabi* are unfavourable. The outturn of rice is below normal: fodder and water are sufficient.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

N.B.—The total rainfall from 1st January to 31st December 1907 is 53·64.

The average fall of the corresponding period for 24 years, Surveyor-General's Office, is 65·24.

NOTIFICATIONS.

No. 218L.R.—The 10th January 1908.—In exercise of the powers conferred upon him by section 101 (1) of the Bengal Tenancy Act, 1885 (VIII of 1885), as amended by Bengal Acts III of 1898 and I of 1907, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of the lands comprised in thanas Mokamah, Barh and Bihar, in the district of Patna, with the exception of those for which a record-of-rights has already been prepared in connection with the survey and settlement of Government estates, temporarily-settled estates and zamindari estates.

Patna.

The particulars to be recorded in the survey and record-of-rights shall be the following :—

(*a*) the name of each tenant or occupant;

(*b*) the class to which each tenant belongs, that it to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy-raiyat, non-occupancy raiyat, or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;

(*c*) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;

(*d*) the name of each tenant's landlord;

(*e*) the rent payable at the time the record-of-rights is being prepared;

(*f*) the mode in which that rent has been fixed—whether by contract, by order of a Court, or otherwise;

(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;

(*h*) the rights and obligations of each tenant and landlord in respect of—

(*i*) the use by tenants of water for agricultural purposes, whether obtained from a river, *jhil*, tank or well or any other source of supply, and

(*ii*) the repair and maintenance of appliances for securing a supply of water for the cultivation of the land held by each tenant, whether or not such appliances be situated within the boundaries of such land;

(*i*) the special conditions and incidents, if any, of the tenancy;

(*j*) any right of way or other easement attaching to the land for which a record-of-rights is being prepared;

(*k*) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;

(*l*) the name of each proprietor, with the character and extent of his interest, and the situation and quantity and one or more of the boundaries of each proprietor's private land as defined in Chapter XI of the Act.

No. 163.—The 10th January 1908.—The following notification by the Government of India, Home Department, is republished for general information.

H. C. STREATFEILD,
Offg. Secy. to the Govt. of Bengal.

No. 3150, dated Calcutta, the 11th December 1907.

NOTIFICATION—By the Government of India, Home Department.

IN exercise of the power conferred by section 5 of the Victoria Memorial Act, 1903 (X of 1903), the Governor-General in Council is pleased to direct that for rules 8 to 11 of the rules published with Home Department Notification No. 1430, dated the 26th March 1903, the following shall be substituted, namely:—

"8. The Trustees, by resolution passed by a majority of those present and voting at a meeting, may from time to time appoint Committees, to consist of any member or members of their body, for carrying out the purposes of the Act, and may delegate any of their powers either with or without restriction or limitation, to such Committees, and may revoke any such appointment or extend, vary, modify or annul any delegation made or any restriction or limitation imposed.

"9. The Trustees may from time to time, by resolution passed in the manner mentioned in the last preceding rule, make such regulations and give such directions as to the Trustees may seem expedient regarding—

(*a*) the exercise by any Committees appointed by the Trustees in pursuance of these Rules of the powers delegated to such Committees;

(*b*) the conduct of business entrusted to any such Committees;

(*c*) the appointment by such Committees of any Sub-Committees, to consist of any member or members of their own body, for the purpose of conducting or facilitating the conduct of the business entrusted to such Committees;

(*d*) the employment by such Committees of professional or other expert persons to advise or assist such Committees upon any question arising in connection with the exercise of the powers delegated to such Committees, and the terms and conditions of such employment;

(*e*) the holding of meetings by any Committees appointed by the Trustees in pursuance of these Rules;

(*f*) the procedure to be observed in the convening and holding of meetings of any Committees so appointed;

(*g*) the conduct of business at such meetings;

(*h*) the management, investment or expenditure of funds, and the keeping and rendering of accounts by any Committees appointed by the Trustees in pursuance of these Rules;

(*i*) the making of reports by any Committees so appointed; and

(*j*) all matters in respect of which any power shall be delegated to or vested in any such Committees.

"10. All Committees appointed by the Trustees in pursuance of these Rules shall in the exercise of the powers delegated and in the conduct of matters entrusted to them and in their proceedings conform to the regulations made and directions given by the Trustees in manner aforesaid.

"11. No delegation made to any Committee in pursuance of these Rules shall operate to prevent the Trustees from acting in the exercise of any power so delegated."

FINANCIAL DEPARTMENT.

NOTIFICATION.

No. 37S R.—The 14th January 1908.—It is hereby notified for general information that the Lieutenant-Governor intends, if no valid objections shall have been raised within a month from the date of publication, to revise the existing rules framed under the provisions of section 155 of the Sea Customs Act, VIII of 1878, to regulate the denaturalisation and admission of imported spirits for which the reduced rate of duty may, under Article 1 of Schedule III of the Indian Tariff Act, VIII of 1894, be claimed. The following revised rules, when confirmed, will supersede those published with the Notification No. 56T.F., dated 12th May 1897, and the Notice, dated 29th September 1897, at pages 643 and 1254 respectively of the *Calcutta Gazette* of 19th May and 6th October 1897.

Part I.—Rules for rendering imported spirit effectually and permanently unfit for human consumption.

1. Imported spirit may be rendered effectually and permanently unfit for human consumption, so as to bear the reduced rate of duty under Article 1 of Schedule III of the Indian Tariff Act, VIII of 1894, by the admixture either of caoutchoucine or of wood naphtha and mineral naphtha.

2. The ingredient or ingredients shall be procured by the importer or his agent at his own expense, and the admixture shall be made only at such time and place and in the presence of such officer or officers as the Collector of Customs may direct. Before admixture the ingredient or ingredients shall be lodged at the Custom House or at any other suitable place to be approved by the Collector of Customs, who shall cause them to be tested by the Chemical Examiner to Government. Without the certificate of the Chemical Examiner that an ingredient is of the proper strength, and fitted if used in the proportion mentioned in rules 3 and 4 to effectually and permanently render unpalatable and unfit for human consumption the spirit with which it is mixed, no ingredient shall be approved for admixture, and if admixed without approval, the liquor shall not be admitted at the reduced rate of duty.

3. When the ingredient is caoutchoucine, it shall be mixed in the proportion of one part by volume of the caoutchoucine to 99 parts by volume of the spirit, and the spirit shall not be of less strength than 30 per cent. over-proof. When the admixture is completed, the liquor shall be tested by drawing a sample of about half an ounce from each cask or drum, and adding to each sample separately three or four times that quantity of water. If the mixture becomes turbid and milky, the liquor shall be admitted at the reduced rate of duty. In case of dispute as to whether the liquid has become turbid and milky, the decision of the Collector shall be final.

4. When the ingredients are wood naphtha and mineral naphtha, the wood naphtha shall be mixed with the spirit in the proportion of one part by volume of the naphtha to nine parts by volume of the spirit, and to this mixture shall be added three-eighths per cent. of mineral naphtha of specific gravity not less than ·800.

5. When the spirit is alleged to have been rendered effectually and permanently unfit for human consumption by the admixture of wood naphtha and mineral naphtha, such

number of samples as the Collector may direct shall be sent to the Chemical Examiner to Government for examination and report at the expense of the importer: Provided that—

(*a*) if the consignment contains casks of not less than 50 gallons each, the importer may demand that not less than one sample shall be sent from each such cask;

(*b*) if the consignment contains casks or drums of less than 50 gallons each, the importer may and shall, if so ordered by the Collector, before admixture of the denaturalising ingredients, pour the contents of two or more such casks at the Custom House into one or more casks of not less than 50 gallons capacity, and when this is done the spirit shall be treated for the purpose of testing and for the levy of expenses under rules 7 and 8, as if originally imported in such larger casks.

6. After considering the Chemical Examiner's report and other circumstances, if any bearing upon the case, the Collector will decide whether the said spirit shall be allowed importation or not at the reduced rate of duty prescribed in Article 1 of Schedule III of the Indian Tariff Act, VIII of 1894. Should any of the samples examined by the Chemical Examiner be reported by him as not rendered effectually and permanently unfit for human consumption, the claim in respect of the whole of the spirit represented by the sample shall be rejected, and the spirit shall either be dealt with in all respects as spirits chargeable with the ordinary rate of duty, or, if the importer so desire, be further treated under rule 4 for the purpose of rendering it effectually and permanently unfit for human consumption.

7. The following fees shall be paid for chemical analysis:—

A fee shall be paid at the rate of Rs. 2 for each sample sent for analysis.

An additional fee of Re. 1 for each set of samples sent shall be paid to cover the cost of taking and sending samples from the Custom House to the Chemical Examiner.

8. Any expense which may be incurred by the Collector in rendering spirit unfit for human consumption, or in ascertaining that it has been so rendered, shall be paid by the importer before the import of the spirit is allowed.

9. The Collector may also admit specially, at the reduced rate of duty, spirit in small quantities which has been methylated with wood naphtha only of the quality approved by the Chemical Examiner, if he be satisfied that it is required for a purpose for which the mineralised denaturalised spirit is not suited, and that it will be used after admission in such a way that there will be no danger of its passing into consumption as potable spirit.

Part II.—Rules for admitting imported spirit said to have been rendered effectually and permanently unfit for human consumption.

1. Whenever spirit is declared to have been rendered, prior to importation, effectually and permanently unfit for human consumption, so as to bear the reduced rate of duty under Article 1 of Schedule III of the Indian Tariff Act, VIII of 1894, the Collector of Customs shall send such number of samples of such spirit as he may deem necessary to the Chemical Examiner to Government for examination and report at the expense of the importer.

2. After considering the Chemical Examiner's report and the circumstances, if any, bearing upon the case, the Collector shall decide whether the claim is to be admitted or not. Should any of the samples examined by the Chemical Examiner be reported by him as not rendered effectually and permanently unfit for human consumption, the claim in respect of the whole of the spirit represented by the sample shall be rejected, and the spirit shall either be dealt with in all respects as spirits chargeable with the ordinary rate of duty, or, if the importer so desire, be rendered effectually and permanently unfit for human consumption under Part I of these rules.

3. The Collector shall ordinarily admit at the reduced rate of duty prescribed in Article 1 of Schedule III of the Indian Tariff Act, VIII of 1894, such spirit only as may have been reported by the Chemical Examiner to be effectually and permanently rendered unfit for human consumption by the admixture of either caoutchouoine or wood and mineral naphtha. The Chemical Examiner's report shall state the nature of the ingredient used for denaturalisation, and shall include a note intimating whether, in his opinion, the spirit has or has not been rendered effectually and permanently unfit for human consumption.

4. The conditions contained in Part I, rule 5 (*a*) and (*b*), as to the taking of samples, and also those contained in Part I, rule 7, as to the payment of fees, shall apply to the testing of spirit under this Part, and, in addition to the fees above-mentioned, the importer shall also pay all expenses (if any) incurred by the Collector in or about the testing of spirit under this Part.

5. The Collector may also admit specially, at the reduced rate of duty, spirit in small quantities which has been methylated with wood naphtha only of the quality approved by the Chemical Examiner, if he be satisfied that it is required for a purpose for which the mineralised denaturalised spirit is not suited, and that it will be used after admission in such a way that there will be no danger of its passing into consumption as potable spirit. In all other cases the Collector shall refuse to pass the spirit at the reduced rate of duty.

NOTIFICATIONS OF THE BOARD OF REVENUE.

THE HON'BLE MR. F. A. SLACKE, C.S.I., *Member in charge.*

THE following rules framed by the Board of Revenue, L. P., under section 17 of Act XVIII of 1879, regarding the qualifications, admission and certificates of Revenue Agents are hereby published for general information:—

The following amended rule is substituted for clause 2, rule 2 of the rules framed by the Board of Revenue under section 17 of the Legal Practitioners Act, XVIII of 1879 in page 61 of the Practice and Procedure Manual, 1902:—

2nd (*a*) that he has passed the Entrance or Matriculation Examination of the University of Calcutta, Madras or Bombay, or (*b*) is certified by an Inspector of Schools as having been selected, either for the Middle Vernacular or the Middle English Scholarship Examination, or as having passed one of the examinations enumerated below.—

(1) the Survey Final Examination;
(2) the Primary Examination held at the end of Standard VI under the vernacular scheme of education;
(3) the annual examination held at the end of the 2nd class course in a recognised High School; or
(4) the annual examination held at the end of Standard VI in a recognized High School, the lower classes of which follow the courses prescribed for such classes by the vernacular scheme of education.

Add the following as a footnote to rule 2 referred to above:—

"NOTE.—It is hereby intimated for the benefit of those who may wish to present themselves at the Revenue Agents' Examination in 1910 and subsequent years that the examinations authoritatively recognised in Bengal as equivalent to the Entrance or Matriculation Examination at the present time are—

(i) the B Class Final Examination;
(ii) the C Class Final Examination;
(iii) the Senior Cambridge Local Examination;
(iv) the High School Pass Examination for Europeans and Eurasians;
(v) the Senior London Chamber of Commerce Examination;
(vi) the Commercial Examination, Victoria Boys' School, Kurseong."

These rules do not apply to Sambalpur, where there is no examination for Revenue Agents.

No. 81M.—The 13th January 1908.—In exercise of the powers conferred by section 641, sub-section (2), of the Calcutta Municipal Act, 1899, the Lieutenant-Governor is pleased to extend to the town of Howrah the portions of that Act which are set forth in the annexure to this notification, subject to the modifications and restrictions shown in antique type in that annexure.

Howrah.

ANNEXURE.

Portions of the Calcutta Municipal Act, 1899, extended to Howrah, with modifications and restrictions shown in antique type.

Liability of purchaser for vendor's share of rate or fee.

223. The purchaser of any building or land in respect of which any sum is due at the time of the purchase on account of the share of any rate or fee payable by the owner to the Municipal Commissioners shall be liable for the amount due on account of such share for any period not exceeding one year prior to the purchase.

Power to take summary proceedings against persons about to leave Howrah

226. (*1*) If the Chairman at any time has reason to believe that any person from whom any sum is due on account of any rate or fee payable to the Municipal Commissioners is about forthwith to remove from Howrah, the Chairman may direct the immediate payment by such person of the sum so due by him, and cause a bill for the same to be presented to him.

(*2*) If, on presentation of such bill, the said person do not forthwith pay the sum due by him, the amount shall be leviable by distress and sale in the manner prescribed in sections 121 to 129 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), except that it shall not be necessary to serve upon the defaulter any notice of demand, and the Chairman's warrant for distress and sale may be issued and executed without any delay.

The rate or fee to be a first charge on premises.

228. Any rate or fee due to the Municipal Commissioners in respect of any building or land shall, subject to the prior payment of the land-revenue, if any, due to the Government thereupon, be a first charge upon the said building or land and upon the moveable property, if any, found within or upon such building or land and belonging to the person liable for such rate or fee.

No. 85M.—The 13th January 1908.—The following bye-laws which have been made the General Committee under sections 559 and 561, and confirmed by the Corporation and sanctioned by the Lieutenant-Governor, under section 566, of the Calcutta Municipal Act, 1899, are published as required by section 570 of that Act :—

Bye-laws under sections 559 (41) and 561 of the Calcutta Municipal Act, 1899, for securing the efficient inspection and sanitary regulation of shops in which articles intended for human food are kept or sold

Every shopkeeper in whose shop articles intended for human food are kept or sold, shall at all reasonable times, afford the Chairman or other officer to be appointed in this behalf free access to such shop for the purpose of inspection

2. Every such shopkeeper shall carry out all requisitions and directions made or given by the Chairman or other officer as aforesaid for providing adequate means of ventilation and access of light for his shop, for making the floors of such shop pucka and paving them with cement or other impervious material, for providing suitable drains and for keeping the shop in a cleanly and wholesome condition.

3. Every shopkeeper, who deals in prepared or manufactured articles of human food, shall provide in his shop such suitable receptacle or vessel as may be required for keeping such articles in such a manner as to prevent, as far as practicable, the risk of contamination from dust, ashes, rubbish, spiders, flies or other insects, or anything likely to affect health injuriously, and shall keep and maintain such receptacle or vessel in a cleanly and wholesome condition.

4. In case of non-compliance with or breach of any of these bye-laws, the Chairman may give notice in writing to the shopkeeper to comply therewith or discontinue such breach within a reasonable time to be specified therein, and in default of compliance with the requirements of such notice the Chairman may, by order, direct that the shop shall no longer be used as such until the Health Officer certifies in writing that the said requirements have been carried out.

5. A breach of any of these bye-laws shall be punishable with fine which may extend to Rs. 20, and, in the case of a continuing breach, with fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, JANUARY 15, 1908.

NOTICES TO MARINERS.

THE following Notices are published for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 10th January 1908.*

NEW ZEALAND—NORTH ISLAND.

Port Nicholson—Directions for passing Falcon shoals.

No. 17 (first publication).—The British Admiralty has given notice (No. 1839 of 1907) that the following regulations are to be observed by all vessels passing through the channels on either side of Falcon shoals, in the entrance to port Nicholson:—

(*a*) Vessels drawing under 23 feet must pass to the eastward of Falcon shoals light-buoy as defined by the sector of white light shown from Somes island lighthouse.

(*b*) Vessels drawing over 23 feet must pass to the westward of Falcon shoals light-buoy.

All vessels signalling by whistle their course, should be answered by vessels approaching from the opposite direction.

Approximate position, Falcon shoals light-buoy, lat. 41° 18½′ S., long. 174° 50½′ E.

This Notice affects the following Admiralty Chart:—Port Nicholson, No. 1423: Also, New Zealand Pilot, 1901, page 170; and Supplement, 1906.

NEW ZEALAND—NORTH ISLAND.

Wellington—Time Signal re-established.

No. 18 (first publication).—With reference to Notice to Mariners No. 371, dated the 6th October 1906, issued by this office, the British Admiralty has given further notice (No. 1840 of 1907) that a new Observatory has been constructed on Green or Battery hill, at Wellington.

Position of new Observatory, lat. 41° 17′ 4″ S., long. 174° 46′ 7″ E.

This position shows the New Observatory is situated at a distance of $3\frac{3}{10}$ cables S. 13 W. from the old one.

The time ball is now dropped as described in the Admiralty List of Time Signals, 1904, No. 66.

(*Variation 16° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Port Nicholson, No. 1423: Also, New Zealand Pilot, 1901, page 172; and List of Time Signals, 1904, page 32.

EASTERN ARCHIPELAGO—Celebes, west coast—Makassar Strait.

Dangola (Dongala) Road—Lights established.

No. 19 (first publication).—The British Admiralty has given notice (No. 1844 of 1907) that two *red fixed* lights have been established at Dangola, one elevated 39 feet above high water on the village flagstaff, and the other on the beacon situated on the northern extremity of the reef $1\frac{6}{10}$ cables N. 6° E. from the flagstaff. It is assumed that these lights replace the light formerly exhibited from the flagstaff.

Approximate position, flagstaff, lat. 0° 39¾′ S., long. 119° 44¾′ E.

The name of this road has been altered from Dangola to Dongala.

(*Variation 2° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Plan of Dangola road on No. 3209; strait of Makassar, No. 2636: Also, List of Lights, Part VI, 1907, No. 554, page 103; Eastern Archipelago, Part II, 1904, page 321; and Supplement 1906.

AUSTRALIA—Victoria—Port Phillip.

Geelong harbour approach—Beacon replaced by buoy.

No. 20 (first publication).—With reference to Notice to Mariners No. 109, dated the 9th March 1907, issued by this office, the British Admiralty has given further notice (No. 1854 of 1907) that point Wilson beacon, which has been removed, and which was formerly situated at a distance of 1¼ miles S. 5° E., from point Wilson in the approach to Geelong harbour, will be replaced by a red conical buoy surmounted by staff and ball.

Approximate position, point Wilson, lat. 38° 5¾′ S., long. 144° 30¼′ E.

(*Variation 3° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Geelong harbour, No. 2731; Port Phillip, No. 1171b: Also, Australia Directory, vol. I., 1897, page 469.

INDIA, WEST—Sind Coast.

Soundings off the Mouths of the river Indus.

No 21 (first publication).—The following Notice to Mariners (No. 139 of 1907) issued by the Bombay Government is republished:—

The Officer in charge, Marine Survey of India, makes the following report regarding the recent survey of the soundings off the Mouths of the River Indus.

The depth of water shows a slight increase in certain small areas, never exceeding one fathom, and a slight decrease in others. On the whole the existing charts may be considered to be correct.

The present position of Hajamrao Beacon is in—

Latitude	...	...	...	24° 09′ 35″ N.
Longitude	...	...	...	67° 22′ 20″ E.

And of the wreck of the 'Nithsdale' in—

Latitude	...	...	...	24° 38′ 55″ N.
Longitude	...	...	...	67° 05′ 15″ E.

This Notice affects the following Admiralty Charts:—Karachi to Vengurla, No. 826; Coasts of Sind and Kutch, No. 42; Kediwari Mouth to Nirani Creek, No. 118; and Cape Monze to Kediwari Mouth, No. 41; Also, West Coast of Hindustan Pilot, 1898, pages 298 and 300.

BAY OF BENGAL—Burma coast.

Naaf river buoys relaid.

No. 22 (first publication).—With reference to Notice to Mariners No. 270, dated the 7th June 1907, issued by this office, the Principal Port Officer, Burma, has given further notice that the Naaf river buoys were relaid on the 29th December 1907.

INDIA, WEST—Bombay coast—North Kanara.

Caution—Danger to Navigation near Karwar.

No. 1 (second publication).—The Bombay Government has given notice (No. 136 of 1907) that 19 teak logs on a raft in transport from Gangawali to Kodibag on 3rd instant were lost at sea off Beitkoe (Bhatkul) near Karwar. Mariners are hereby warned.

AUSTRALIA, NORTH COAST—Torres strait.

Glamis Castle shoal—Position of—.

No. 2 (second publication).—The British Admiralty has given notice (No. 1766 of 1907) that careful but unsuccessful search has been made for Glamis Castle shoal in Torres strait in approximately lat. 10° 18′ S., long. 141° 1′ E., without finding or seeing any indication of danger; but as it is considered possible that this shoal may exist in approximately lat. 10° 13′ S., long. 141° 1′ E., it has been decided to retain it with P.D. marked against it on the charts in this latter position.

This Notice affects the following Admiralty Charts:—Western approach to Torres strait No. 447; gulf of Carpentaria, No. 1043; Australia, No. 2759a: Also, Australia Directories vol. II, 1907, page 579; vol. III, 1905, page 40.

AUSTRALIA, NORTH COAST—Torres strait.

Prince of Wales channel—Non-existence of rock.

No. 3 (second publication).—The British Admiralty has given notice (No. 1767 of 1907) that a careful but unsuccessful search has been made for the rock reported in 1891 about 5 miles N. 79° W. from Quoin point, Goode island, and marked E.D. on the charts in Prince of Wales channel in approximately lat. 10° 32½′ S., long. 142° 4½′ E., without finding any indication of danger.

As this rock was originally reported as being seen only, and no soundings taken over it, it is considered that it does not exist, and it has therefore been erased from the charts.

(*Variation 4° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Albany pass to Booby island, No. 437; Torres strait, No. 2375: cape Grenville to Booby island, No. 2354; western approach to Torres strait, No. 447: Also, Australia Directory, vol. II, 1907, page 495.

AUSTRALIA, NORTH COAST—Torres strait.

Unsuccessful search for shoal in the western entrance.

No. 4 (second publication).—The British Admiralty has given Notice (No. 1768 of 1907) that careful but unsuccessful search has been made for the shoal reported in the western entrance to Torres strait in approximately lat. 10° 37¾′ S., long. 141° 34½′ E., and marked P. D. on the charts.

As this shoal has previously been searched for by a surveying vessel without finding any indication of danger, it has been decided to place E.D. against it on the charts with the note, "Unsuccessfully searched for by *Paluma*, 1893, *Fantome*, 1907."

This Notice affects the following Admiralty Charts:—Cape Grenville to Booby Island, No. 2354; western approach to Torres strait, No. 447; gulf of Carpentaria, No. 1043: Also, Australia Directories, vol. II, 1907, page 578; vol. III, 1905, page 39.

AUSTRALIA, SOUTH—Gulf of St. Vincent.

Port Adelaide—Movements of Dredger.

No. 5 (second publication).—With reference to Notice to Mariners No. 72, dated 8th February 1907, issued by this office, the British Admiralty has given further notice (No. 1773 of 1907) that the dredger when at work in the vicinity of the second line of leading lights in the entrance to port Adelaide river will on inward and outward bound vessels making the signals described in Notice to Mariners No. 75 of 1907 be moved to the south side of the channel. A red ball by day or a *red* light under a *white* light by night will be always shown from the dredger.

Vessels must pass to the north-westward of the dredger.

The signals abovementioned are as follows:—

(*a*) Inward-bound vessels when abreast of the buoy showing an occulting light at the entrance to the river must give blasts of thirty seconds' duration every minute with a whistle or siren until answered by the dredgers in a similar manner.

(*b*) Outward-bound vessels when abreast of No. 3 beacon must give the same signal as above until it is repeated by the dredgers.

Approximate position, No. 3 beacon, lat. 34° 46¾′ N., long. 138° 29′ E.

This Notice affects the following Admiralty Publication:—Australia, vol. I, 1897, page 329.

AUSTRALIA, SOUTH-EAST—VICTORIA.

Port Phillip Entrance, Coles Channel—Position of buoy altered.

No. 6 (second publication).—The British Admiralty has given notice (No. 1781 of 1907) that in consequence of the extension to the westward of West sand on the eastern side of Coles channel, Port Phillip entrance, the red conical buoy formerly marking the southern point of West sand has been moved about 1 1/10 cables N. 3° W. from its former position; it is consequently now in a position situated at a distance of 13¼ cables N. 27° E. from Swan island beacon.

Approximate position on chart No. 309, Swan island beacon, lat. 38° 15¼′ S., long. 144° 41¾′ E.

(*Variation 8° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Port Phillip, West channel, No. 309; port Phillip entrance, Nos. 1171a, 2747: Also, Australia Directory, vol. I, 1897, page 451.

INDIA, WEST—KATHIAWAR COAST.

Porbandar—Non-existence of wreck in approach.

No. 7 (second publication).—The British Admiralty has given notice (No. 1787 of 1907) that the wreck in the approach to Porbandar has not been seen or heard of for nearly 12 years, and is not now considered to exist. It has, therefore, been erased from the charts.

Approximate position, lat. 21° 29¼′ N., long. 69° 30¼′ E.

This Notice affects the following Admiralty Charts:—Dwarka point to Dice head, No. 1420 gulf of Kutch to Viziadrug, No. 2736; Karachi to Vengurla, No. 826: Also, West Coast of Hindustan Pilot, 1898, page 265.

INDIAN OCEAN—COMORO ISLANDS, MAYOTTA.

Bandeli Passage—Depths in—.

No. 8 (second publication).—With reference to Notice to Mariners No. 140, dated 23rd April 1906, issued by this office, the British Admiralty has given further Notice (No. 1789 or 1907) that further examination shows that the depths in Bandeli passage, Mayotta island, are less than those formerly found, and that at present there is a depth of 17 feet in the entrance not far from the leading line.

Vessels of any draught should only attempt the passage at about high water.

Approximate position, lat. 12° 53′ S., long. 45° 17′ E.

This Notice affects the following Admiralty Chart:—Mayotta island, No. 2741: Also Africa Pilot, part III, 1905, page 561.

CHINA SEA.

Hong Kong—Storm signals altered.

No. 9 (second publication).—The British Admiralty has given notice (No. 1792 of 1907) that the storm signals at that port have been altered as follows. They are made from a mast

in front of the Water Police station at Kaulung point, but do not necessarily imply that bad weather is expected at Hong Kong :—

	Signal.	Signification.
1.	A cone point upwards ...	Indicates a typhoon to the north of Hong Kong.
2.	A cone point upwards and drum below.	Indicates a typhoon to the north-east of Hong Kong.
3.	A drum	Indicates a typhoon to the east of Hong Kong.
4.	A cone point downwards and drum below.	Indicates a typhoon to the south-east of Hong Kong.
5.	A cone point downwards ...	Indicates a typhoon to the south of Hong Kong.
6.	A cone point downwards and ball below.	Indicates a typhoon to the south-west of Hong Kong.
7.	A ball	Indicates a typhoon to the west of Hong Kong.
8.	A cone point upwards and ball below.	Indicates a typhoon to the north-west of Hong Kong.

Red signals indicate that the centre is believed to be more than 300 miles away from the Colony.

Black signals indicate that the centre is believed to be less than 300 miles away from the Colony.

The above signals will, as heretofore, be hoisted only when typhoons exist in such positions or are moving in such directions that information regarding them is considered to be of importance to the Colony or to shipping leaving the harbour.

These signals are repeated at the Harbour Office, H.M.S. *Tamar*, Green island signal mast, and the flagstaff on the premises of the Hong Kong and Kaulung Wharf and Godown Company at Kaulung.

Urgent Signal.

In addition to the above, when it is expected that the wind may increase to full typhoon force at any moment, the following urgent signal will be made at the Wate Police Station, and repeated at the Harbour Office :—

Three explosive bombs, at intervals of ten seconds.

A black cross will be hoisted at the same time, superior to the other shapes.

Night Signals.

The following night signals will be exhibited from the flagstaff on the roof of the Water Police Station at Kaulung, the Harbour Office flagstaff, and H.M.S. *Tamar* :—

I.—Three lights vertical, *green*, *green*, *green*. Indicates that a typhoon is believed to be situated more than 300 miles from the Colony.

II —Three lights vertical, *green*, *red*, *green*. Indicates that a typhoon is believed to be situated less than 300 miles from the Colony.

III.—There lights vertical, *red*, *green*, *red*. Indicates that the wind may be expected to increase to full typhoon force at any moment.

No. III signal will be accompanied by the explosive bombs, as above, in the event of the information conveyed by this signal being first published by night.

The above night signals will be substituted for the day signals at sunset, and will, when necessary, be altered during the night.

Supplementary Warnings.

For the benefit of native vessels and passing ocean vessels, a cone will be exhibited at each of the following stations during the time that any of the above day signals are hoisted in the harbour :—

Gap rock.	Cape Collinson.	Sai Kung.
Waglan.	Aberdeen.	Sha Tau Kok.
Stanley.	Sau Ki Wan.	Tai Po.

This will indicate that there is a depression somewhere in the China Sea, and that a storm warning is hoisted in the harbour.

Further details can always be given to ocean vessels, on demand, by signal, from the lighthouses.

Approximate position, Police flagstaff, lat. 22° 18′ N., long. 114° 10′ E.

This Notice affects China Sea Directory, vol. III, 1904, page 76.

CHINA, SOUTH COAST—Hong Hai Bay.

Sam Chau Inlet—Alteration in depths.

No. 10 (second publication).—With reference to Notice to Mariners No. 275, dated 3rd August 1906, issued by this office, the British Admiralty has given further notice (No. 1803 of 1907) that information has been received respecting the depths in the channels into Sam chau inlet as follows:—

a. The channel between Hsi hu (Entrance) island and Wai Chia (Outer bank) has narrowed considerably by the shifting to the southward and westward of the southern end of Outer bank: there are now depths of from 21 to 26 feet in it.

b. The channel westward of Nei chia (Inner bank) has now a least depth, off Tu ti chueh, of 9 feet in it, and the channel generally is shoaler than shown on the charts.

c. The channel eastward of Nei chia between Hsiying tu and Tung ching chueh has deepened, and there are depths of from 40 to 50 feet to the southward of Tung ching chueh. At the southern junction of channels eastward and westward of Nei chia there are depths of from 21 to 27 feet at low water.

The Outer and Inner banks break heavily at low water even in very light south-easterly winds.

Approximate position, Entrance islands, lat. 22° 41′ N., long. 114° 59′ E.

This Notice affects the following Admiralty Chart:—Sam chu inlet, No. 3459: Also, China Sea Directory, vol. III, 1904, page 137; and Supplement, 1907.

PACIFIC OCEAN—Philippine Islands—Panay, east coast.

Turia Rock—Buoy altered.

No. 11 (second publication).—The British Admiralty has given Notice (No. 1804 of 1907) that the conical buoy marking Turia rock in the approach to Ilo Ilo having disappeared, it has been replaced by a can buoy painted in red and black horizontal bands moored in a depth of 27 feet, at a distance of 4½ miles S. 70° E. from Calabazas lighthouse.

Approximate position, lat. 11° 3′ N., long. 123° 4′ E.

Vessels are recommended to give the above buoy a berth of half a mile in passing.

Note.—This buoy appears to be on the western side of Turia rock. Vessels therefore should pass to the westward of it. The track, which is shown on the Admiralty charts as passing to the eastward of it, has been erased in consequence.

PROPOSED DIVISION OF THE PRESENT PATNA DIVISION INTO TWO CHARGES

RESOLUTION No. 202A.

APPOINTMENT.

Dated Calcutta, the 10th January 1908.

THE population of the Patna Division according to the last census was 15½ millions, or more than that of the Bombay Presidency, excluding Sind. The Division contains seven districts and covers an area of 23,686 square miles. The work of the Commissioner is exceedingly heavy; and it has long been recognized that one man is quite unable to cope with it. For many years past, an Additional Commissioner has been employed to assist the Commissioner. This arrangement is very unsatisfactory. The Commissioner has not that control of the Division which he ought to have. The Additional Commissioner is a colleague to whom part of the work is allotted, and the result is that, so far as work is allotted to him, the Commissioner himself loses

grasp of his charge. The latter thus becomes altogether unacquainted with a large part of his work—with work not only important in itself, but also most important in respect of the light which it might throw on the general administration of the Division. Two Officers are undoubtedly required; but the districts forming the Division will never be administered with real efficiency until each officer has his own charge to administer for himself.

2. In these circumstances, Government is convinced that it is a matter of urgent administrative necessity to divide the present Patna Division into two charges. It is proposed to form the districts of Patna, Gaya and Shahabad into a Commissionership to be known as the Patna Division, while the districts of Saran, Champaran, Muzaffarpur and Darbhanga north of the Ganges would be formed into a separate Commissionership, with head-quarters at Muzaffarpur, to be known as the Tirhut Division. The population of the northern portion is very much larger than that of the southern portion. On the other hand, as regards area, the two portions are not unequal; while the work of each of the three southern districts is individually heavier than that of any of the districts to the north; and the southern districts include the very important Municipality of Patna. The result is that the work of the three southern districts is very nearly equal to that of the four northern districts.

3. The proposal to split the Patna Commissionership into two has already for some time been before the public. It was referred to in an address presented to His Honour the Lieutenant-Governor at Bankipore in July last by the Bihar Landholders' Association, where it was said:—

"Patna Division being roughly equal to two Divisions in area and population, and the services of an Additional Commissioner being permanently required here, we submit that it should be permanently represented in the Provincial Council alternately through the Municipal and District Board electorates. This is the basis of the scheme of partition of the Patna Division that is at present under the consideration of Government; and, though that scheme will rather benefit the districts north of the Ganges, those who reside in Patna are prepared to accept it in order to ensure the permanent representation of the Patna Division in the Provincial Council."

In reply to that address, His Honour said:—

"You allude to the scheme for the arrangement of the districts of the Patna Division into two Divisions. This is a scheme which has the general support of the public. It is true that some people in Patna itself feel that there may be at least some temporary loss to them individually in the establishment of a Commissioner's Office on the north of the Ganges; and, as you say, the advantages of the scheme will be most felt in the districts situated there. But I am glad to find my friends in Patna willing to run the risk of some temporary loss for a measure the utility of which commends itself to the public generally"

These remarks were published in the Bihar and Calcutta newspapers. The Lieutenant-Governor has seen many people on the subject, and has also made inquiry. He finds that public feeling is in favour of the division of the Commissionership. At the same time, as the matter is one of great importance to the people of Bihar, it is thought desirable that it should be published formally for criticism, and for suggestions as to the details, by those interested, before definite steps are taken to carry it out. The matter will be taken into consideration on the 15th of February. All objections and suggestions which it is desired to make should, therefore, be submitted before that date.

ORDER.—Ordered that the Resolution be published in the *Calcutta Gazette*.

Ordered, also, that a copy of the Resolution be forwarded to the Commissioner of the Patna Division, with the request that it may be widely circulated within the Division.

By order of the Lieutenant-Governor of Bengal,

E. A. GAIT,

Chief Secy. to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF THE PORT OF CALCUTTA FOR THE YEAR 1906-1907.

No. 159Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 15th January 1908.

RESOLUTION.

READ—

Administration Report of the Commissioners of the Port of Calcutta for the year 1906-07.

Revenue receipts and expenditure.

THE income of the year 1906-07 amounted to Rs. 1,00,08,737, against Rs. 89,55,395 in 1905-06. The expenditure amounted to Rs. 98,90,809. The balance of receipts over expenditure during the year was Rs. 1,17,928. Adding this amount to the Revenue balance on 1st April 1906, the nett surplus revenue on 31st March 1907 was Rs. 29,59,533 Out of this surplus revenue, Rs. 26,23,734 have been set aside as Revenue Reserve and Rs. 3,35,799 have been carried forward.

Capital outlay.

2. The expenditure during the year upon Capital Works amounted to Rs. 1,04,37,073. The following are some of the more important works completed or in progress during the year—

Four-storeyed Sale-Tea Warehouse at Docks.
Extension of Hydraulic Pumping Station at Docks.
Quarters for officers in Metapuker Lane.
Reconstruction of No. 2 Jetty berth and shed.
Armenian Ghât landing place.
Timber ponds on Sibpur foreshore.
Two Jute Warehouses, Bag Bazar.
New Workshop at Garden Reach.
Improvement and extension of Petroleum Depôt at Budge-Budge.
Seven ferry steamers.
Suction Dredger *Sandpiper*.
Construction of hide sheds.

Capital account.

3. The Capital debt of the Trust on 31st March 1907 was Rs. 5,97,02,857, Against this the Commissioners hold properties, including works in progress, stock of stores and materials, cash and securities in hand, aggregating Rs. 8,06,29,941. The latter figure does not represent the total value of the Commissioners' properties, as the value of a large area of land is included in the assets at cost price only and this land has increased greatly in value since it was acquired. Moreover, this does not include the value of the Strand Bank and Howrah Foreshore lands, the capitalized value of which, at present rates of rent, amounts to a considerable sum. The Commissioners have also accumulated Sinking Funds for repayment of debenture loans to the extent of Rs. 58,70,884. The position of the Commissioners in respect of their debt is therefore satisfactory.

Depreciation and Fire Insurance Funds.

4. In addition to the Revenue Reserve Fund and the Sinking Funds, the Commissioners have a Depreciation Fund for vessels and plant and a Fire Insurance Fund. The balance standing at the credit of the Depreciation Fund on the 31st March 1907 was Rs. 7,07,850. To meet renewals of vessels, mooring materials, &c., during the year, an expenditure of Rs. 2,04,585 was charged against this fund, while the receipts from Revenue and the interest on securities amounted to Rs. 1,33,043. The total accumulations under the Fire Insurance Fund amounted to Rs. 6,32,591, including investments of the face value of Rs. 3,80,200. During the year a sum of Rs. 18,750 was contributed by Revenue to the latter fund and interest amounting to Rs. 14,900 was realised on securities.

Working results of 1906-07 compared with 1905-06.

5. The following table shows the details of the receipts and charges of the Revenue Account for the the year under review as compared with similar figures of the previous year:—

The decrease in receipts under "Control" was due to the contribution from the Howrah Bridge having been shown as a separate item, *vide* statement above.

In 1906-07, 1,595 vessels with a gross registered tonnage of 6,186,751 visited the Port, as against 1,531 vessels with a gross registered tonnage of 5,709,424 in 1905-06. There was an all-round increase in the receipts, the main factors in the increase of nearly Rs. 11 lakhs being Rs. 78,000 from the Jetties, Rs. 1,07,600 from the Port and Port approaches, Rs. 2,35,600 from the Wet Docks and Rs. 3,65,000 from the Railway. The increase in the receipts from Rentable Lands and Buildings was principally due to the Strand Warehouse, formerly used as a Tea Warehouse, being made available for the storage of piece-goods.

The Dry Dock continued to give a good return.

There was a notable increase of 65,000 tons in the jute shipments at the Docks and of 10,000 tons in tea. A new feature in the traffic was the shipment of 25,000 tons of Manganese ore. The quantity of coal shipped was 3,000,181 tons as compared with 2,558,502 tons in the previous year and it was the highest on record. The exports over the Dock quays aggregated 3,796,404 tons, against 3,348,802 tons in the previous year. The imports over the Dock quays were 186,815, against an average of 54,826 tons during the past five years. There was an increase in imports under item "sugar" only as compared with the previous year.

The traffic in jute and hemp handled at the Inland Vessels' Wharves showed a considerable advance and there was a phenomenal rise in the imports of molasses.

During the year the rolling-stock for the Railway was increased by six new locomotives and 140 open wagons and 60 more wagons were ordered in September 1906.

The new four-storeyed Sale-Tea Warehouse at the Docks was brought into use during the year under review and the Strand Warehouse at Armenian Ghât has been made available for the storage of piece-goods and supplies a long-felt want in supplementing the storage accommodation at the jetties.

A scheme to provide for the eventual wants of the expanding trade of the Port which was drawn up by Mr. F. Palmer, Chief Engineer, received the administrative approval of the Government of India.

Vessels berthed at the Jetties.

Two hundred and twenty-four vessels with an aggregate tonnage of 764,419 were accommodated at the Jetties. The following table shows the number of vessels detained for want of berths :—

Of the small river charts published, 96,301 copies were distributed in 1906-07 to Pilots, Harbour-Masters and the shipping, as against 95,564 in 1905-06.

Mr. F. G. Dumayne held the office of the Vice-Chairman throughout the year.

The thanks of the Lieutenant-Governor are due to the Commissioners for their able management of the affairs of the Trust during the year under review.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,
Secretary.

SPECIAL ARRANGEMENTS FOR THE CARRIAGE OF FODDER BY RAILWAY TO TRACTS AFFECTED BY THE PRESENT DROUGHT.

THE following papers are published for general information.

REVENUE DEPT.—*Agri.;*
The 13th January 1908.

E. A. GAIT,
Chief Secy. to the Govt. of Bengal.

No. 39—41-11, dated Calcutta, the 27th December 1907.

From—J. H. KERR, ESQ., I.C.S., Deputy Secretary to the Government of India, Department of Revenue and Agriculture,
To—The Chief Secretary to the Government of Bengal, Revenue Department.

I AM directed to forward, for the information of His Honour the Lieutenant-Governor, a circular issued by the Railway Board which explains the arrangements which have been made with the sanction of the Secretary of State with the object of preventing serious mortality amongst cattle in the tracts affected by the present drought. I am to request that, with the permission of the Lieutenant-Governor, the arrangements may be made known as widely as possible

2. The Government of India hope that this development of famine relief policy, which is the outcome of their desire to take all practicable measures for the preservation of the agricultural stock of the country, will stimulate private trade in fodder, so that all available supplies may be utilised to the fullest extent, and that a considerable saving in cattle life may thereby be effected.

No. 1613R.T., dated Calcutta, the 20th December 1907.

Memo. by—The Secretary to the Railway Board.

A COPY of the following forwarded to the Secretary to the Government of India, Department of Revenue and Agriculture, for information.

No. 1612R.T., dated Calcutta, the 20th December 1907.

From—The Secretary to the Railway Board,
To—The Agents, East Indian, Great Indian Peninsula, Bombay, Baroda and Central India, Southern Mahratta, South Indian, Bengal-Nagpur, Bengal and North-Western, and Rohilkund and Kumaon Railways; the Agents and Managers, Madras and His Highness the Nizam's Guaranteed State Railways; the Manager and Engineer-in-Chief, Bhavnagar-Gondal-Junagad-Porbandar Railway; the Manager and Executive Engineer, Morvi Railway; the Managers, Jodhpur-Bikaner and Udaipur-Chitor Railways.

IN Railway Board's letter No. 1318R.T., dated the 31st October 1907, the attention of the Agents and Managers of all Railways was invited to the grave prospects of a serious fodder famine in the United Provinces, Central India, Rajputana, the Punjab and the North-West Frontier Province, owing to the failure of the last monsoon, and they were requested to co-operate, in the measures being adopted by Government for the protection of cattle, by the quotation of the following specially reduced rates for the carriage of *bhoosa*, grass, *karbi*, etc., between stations within the areas mentioned and from stations outside those areas to stations within them:—

Standard Gauge Railways.

Grass and hay including *chari* (*i.e.*, *jowar* stalks), *bhoosa* straw and *karbi* (*i.e.*, *bajri* stalks), pressed or unpressed in bales or bundles; also oil-cake to be used as fodder.	(1) Locally between stations in the United Provinces, Central India, Rajputana, the Punjab and the North-West Frontier Province. (2) To stations in the United Provinces, Central Provinces, Central India, Rajputana, the Punjab and the North-West Frontier Province from stations outside these provinces.	2 annas per ordinary wagon per mile. Double this rate for bogie wagons.

Metre Gauge Railways.

Grass and hay including *ghari* (i.e., *jowar* stalks) *bhoosa*, straw and *karbi* (i.e., *bajri* stalks), pressed or unpressed in bales or bundles; also oil-cake to be used as fodder.	(1) Locally between stations in the United Provinces, Central India, Rajputana, the Punjab and the North-West Frontier Province. (2) To stations in the United Provinces, Central Provinces, Central India, Rajputana, the Punjab and the North-West Frontier Province from stations outside these provinces.	2 annas for the first 50 miles, 1½ annas for next 100 miles and 1 anna per mile for any additional distance per ordinary wagon per mile. Double these rates for bogie wagons.

2. It is a source of considerable satisfaction that Railways have generally agreed to quote reduced rates for this traffic, and attached is an abstract showing the special rates agreed to by each Railway.

3. The Government of India, however, realize that even greater assistance than that which is secured by these specially reduced rates, is necessary in order to effect the movement of fodder in quantities sufficiently large to provide for the safety of the cattle within the famine area, and have decided that, with immediate effect, freight on consignments of fodder (excepting fodder for the Army Department) booked to stations in the provinces mentioned, shall be recovered from the $\frac{\text{consignor}}{\text{consignee}}$ at the rate of ½ an anna per four-wheeled wagon per mile, and one anna per bogie wagon on consignments, and that the balance of freight calculated at the special reduced rates agreed to by Railways, or the ordinary tariff rates in cases where the rate has not been specially reduced, shall be paid by Government, debitable to "38—Famine Relief."

4. I am, therefore, to request that arrangements may be made at once to give effect to these orders and that their terms be extensively published for the information of the public and of traders.

Abstract of replies received from Railway.

His Highness the Nizam's Guaranteed State Railway (standard gauge).	Agrees.
Bengal-Nagpur Railway (standard gauge) ...	Agrees to quote the rate of 2 annas per four-wheeled wagon per mile.
East Indian Railway (standard gauge) ...	Agrees to the rate of 2 annas per wagon per mile being charged between the following stations:— (1) Any two stations on the length Dildarnagar to Kalka (both inclusive). (2) From any station on the East Indian Railway to any station on the length Dildarnagar to Kalka (both inclusive). (3) From or *viâ* any station on the East Indian Railway to stations on foreign lines reached *viâ* the following junctions—Tarighat, Moghalserai, Allahabad, Cawnpore-Farukhabad, Agra, Hathras, Hapur, Aligarh, Ghaziabad, Delhi, Delhi Shahdara, Umballa, Kalka. (4) From or *viâ* any station on the East Indian Railway to *viâ* Mokameh Ghât to stations west of Bhatni.
Madras Railway (standard gauge) ...	Agrees to rates mentioned in Railway Board's letter.
Great Indian Peninsula Railway (standard gauge).	Agrees to a rate of Re. 0-2-6 per wagon mile first 100 miles and Re. 0-2-3 over 100 miles added to rate for first 100 miles.

Bombay, Baroda and Central India Railway — Bombay, Baroda and Central India Railway (standard gauge).	Agrees to proposed rates.
Bombay, Baroda and Central India Railway — Rajputana Malwa Railway (metre gauge).	
Bengal and North-Western Railway (metre gauge).	Agrees, as a special famine concession, to the rate for four-wheeled vehicles and 50 per cent. extra for six-wheelers and bogies.
Jodhpur-Bikaner (metre gauge)	Agrees to rates in through booking, the same as quoted by the Rajputana-Malwa Railway. Reduced rates for local booking not considered necessary, as fodder supplies in country served by Jodhpur Bikaner Railway are ample.
Rohilkund and Kumaon Railway (metre gauge).	Agrees to rates subject to Home Board's approval.
South Indian Railway (metre gauge) ...	Agrees.
Southern Mahratta Railway (metre gauge) ...	Agrees to proposed rates in through booking.

Bhavnagar-Gondal-Junagad-Porbandar Railway (metre gauge).	Agrees to proposed rates.

UNIVERSAL AND INTERNATIONAL EXHIBITION TO BE HELD AT BRUSSELS IN THE YEAR 1910.

NOTIFICATION.

No. 307.—The 13th January 1908.—The following is published for general information.

H. C. STREATFEILD,
Offg. Secy. to the Govt. of Bengal.

No. 22—42-1.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

COMMERCIAL EXHIBITIONS.

RESOLUTION.

Dated Calcutta, the 6th January 1908.

THE following Notification of the Universal and International Exhibition to be held at Brussels in the year 1910 is published for general information. The Government of India have decided not to participate in the Exhibition.

KINGDOM OF BELGIUM.

BRUSSELS UNIVERSAL AND INTERNATIONAL EXHIBITION ORGANISED FOR 1910 UNDER THE HIGH PATRONAGE OF HIS MAJESTY THE KING OF THE BELGIANS AND THE HONORARY PRESIDENCY OF H. R. H. PRINCE ALBERT OF BELGIUM.

APPEAL TO EXHIBITORS.

Brussels, October 30th, 1907.

A Universal and International Exhibition will open at Brussels in the month of April 1910, and will last for at least six months.

The four Universal and International Exhibitions previously held in Belgium, namely at Antwerp in 1885 and in 1894, at Brussels in 1897, and at Liege in 1905 proved eminently successful, and there is every reason to hope that their success will be equalled and even surpassed by the World's Fair now under organisation in the *Capital* of Belgium. The intended Exhibition will include, as to its chief divisions, the following Groups :

I—Fine Arts.
II—Education.
III—Instruments and general methods connected with Letters, Sciences and Arts.
IV—Plant and general methods connected with Machinery.
V—Electricity.
VI—Civil Engineering.—Means of Transport.
VII—Agriculture.
VIII—Horticulture and Arboriculture.
IX—Forests.—Shooting.—Hunting.—Fishing.—Fruit gathering.
X—Articles of Food.
XI—Mines.—Metallurgy.
XII—Decoration and furnishing of Public Buildings and Private Houses.
XIII—Yarns, Woven Fabrics, Wearing Apparel.

XIV—Chemical Industry.
XV—Miscellaneous Industries.
XVI—Social Economy.
XVII—Public Health.—Charitable Institutions.
XVIII—Practical Education.—Economic Institutions.—Female Handicraft.
XIX—Trade.—Colonisation.
XX—Land and Sea Forces.
XXI—Sports.
XXII—Congresses and Conferences.

Brussels is extending day by day and the public Authorities do everything in their power to justify the name which it already has of being one of the finest *Capitals* of Europe.

Only recently its territory has been considerably added to by the incorporation of a large amount of land running alongside the *Bois de la Cambre*, the favourite resort of the Brussels people.

On this marvellously situated spot covering, as it does, more than 200 acres, halls and pavilions will be erected, ready to accommodate productions from all over the world.

Broad tree-set avenues will connect the Avenue Louise with the entrance of the Exhibition, while tramway lines will ensure communication with all the suburban districts of the City.

How delightful it will be for the visitors, after spending the greater part of the day in thoroughly going over the galleries, to be able to enjoy from the terraces, in the cool of fine summer evenings, the glorious scenery of the sunset lighting up in crimson the beautiful foliage of the grand trees of the forest—a magnificent frame encircling the vast arena where the workers of the whole world will soon gather to wrestle with each other in a courteous and peaceful manner.

The Exhibition grounds will be connected with the Belgian State Railways.

The Principal Palace as well as the Halls of the Exhibition will be built of iron and covered with hard materials; the Palace will be surrounded by a *vast Park* containing numerous attractions.

Adopting the idea suggested by the magnificent displays witnessed at Turin and Milan, the organisers contemplate the creation of an international section of *Modern Decorative Art*.

The *Machinery Hall* will have, annexed to it, a working gallery where numerous workshops will continually be in operation under the eyes of the public. Special attention will be paid to the installation of a compartment of *small tools* and of motors for performing *work at home*.

A special Palace may be reserved for *Retrospective and Modern Exhibitions of Lighting appliances* of every description.

As was done at the Liege Exhibition in 1905, *Female Arts and Industries* will be the subject of a special organisation.

With the view of giving effect to the resolutions adopted at the Congress of the World's Expansion held at Mons in 1905, the Executive Committee will make it a point of arranging Groups in connection with Trade and Colonisation.

The programme will also include special exhibitions, *temporary Agricultural and Horticultural Shows, Congresses, Conferences, Artistic Fêtes* and *Competitions* of all kinds, so as to afford visitors every possible *attraction*.

Further, the Executive Committee will give their patronage to the formation of a *Commercial Bureau* on the premises, which besides affording the exhibitor a means of protection of his interests at the Exhibition, will at the same time be a source of diffusion of his industry.

The *Commercial Bureau* will centralise all information concerning the industries represented; it will place Engineers at the disposal of such visitors as may wish to be guided over the Exhibition and it will endeavour, in every possible way, to promote the development of commercial intercourse between the countries gathered together at this World's Fair.

The necessary measures will be taken for *protecting* in Belgium patentable *inventions*, industrial designs or models, and manufacturing or trade marks appearing at the Exhibition.

The Government will grant on the State Railways *free transport* of *Belgian products* returning from the Exhibition.

The Exhibition will be treated as an *actual bonded warehouse*, foreign goods consigned to the Exhibition being allowed provisional *duty-free importation*, subject to being afterwards re-exported.

The general Regulations, the classification of exhibits and conditions of admission will very shortly be settled; a plan has already been adopted consisting in dividing the goods according to national Compartments, *viz.*, grouping together the works and productions of each country, combined with a system of general classification.

The price for space will include the expenses of general decoration and handling charges: exhibitors will thus be enabled to ascertain beforehand the exact outlay incumbent upon them.

A *Lottery* will be organised under the authority and supervision of the Government; the prizes will be purchased from amongst the exhibits.

An *International Jury*, appointed with the approbation of the Government, will undertake the allotment of awards.

The *Belgian Government* have appointed a Commissioner General to act as their Delegate to the Executive Committee of the Exhibition and Foreign Sections, and a Commission will shortly be instituted for the purpose of inducing Belgian producers to concur, and of furthering their participation.

The Exhibition is placed under the *High Patronage of His Majesty the King of the Belgians and the Honorary Presidency of H. R. H. Prince Albert of Belgium.*

It has already secured the effective co-operation of the Belgian Government as well as the support of the City of Brussels.

The profits realised by the undertaking are to be applied to the organisation of *Fêtes* and *Rejoicings* of an attractive character so as to draw people to the Exhibition and to the Capital, and the surplus, if any, will be devoted to a *Fund of Public Utility.*

The chief object of the organisers is to promote and develop international dealings, namely to extend outlets for *Industry*, to open up broader fields of action for *Trade*, and moreover to increase and multiply the *commercial relations* between all Nations.

The Executive Committee therefore warmly appeal to every Nation of the Globe, in the hope that all countries will direct their combined efforts towards collecting at Brussels a large and choice selection of exhibits, in evidence of the importance attached to the pursuit of progress in every branch of human activity.

ORDERED that the foregoing papers be published in the Supplement to the *Gazette of India* for general information, and that copies be forwarded to the Local Governments and Administrations named in the margin for information.

The Government of Madras

" " " Bengal.
" " " the United Provinces.
" " " the Punjab.
" " " Burma.
" " " Eastern Bengal and Assam.
The Hon'ble the Chief Commissioner, Central Provinces.
The Chief Commissioner of Coorg.

Ordered, also, that a copy be forwarded to the Chief Commissioner of Ajmer-Merwara, and the Honourable the Agent to the Governor General and Chief Commissioner, North-West Frontier Province, for information, and to the Foreign Department, for information and communication to Native States.

Ordered, also, that a copy be forwarded to all Chambers of Commerce for information.

W. L. HARVEY,
Secretary to the Government of India.

* The report is for the week ending the 4th January 1908.

General Summary.—Rain has come at last and the fall has been general. Most of the Lower Bengal districts received about one inch: The South Bihar districts, Monghyr and Saran about an inch, but the North Bihar districts and Bhagalpur received less. In Chota Nagpur the fall amounted to from ¼ to ⅘ths of an inch In Balasore the fall was three inches and in the other districts of Orissa about ½ an inch. The prospects of the *rabi* crop sown have greatly improved: as the rain came on the last two days of the week the improvement has not yet been fully appreciated. In Patna the poppy crop is doing well and it is reported that barley can still be sown. The harvesting of winter rice is almost completed and the pressing of sugarcane continues In Cuttack barley, wheat and tobacco are doing well. The stock of food-grains is reported insufficient in Bankura, Nadia, Murshidabad, Deoghur sub-division of the Sonthal Parganas, Balasore, Ranchi and Palamau. Prices are practically stationary except in Darbhanga and Balasore, where there has been a rise. Cattle-disease is reported form Asansol in Burdwan, Nawadah in Gaya, Bhagalpur, Sambalpur, Ranchi, Palamau and Manbhum. Scarcity is still apprehended in portions of Bankura, Nadia, Murshidabad, Bhabhua and Sassaram sub-divisions of Shahabad, Darauli and Manjhi thanas of Saran, Balasore, Ranchi and Palamau; also in Birbhum and Jessore at the end of the cold season. In Cuttack gratuitous relief has been given to 1,290 men, 2,790 women, 2,667 children: total 6,747. On the test-work 166 men, 64 women and 16 children: (total 246) are employed. There is one test-work in Balasore for which figures are not given. The report from the Feudatory States of Orissa for week ending the 4th January shows that no rain fell during that period. Harvesting of winter rice and pressing of sugarcane continues. The prospects of *rabi* are not favourable. The condition of agricultural stock is good and fodder and water are sufficient.

SUMMARY OF RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE MONTH OF DECEMBER 1907.

In December, the rainfall was general throughout the Province. In almost all the districts of South-West Bengal, Orissa and Chota Nagpur the fall was above the average. It was scanty in Bihar. The districts of Darbhanga, Bhagalpur, Purnea and the Sonthal Parganas received a fall in excess of the normal. On an average, South-West Bengal received 0 81 inch, Bihar 0·10 inch, Orissa 0·95 inch, and Chota Nagpur 0 84 inch of rain. The departure from the normal was + 0·69 inch in South-West Bengal, —0·02 inch in Bihar, + 0·68 inch in Orissa and + 0 64 inch in Nagpur.

From the condensed percentage table, it will be seen that there was a marked deficiency in Bihar, which received 83 per cent. of the normal, while South West Bengal received 676 per cent., Orissa 352 per cent. and Chota Nagpur 420 per cent. During the whole of 1907, only in Orissa the rainfall was in excess of the normal, while in other Divisions it was below the average.

The following table compares the rainfall in the four Divisions during the month of December with the normal fall, the actual being given as a percentage of the normal. The table also shows the actual falls for each of the previous months of the year, expressed in the same way, and the last column of the table shows the total rainfall of the past twelve months of the year :—

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF NOVEMBER 1907.

THE meteorological features of the month present few features of interest. Little or no rain fell in the area under report. The deficiency was most marked in Bengal and Orissa, which usually receive moderate amounts during the month. The air was unusually dry in Chota Nagpur, but elsewhere the departures of humidity from the normal were not marked. The quantity of cloud was generally in defect, particularly over the southern half of the division. Temperature was normal. During the first week of the month, light falls of rain occurred at Shillon, Tezpur and Darjeeling. Skies were clear, except in the north eastern districts and on the 7th in Orissa and Bengal. Maximum temperature was somewhat higher than usual in parts of the division, especially in Chota Nagpur, but the minimum was generally normal. During the second week there was no rain, and skies were almost free from cloud. Temperature was generally normal. During the third week skies were lightly to moderately clouded on the 17th and 18th, probably owing to the passage eastward of a cold weather depression; but apart from this skies were clear. Temperature was practically normal, although there was a slight excess in the maximum in the province of Bengal from the 18th to the end of the week. During the remainder of the month skies remained clear from the 22nd to the 24th, but on the 25th light cloud appeared in the coast districts, and gradually spread over the remainder of the Division. Temperature conditions agreed fairly with the normal.

Weather was very unsettled in the south of the Bay during the early part of the month, and on the 9th of the month observations suggested the formation of a cyclonic storm to the west of Port Blair. After moving in a westerly direction and approaching the coast near Nellore the storm diminished rapidly in intensity and weather improved in the Bay on the 16th. On the 24th a depression appeared over the Andaman Sea, and travelling in a westerly direction crossed the Coromandel coast near Madras on the 26th and 27th.

Summary of Temperature.—Mean temperature was in excess everywhere except in East Bengal and Assam. In Orissa and Chota Nagpur the excess was about 1½ degrees. The highest temperature (95·0) was reported from Buxar, and the lowest (45·0) was reported from Daltonganj.

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Bengal and of Eastern Bengal and Assam for the month of November 1907:—

Meteorological Division.	Temperature.					
	Highest observed during month.	Lowest observed during month.	Average for month.			Average mean of month above or below normal mean of month

* Puralia not included.

Summary of Rainfall.—The rainfall work of the area under report has been handed over to the Director of Agriculture. A short table, however, is attached to this report, giving actual and normal rainfall recorded at the principal stations of each district.

Rainfall was again in general defect throughout the two provinces.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

☁, dew.

Circular No. 1, dated Mahajana Sabha Hall, Mount Road, Madras, the 27th November 1907.

ALL-INDIA COMPETITION OF HAND-LOOMS.

IT is a well-known fact that next to agriculture the most important industry in this country is Hand-loom weaving. Various improvements in the existing looms have been suggested from time to time and improved fly-shuttle looms have been introduced; but as yet the ordinary weavers have not evinced any great desire to adopt them. This is not to be wondered at, seeing that no systematic attempts have hitherto been made to demonstrate, by practical trials, extending over a sufficiently long period, the comparative merits of the fly-shuttle and the ordinary looms and the best methods of weaving. With a view to carry out such a trial, the Managing Committee of the National Fund and Industrial Association, Madras, have resolved to hold a weaving competition of Indian-made hand-looms and also of such improved hand-looms as have recently been introduced into this country, the competition being continued for six days, during which the same workmen will be required to work for seven hours a day, from 8 A.M. to 5-30 P.M., with an interval of an hour after 10 A.M., and of an hour and a half after 1 P.M.

The Government of Madras has been pleased to sanction a liberal contribution of Rs. 2,500 towards this undertaking, on condition that the National Fund and Industrial Association provides not less than one thousand rupees and undertakes to carry out the necessary arrangements. This the Association has readily agreed to do, and the Competition will be held during the last week of February 1908.

The following is the programme of the Competition :—

WEAVING COMPETITIONS.

A Weaving Competition will be held in Madras on the premises of the Madras School of Arts in February 1908, when the following prizes will be offered for hand-looms working under the conditions specified :—

1. The tests will commence on Monday, the 24th of February, at 8 A.M., and will be continued till Saturday evening at 5-30 P.M. The weavers will be required to work for 7 hours each day, commencing work at 8 A.M., and with intervals of rest from 10 A.M. to 11 A.M. and from 1 P.M. to 2-30 P.M.

2. Intending competitors must make application for the sections and classes they wish to enter for on the form provided for the purpose, which will be supplied on application to the Honorary Secretaries of the "All-India Competition of Hand-looms," Mahajana Sabha Hall, Mount Road, Madras.

Such applications must reach them before the 15th January. Every competitor will be required to fix up his own loom, and as far as possible indigenous hand-looms will be located in a shed with an earthen floor to facilitate the erection of the frame-work that may be necessary.

3. Each competitor will provide his own warp, complying with the conditions of the competition, and will be allowed to fix it in the loom beforehand, and to weave a length not exceeding two yards before the competition commences. At the end of each interval of work, the length woven during that interval will be marked off by a thin band of red. Competitors must supply their own pirns and have a sufficient supply for the competition.

4. Competitors should come provided with warps sufficiently long to keep their loom employed during the whole week.

5. In awarding the prizes the Judges will allow marks :—

(1) For the total length of cloth woven in the week ;
(2) For the uniformity of length of outturn day by day;
(3) For quality of weaving in which uniformity of picking and freedom from broken ends will be important factors ;
(4) For nearness to exact compliance with the specification of the cloth to be woven.

SPECIAL PRIZE.

A Special Prize of Rs. 500 will be placed at the disposal of the Judges to be awarded to the best loom entered for any of the competitions, provided that such loom is well suited to the requirements of native hand-weavers and is capable of doing satisfactory work on both fine and coarse counts. The Judges will be required to satisfy themselves that the initial cost of the loom is reasonable, that it is not likely to get out of order, that it can be easily repaired, that with but slight modifications it is capable of being worked on both fine and coarse counts, that it requires no uncommon dexterity to obtain good results from it, and generally that its adoption by the weaving community would enable them to largely increase their output.

Should there be two looms of practically equal merit and the Judges deem that the adoption of either of them is likely to materially improve the welfare of the weaving community, two special prizes will be provided. It must be clearly understood that these prizes will only be awarded to looms which possess points of novelty.

Section I.—Native Hand-looms.

Prizes of Rs. 100, Rs. 75 and Rs. 50 will be awarded to looms which do the best work in the following classes :—

(1) Looms to weave cloth one yard wide with 20s for warp and weft, with 48 threads per inch and weft 48 picks ;

(2) Looms to weave cloth from 45″ to 54″ wide with 60s for warp and weft, with 72 threads per inch and 72 picks for weft ;

(3) Looms to weave cloth from 45″ to 54″ wide using for warp and weft 100s with 80 threads per inch and 80 picks for weft ;

(4) Looms to weave Madras handkerchiefs with 40s both warp and weft. Warp with 72 threads per inch and 72 picks for weft ; standard width one yard ;

(5) Looms to weave fine handkerchiefs with 60s in the warp and 40s in the weft. Warp to be 80 threads per inch and weft 108 picks ; standard width one yard.

Section II—Improved Hand-looms made in India.

Prizes of Rs. 100, Rs. 75 and Rs. 50 will be awarded to looms which do best in the following competitions :—

(1) Looms to weave cloth one yard wide with 20s;
(2) Looms to weave cloth from 45″ to 54″ wide with 60s.
(3) Looms to weave cloth from 45″ to 54″ wide using for warp and weft 100s,
(4) Looms to weave Madras handkerchiefs with 40s for both warp and weft;
(5) Looms to weave fine handkerchiefs with 60s in the warp and 40s in the weft.

(*Warp and weft to be as in Section I*)

Section III.

Imported hand-looms may be entered for any of the competitions under Section II but they will be judged separately; and if any looms are deemed of sufficient merit to justify the encouragement of their use in India, gold and silver medals will be placed at the disposal of the Judges to be awarded to such.

Looms may be entered for any one or all of the classes of the competition, but only one medal will be awarded to each type of loom, and the Judges will be instructed to make no awards unless, in their opinion, the looms can be confidently recommended for use among the weavers of India.

General.

Any number of looms of the same make may be entered for any competition, but only one prize will be awarded in each competition to one particular make of loom. Special weavers' prizes of Rs. 25 each will be awarded to the weavers themselves. Three such prizes will be awarded in each competition by the Judges who will only take into account the skill and dexterity of the weaver independently of the merits of the loom.

Successful competitors in Sections I and II may, if they prefer it, receive gold or silver medals in lieu of money prizes.

Intending competitors should send their looms so as to reach the Secretaries (School of Arts) before the 1st February 1908.

The workmen should report themselves to the Secretaries at the School of Arts at least two days before the date of competition.

The exhibitors will have to make their own arrangements, at their own cost, to setting up their looms.

Competitors entering a number of looms will, as far as space permits, be allowed to make arrangements for winding pirns on the School of Arts premises.

IRRIGATION DEPARTMENT.

The 21st January 1908.

No. 1.—Notification.—In exercise of the powers conferred on him by sections 78 and 99 of Act III (B.C.) of 1876, His Honour the Lieutenant-Governor of Bengal proposes to make the following revised water-rate rules for the Dhaka Canal in supersession of those passed in Notification No. 11, dated the 27th March 1905, and modified in Notification No. 3, dated the 16th March 1907 and in lieu of those proposed in Bengal Government Notification No. 11, dated the 18th November 1907.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

AS EXISTING.

GENERAL CONDITIONS.

1. The revenue administration of the Dhaka Canal is vested in the Superintending Engineer of the Gandak Circle. The Divisional Canal Officer is responsible for maintaining the canal in an efficient condition, for the distribution of water to the lessees, and for the closing of the outlets in rotation when required; he is further responsible for the assessment of water-rates.

2. The Collector of the district is responsible for the collection of water-rates.

3. Except as provided in the Act and in these rules, no appeal shall lie from any order passed by a Canal Officer, but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any order passed by him in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

4. In appeals to the Collector under section 91 of the Act other than those especially provided for in rule 16, the Collector may require the Superintending Engineer to state his opinion in writing, which opinion shall form part of the record of the proceedings of the case.

ON BLOCKS.

5. The Divisional Canal Officer shall map out the irrigable area into blocks demarcated by suitable boundaries, and in order to equalise the area to be dealt with each year, shall determine the date of expiry of the leases in each block, so that as far as practicable one-fifth of the total area usually irrigated may fall out of lease every year.

6. Each block, determined as above, shall be numbered and marked on the maps to be maintained by the Divisional Canal Officer, and shall also be recorded with its irrigable area in the registers to be kept by him.

ON APPLICATIONS.

7. Any person who requires a lease for water must apply to—

(*a*) the Sectional Officer, or
(*b*) the Subdivisional Canal Officer.

These applications must be made in writing and may be on plain paper.

The person receiving them shall enter on he back any further data required.

AS PROPOSED.

GENERAL CONDITIONS.

1. The revenue administration of the Dhaka Canal is vested in the Superintending Engineer of the Gandak Circle. The Divisional Canal Officer is responsible for maintaining the Canal in an efficient condition, for the distribution of water to the lessees, and for the closing of the outlets in rotation when required; he is further responsible for the assessment of water-rates.

2. The Collector of the district is responsible for the collection of water-rates.

3. Except as provided in the Act and in these rules, no appeal shall lie from an order passed by a Canal Officer, but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any order passed by him in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

4. In appeals to the Collector under section 91 of the Act other than those especially provided for in rule 16, the Collector may require the Superintending Engineer to state his opinion in writing, which opinion shall form part of the record of the proceedings of the case.

ON APPLICATIONS.

5. Any person who requires a lease for water may apply to—

(*a*) the Sectional Officer, or
(*b*) the Subdivisional Canal Officer.

These preliminary applications must be made in writing and may be on plain paper.

The person receiving them shall enter on the back any further data required.

ON LEASES AND PERMITS.

8. Ordinarily 5-year leases may be granted for the whole irrigable area of a block or a definite part of a block under the following conditions:—

(*i*) No lease for less than 10 acres shall be granted.

(*ii*) No lease shall be granted when the water must cross unleased lands unless a suitable village channel exists.

9. Villages which apply for a lease at a period less than five years in advance of the date of expiry fixed under rule 5 will only be granted leases for the remaining years of the term fixed for the block in which they are situated, so that all the leases within the same block may expire on the same date. These leases will be granted under the same conditions as 5-year leases.

10. The Divisional Canal Officer shall issue permits for long leases to the lessees through the Subdivisional Canal Officer.

11. When water is required, pending the completion of a lease for a term of years, the Subdivisional Canal Officer may, on application, grant a season lease which will be cancelled if the long lease is subsequently concluded.

12 Season leases for the supply of water at any season may be granted on application by the Subdivisional Canal Officer.

13. When a lease is granted, an agreement shall be taken in forms given in Appendices I, III, IVA and IVB, and a "permit" shall be given to the lessee or lessees in forms given in Appendices II, IV and IVC.

14. Water for filling tanks may be supplied when available for cash paid in advance; the water taken into the tanks may be used for irrigation or any other purpose (forms of application and permit are given in Appendices V and VI).

ON WATER-RATES.

15. The following rates will be charged for water supplied, whether taken by lift or flow:—

	Rs.	A.	
I.—Leases for a term of years, 16th June to 15th November.	1	0	per acre.
II.—Season leases, 16th June to 15th November.	1	8	„ „
III.—Season leases, 1st November to 28th February.	0	8	„ „
IV.—Season leases, 1st March to 15th June.	2	0	„ „
V.—Water supplied to tanks.	1	0	„ 10,000 c. ft.

ON LEASES AND PERMITS.

6. Leases for a term of 3 years may be granted under the following conditions:—

(i) The lands to be irrigated must constitute a block with defined boundaries and be so situated that adjoining lands will not ordinarily or probably be irrigated with water supplied.

(ii) All the irrigable lands within the limits of the block must be included.

(iii) Sufficient distributing channels must be provided to enable the irrigation to be carried on without waste of water.

(iv) No lease will be granted when the water must cross unleased lands unless there is a channel which will, in the opinion of the Subdivisional Canal Officer, convey the water across the intervening land without waste.

Applications for leases for a term of years will be received up to 1st May in each year. It shall be within the discretion of the Divisional Canal Officer to accept or decline applications for such leases if presented at a later date.

7. The Divisional Canal Officer shall issue permits for leases for a term of years to the lessee through the Subdivisional Canal Officer.

8. When water is required, pending the completion of a lease for a term of years, the Subdivisional Canal Officer may, on application, grant a season lease which will be cancelled if the lease for a term of years is subsequently concluded.

9. Season leases for the supply of water for any crop may be granted, on application, by the Subdivisional Canal Officer.

10. When a lease is granted, an agreement shall be taken in forms given in Appendices I, III, IVA, IVB, VII and IX and a "permit" shall be given to the lessee or lessees in forms given in Appendices II, IV, IVC, X and XI.

11. Water for filling tanks may be supplied when available for cash paid in advance; the water taken into the tanks may be used for irrigation or any other purpose (forms of application and permit are given in Appendices V and VI).

ON WATER-RATES.

12. The following rates will be charged for water supplied, whether taken by lift or flow:—

	Rs.	A.	
I.—Leases for a term of 3 years, 16th June to end of February in each year.	1	0	per acre.
II.—Season leases, 16th June to 31st October.	2	0	„ „
III.—Season leases, 1st November to end of February.	1	0	„ „

ON DEMAND STATEMENTS.

..6. The statement of the amounts due for the water-rates leviable under these rules shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall, from time to time, be sanctioned by the Lieutenant-Governor. A *parcha* showing the area and amount assessed against each cultivator shall be sent to him through the cultivator's representative when or before the demand statement is sent to the Collector for realization. Persons charged under rule 26 shall be served as soon as the charge is made, by post or otherwise, with a statement showing the amounts charged to enable them to lodge an appeal to the Collector under section 91 of the Act if they desire to do so.

17. The rates for water supplied between 16th June and 15th November, whether on leases for a term of years or on season leases, shall be payable in two equal instalments, falling due respectively on the 1st January and 1st February following, but all sums of Rs. 10 and under shall become due on the 1st January and be payable in one instalment.

The rates for water supplied between 1st November and 28th February shall fall due on the 1st April following.

The rates for water supplied between 1st March and 15th June shall fall due on the 1st July following.

The rates for water to be supplied to tanks shall be payable before water is supplied

18. Water-rates imposed under rule 26 shall fall due as soon as the assessment is made and shall be realised at once.

ON REMISSIONS.

19. Remission of water-rates, either in whole or in part, shall be granted as follows:—

(*i*) By the Divisional Canal Officer for errors in assessment or rates.

(*ii*) By the Divisional Canal Officer for injury to a crop on a leased area caused by a deficiency in the supply of water.

In the latter case a written application must be made at least 20 days before the crop is cut.

20. Remissions on other grounds than the above require the sanction of Government.

21. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is not realisable

	Rs.	A.	
IV.—Season leases, 1st March to 15th June.	2	0	per acre.
V.—For one or more waterings supplied between 1st March and 15th June.	0	12	for each watering.
VI.—Water supplied to tanks	1	0	per 10,000 c. ft.

ON DEMAND STATEMENTS.

13 The statement of the amounts due for the water rates leviable under these rules shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall, from time to time, be sanctioned by the Lieutenant-Governor. A *parcha* showing the area and amount assessed against each cultivator shall be sent to him through the cultivator's representative when or before the demand statement is sent to the Collector for realization Persons charged under rule 33 shall be served as soon as the charge is made, by post or otherwise, with a statement showing the amounts charged.

14. The rates for water supplied on a lease for a term of years between the 16th June and the end of February shall be payable in two equal instalments, falling due respectively on the 1st January and 1st February following, but all sums of Rs. 10 and under shall become due on the 1st January and be payable in one instalment.

The rates of water supplied on season leases between the 1st June and 31st October shall be payable in two equal instalments falling due respectively on the 1st January and 1st February following, but all sums of Rs. 10 and under shall become due on the 1st January and be payable in one instalment.

The rates for water supplied on season leases between 1st November to end of February shall fall due on the 1st April following.

The rates for water supplied on season leases between 1st March and 15th June shall fall due on the 1st July following.

The rates for water to be supplied to tanks shall be payable before water is supplied

15. Water-rates imposed under rule 33 shall fall due as soon as the assessment is made and shall be realised at once.

ON REMISSIONS.

16. Remission of water-rates, either in whole or in part, shall be granted as follows:—

(*i*) By the Divisional Canal Officer for errors in assessment or rates.

(*ii*) By the Divisional Canal Officer for injury to a crop on a leased area caused by a deficiency in the supply of water.

In the latter case a written application must be made at least 20 days before the crop is cut.

17. Remissions on other grounds than the above require the sanction of Government.

18. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is not realisable may be written off as irrecoverable on the authority of the Superintending Canal Officer.

may be written off as irrecoverable on the authority of the Superintending Canal Officer.

22. Before awarding compensation under section 16 of the Act or making reference under section 17 of the Act, the Collector shall obtain the written opinion of the Superintending Canal Officer, and his written opinion shall form part of the record of the proceedings.

ON CULTIVATORS' REPRESENTATIVES.

23. Before a lease is entered into, the Subdivisional Canal Officer shall select as representative of the cultivators a suitable person or persons who shall be generally acceptable to the cultivators, and shall each have a direct interest in the land covered by the lease. *Jait raiyats* or *gumashtas* shall usually be selected, or if it is undesirable in any particular case to appoint the *Jait raiyats* or *gumashtas*, the reasons for passing them over and selecting others in preference are to be noted by the Subdivisional Canal Officer in the list of cultivators' representatives to be maintained by him

24. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

I.—In the preparation of applications for leases.

II.—In the measurement of irrigated lands.

III.—In giving the names of the occupiers of the various fields.

IV.—In receiving demand statements and informing the cultivators of the demands against them

V.—In receiving *parchas* and distributing them.

VI.—In attending, when required, at enquiries and complaints.

VII.—In reporting to the zilladars any mutations of holdings of persons who have signed a long lease.

VIII.—In assisting the tahsildar in collecting rates.

ON CULTIVATORS' REPRESENTATIVES

19. In all applications and permits other than those relating to sale of water by volume, the names of one or more persons shall be entered as *lambardar* who will be responsible for discharging the duties mentioned below:—

I.—Obtaining signatures to applications and certifying to the correctness of the same.

II.—Attending and giving assistance in measuring land irrigated, or proposed to be irrigated.

III.—Giving timely information to the Canal Officer or subordinate of any insufficiency in the supply of water and promptly reporting when the irrigation of the leased area, on any channel, is complete.

IV.—Supervising the distribution of the water supplied through an outlet amongst the persons entitled thereto and reporting any misuse of the same.

V.—Being present when complaints are investigated by a Canal Officer, or subordinate, and giving information required in connection with the same.

VI.—Receiving *parchas* from the Canal Officer and distributing the same amongst the persons named therein.

VII.—Reporting before the 15th of October all cases in which crops have been injured by deficiency or irregularity of supply in the *kharif* season so that these cases may be investigated before water-rates are demanded.

VIII.—Reporting to the Collector or to such officer as he may appoint mutations in holdings in the case of leases for a term of years

IX.—Assisting the Collector by pointing out the residences of the persons assessed and identifying them.

20. In the case of season leases the remuneration for performing the duties mentioned in the rule immediately preceding shall be two per cent. on the assessment (excluding fractions of a rupee) which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being omitted.

25. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or their own occupation, which may lie within the boundaries of the long lease, subject to a total limit of 3 per cent. of the area assessed. The Divisional Canal Officer may disallow this free irrigation and recover the rates, in whole or in part, from the *Jat raiyats* or *gumashtas* or other representative, if the assistance specified in rule 24 has not been efficiently rendered to the satisfaction of the local officers. The reasons for such disallowance are to be recorded in the list of cultivators' representatives maintained by the Subdivisional Canal Officer.

ON UNAUTHORISED IRRIGATION.

26. For the unauthorised use of canal water a rate of Rs. 5 per acre shall be charged; this rate may, however, be reduced at the discretion of the Divisional Canal Officer.

27. When it comes to the knowledge of the Subdivisional Canal Officer that canal water has been taken in an unauthorised manner, he shall hold a local investigation, and, if he considers that the land deriving benefit is liable to assessment, he shall serve a notice on the persons concerned, fixing a date for hearing objections. Any objections made shall be taken down and the whole record forwarded to the Divisional Canal Officer for disposal

28. The Divisional Canal Officer after hearing any objection that may be raised shall, if he is of opinion that the land should be assessed, fix the rates allowed under rule 26 and dispose of the case within one month of the receipt of the record from the Subdivisional Canal Officer. Water-rates shall not be charged where the unauthorised irrigation has occurred through the act, neglect or default of a Canal Officer or subordinate.

29. Applications for leases may be subsequently received from villages in which unauthorised irrigation has been detected, and these villages may be granted leases; in such cases the persons assessed under rule 26 shall also pay the water-rates due in respect of the lease subsequently granted, provided that the total of these two rates shall not exceed the maximum rate chargeable under rule 26. In such cases of double assessment the Divisional Canal Officer may remit, in whole or in part, the rates assessed under rule 26.

21 In the case of leases for a term of years other than those entered into jointly with contractors the remuneration to be paid to the *lambardar* for performing the duties mentioned in rule 19 shall be three per cent. yearly on the assessment of the year (excluding fractions of a rupee) which shall be paid by the Canal Officer. The amount paid shall be calculated in rupees and annas only, pies being excluded.

22 The *lambardar* will be appointed by the Subdivisional Officer in consultation with the applicants for the lease and must be a substantial person having a beneficial interest in part of the land to be irrigated. There is no objection to different *lambardars* being appointed to represent sections of the applicants or to two or more persons being jointly appointed as *lambardars* on behalf of the whole of the applicants. In case the Subdivisional Canal Officer cannot agree with the applicants in the appointment of *lambardar*, he shall nominate a *lambardar* for approval by the Divisional Canal Officer.

In those cases where an application is made by a contractor and cultivators jointly for a lease for a term of years the *lambardar* shall be nominated by the contractor.

23. The Divisional Canal Officer may, for reasons which appear to him to be sufficient and which must be recorded, remove a *lambardar* from his appointment, and in that case a new *lambardar* shall be appointed in the manner prescribed in the rule immediately preceding.

24. The fees to be paid to *lambardars* will only be disbursed if the duties specified have been satisfactorily performed. The Divisional Canal Officer may retrench the whole or any part of the fees payable for reasons to be recorded in writing. In calculating the fees payable, fractions of one anna will be excluded.

Intermediary agency.

25. Leases for a term of years will be entered into with associations of cultivators as specified in these rules; and also on the joint application of the cultivators and of some person hereinafter called the contractor who shall collect and pay to Government all sums due under the agreement on account of water-rates. The joint agreement shall be in the form given in Appendix VII to these rules. The contractor must have a beneficial interest in some part of the land included in the application extending for the full term of the lease.

ON PENALTIES AND CANCELLING OF LEASES.

30. Should it be proved, after due enquiry, that the supply of water given to any area leased for a term of years is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Canal Officer to direct that the lease shall be cancelled with effect from the 1st June next following.

31. The Superintending Canal Officer may, with the concurrence of the Collector, direct the Divisional Canal Officer to—

(I) Cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realising water-rates until all the arrears of water-rates due are paid up; and also, if especially so ordered, until half the amount due under new applications is paid in advance An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

(II) Cancel any lease for a term of years, if on the 1st June water-rates to the extent of half the demand for one year are in arrears.

(III) Cancel any lease the lands covered by which cannot be irrigated from the canal except by passing water over an unleased area.

MISCELLANEOUS.

32. No person shall, without the written permission of the Divisional or Subdivisional Canal Officer, pass or cause any animal or vehicle to pass along or across any of the works, channels, or banks of a canal or drainage work after he has been desired to desist therefrom, except by means of such bridges, fords, and ferries and their approaches as have been provided for the purpose.

33. Unless specially exempted by the Lieutenant-Governor from the operations of these rules, no officer employed on the canal shall have any interest in the distribution of water from it, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

26. Contractors are authorised to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included in the block at the rates fixed by the Lieutenant-Governor.

27. A contractor (or in case there be more than one, each contractor severally) shall use due diligence in the collection of the water-rates specified in the agreement from the cultivators who have applied for the water-supply. In the case of his failure after due diligence to collect, he shall within thirty days of the rates becoming due submit to the Collector a list showing the names of the defaulters with the sums due from each and the Collector shall thereupon proceed to realize the amount due from the said defaulters according to law.

28. A contractor (or in case there be more than one, each contractor severally) shall be responsible for all sums payable on the agreement except such sums as he may satisfy the Collector that he has been unable to collect after using due diligence and shall be entitled to a commission of 5 per cent. on all sums collected by himself.

29. In the case of a lease entered into under an application in the form given as Appendix I, a contractor may subsequently be appointed by the Collector with the written approval of the Divisional Canal Officer. Such contractor must for the whole term of the lease have a beneficial interest in some part of the land included in the application and must sign an application in the form given as Appendix VIII. The appointment shall not be made unless the lambardars and leading cultivators give their assent in writing thereto and the Collector is satisfied that the appointment of a contractor is acceptable to the signatories to the lease.

30. The contractor appointed under rules 25 and 29 may, but shall not necessarily be, lambardar. The lambardar will in all cases be appointed by the Canal Officer under the provision of rule 22 and shall be remunerated at the rate specified in rule 21 subject to the conditions mentioned in rule 24.

31. No steps shall be taken to prepare a joint application by cultivators and a contractor until the written assent of the Collector to the proposed contractor has been received,

nor shall the Collector take any steps towards the appointment of a contractor under rule 29 until the written assent of the Divisional Canal Officer has been received. The Collector may, before approving of a contractor under this rule, require him to give security for the due performance of the contract.

32. A contractor may resign his interest in the lease by giving notice to the Divisional Canal Officer three months at least before the 16th June next following, in which case his connection with the lease shall cease from that date and the Subdivisional Canal Officer shall proceed to appoint a lambardar under rule 22 and the Collector to realise water-rate due directly from the lessees.

The Divisional Canal Officer may, at the instance of the Collector, remove any contractor who fails to use due diligence in making collections. In such cases three months' notice at the least before the 16th June next following shall be given and the removal shall take effect from that date. The Collector may, under the conditions and procedure specified in rule 29, appoint a new contractor in place of a contractor who has resigned or who has been removed.

ON UNAUTHORISED IRRIGATION.

33. For the unauthorised use of canal water a rate of Rs. 5 per acre shall be charged; this rate may, however, be reduced at the discretion of the Divisional Canal Officer.

34. When it comes to the knowledge of the Subdivisional Canal Officer that canal water has been taken in an unauthorised manner, he shall hold a local investigation, and, if he considers that the land deriving benefit is liable to assessment, he shall serve a notice on the persons concerned, fixing a date for hearing objections. Any objections made shall be taken down and the whole record forwarded to the Divisional Canal Officer for disposal.

35. The Divisional Canal Officer after hearing any objection that may be raised shall if he is of opinion that the land should be assessed, fix the rates allowed under rule 33 and return the record to the Subdivisional Canal Officer who shall then complete the assessment.. Water-rates shall not be charged where the unauthorised irrigation has occurred through the act, neglect or default of a Canal Officer or subordinate. It is not an unauthorised use of water during the *kharif* season to receive or to lead water on to unleased lands which may have been supplied to lands under lease in excess of requirements.

36. Applications for leases may be subsequently received from villages in which unauthorised irigation has occurred, and these villages may be granted leases; in such cases the persons assessed under rule 33 shall also pay the water-rates due in respect of the lease subsequently granted, provided that the total of these two rates shall not exceed the maximum rate chargeable under rule 33. In such cases of double assessment the Divisional Canal Officer may remit, in whole or in part, the rates assessed under rule 33.

ON PENALTIES AND CANCELLING OF LEASES.

37. Should it be proved, after due enquiry, that the supply of water given to any area leased for a term of years is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Canal Officer to direct that the lease shall be cancelled with effect from the 1st June next following.

38. The Superintending Canal Officer may, with the concurrence of the Collector, direct the Divisional Canal Officer to—

(I) Cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realising water-rates until all the arrears of water-rates due are paid up; and also, if specially so ordered, until half the amount due under new applications is paid in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

(II) Cancel any lease for a term of years, if on the 1st June water-rates to the extent of half the demand for one year are in arrears.

(III) Cancel any lease the lands covered by which cannot be irrigated from the canal except by passing water over an unleased area.

MISCELLANEOUS.

39. No person shall, without the written permission of the Divisional or Subdivisional Canal Officer, pass or cause any animal or vehicle to pass along or across any of the works, channels, or banks of a canal or drainage work after he has been desired to desist therefrom, except by means of such bridges, fords, and ferries and their approaches as have been provided for the purpose. Any person who after due warning breaks this rule may be proceeded against under section 93, clause (9) of the Bengal Irrigation Act, III of 1876.

40. Unless specially exempted by the Lieutenant-Governor from the operations of these rules, no officer employed on the canal shall have any interest in the distribution of water from it, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

The Calcutta Gazette.

WEDNESDAY, JANUARY 22, 1908.

PART IA.

[*Reprinted from the "Gazette of India" of the 21st December 1907.*]

The following Resolution, issued by the Government of India in the Department of Commerce and Industry, is published for general information.

E. A. GAIT,
Chief Secy. to the Govt. of Bengal.

No. 10724-10740—246, dated Calcutta, the 18th December 1907.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

THE following Royal Warrant is published for general information :—

WHITEHALL, *October 17, 1907.*

The King has been pleased to issue a Warrant under His Majesty's Royal Sign Manual to the following effect :—

EDWARD, R. & I.

Edward the Seventh, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India, to all to whom these Presents shall come, Greeting !

Whereas We are desirous of distinguishing by some mark of Our Royal Favour the many heroic acts performed by Miners and Quarrymen and others who endanger their own lives in saving or endeavouring to save the lives of others from perils in Mines or Quarries within Our Dominions and in territories under Our Protection or Jurisdiction, We do by these presents for Us, Our Heirs, and Successors institute and create a new Medal to be awarded for such acts of gallantry.

Firstly.—It is ordained that the Medal shall be of two classes which shall be designated and styled "The Edward Medal of the First Class" and "The Edward Medal of the Second Class."

Secondly.—It is ordained that the Edward Medal of the First Class shall consist of a circular Medal of Silver with Our Effigy on the obverse, and on the reverse a design represen ing the rescue of a miner with the inscription "For courage."

Thirdly.—It is ordained that the Edward Medal of the Second Class shall consist of a circular Medal of Bronze of a similar design.

Fourthly.—It is ordained that the Medal shall only be awarded to those of Our Faithful Subjects and others who, in saving or endeavouring to save the lives of others from perils in Mines and Quarries within Our Dominions and in territories under Our Protection or Jurisdiction, have endangered their own lives, and that such award shall be made only on a recommendation to Us by Our Principal Secretary of State for the Home Department.

Fifthly.—It is ordained that the names of those upon whom We may be pleased to confer either of these Decorations shall be published in the *London Gazette*, and that a Register thereof shall be kept in the Office of Our Principal Secretary of State for the Home Department.

Sixthly.—It is ordained that each Medal shall be suspended from the left breast and the riband, of an inch and three-eighths in width, shall be dark blue with a narrow yellow stripe on either side: Provided that when the Medal is awarded to a woman it shall be worn on the left shoulder, suspended from a riband of the same width and colour, fashioned into a bow.

Seventhly.—It is ordained that any act of gallantry which is worthy of recognition by the award of the Edward Medal, but is performed by one upon whom the Decoration has already been conferred may, on a recommendation to Us by Our Principal Secretary of State for the Home Department, be recorded by a Bar attached to the riband by which the Medal is suspended; and for every such additional act an additional Bar may be added.

Eighthly.—In order to make such provision as shall effectually preserve pure these most honourable Decorations, it is ordained that if any person, on whom either of such Decorations is conferred, be guilty of any crime or disgraceful conduct which, in Our judgment, disqualifies him for the same, his name shall, by an especial Warrant under Our Royal Sign Manual, be forthwith erased from the Register of those upon whom the said Decoration shall have been conferred and his Medal shall be forfeited. And every person to whom the said Medal is given shall, before receiving the same, enter into an agreement to return the same if his name shall be so erased as aforesaid under this regulation. It is hereby further declared that We, Our Heirs and Successors, shall be the sole judges of the circumstances demanding such forfeiture. Moreover, We shall at all times have power to regrant a Medal to any person whose Medal may at any time have been forfeited.

Given at Our Court at *Saint James's*, the thirteenth day of *July*, one thousand nine hundred and seven, in the seventh year of Our Reign.

By His Majesty's Command,

H. J. GLADSTONE.

No. 5.—The following Order of His Majesty in Council, dated the 9th September 1907, is published for general information :—

AT THE COURT AT BUCKINGHAM PALACE.

THE 9TH DAY OF SEPTEMBER, 1907.

Present :

The King's Most Excellent Majesty—

Lord President	Sir Charles Hardinge
Lord Denman	Mr. Harcourt.

His Majesty, by virtue and in exercise of the powers in this behalf vested in Him by the Colonial Prisoners' Removal Act, 1884, is pleased by and with the advice of His Privy Council to make the following order as to the removal and return of prisoners and criminal lunatics under the said Act :—

I.—Every prisoner removed under the said Act from a British Possession to the United Kingdom for the purpose of undergoing the residue of a sentence involving confinement in a prison combined with hard labour, shall, in the United Kingdom, be dealt with as follows that is to say,

If the original period of his sentence did not exceed two years, in the same manner as if he had been sentenced in the United Kingdom to imprisonment with hard labour for the same period.

And if the original period of his sentence exceeded two years, in the same manner, as nearly as may be, as if he had been sentenced in the United Kingdom to penal servitude for the same period.

II. Every prisoner removed under the said Act from one British Possession to another British Possession for the purpose of undergoing the residue of a sentence shall in such last-mentioned British Possession be dealt with in the same manner as if he had there been

sentenced to such punishment authorized by the law thereof as in the opinion of the Secretary of State signing the Order of Removal shall most nearly correspond to the punishment to which he was sentenced in the first-mentioned British Possession, and for the same period.

III. If the prisoner or criminal lunatic is to be removed to the United Kingdom—

(1) A Secretary of State shall make out and sign the Order of Removal in duplicate and shall send one copy to the Governor of the Colony from which the prisoner is to be removed, and the Governor shall thereupon make out and sign in duplicate a Notification or Concurrence in the Order of Removal.

(2) One copy of the Order of Removal shall be retained in the Colony and the other copy shall be transmitted by a Secretary of State to the Home Office for record.

(3) One copy of the Notification of Concurrence shall be retained in the Colony and attached to the Order of Removal and the other shall be sent to a Secretary of State and shall by him be transmitted to the Home Office for record.

IV. If the prisoner or criminal lunatic is to be removed to a British Possession—

(1) A Secretary of State shall make out and sign the Order of Removal in triplicate and shall send one copy to the Governor of each Colony concerned, who shall thereupon make out and sign in triplicate a Notification of Concurrence in the Order of Removal.

(2) The Governor of the Colony from which the prisoner is to be removed shall retain the copy of the Order of Removal and one copy of the Notification of Concurrence which he shall attach to the Order of Removal, and shall send the second copy of the Notification to the Governor of the Colony to which the prisoner is to be removed, and the third copy of the Notification to a Secretary of State.

(3) The Governor of the Colony to which the prisoner is to be removed shall retain the copy of the Order of Removal and one copy of the Notification of Concurrence which he shall attach to the Order of Removal, and shall send the second copy of the Notification to the Governor of the Colony from which the prisoner is to be removed, and the third copy of the Notification to a Secretary of State.

Provided that the above procedure shall not apply to the removal of a prisoner or criminal lunatic from one British Possession to another in pursuance of an agreement made between such Possessions and sanctioned by Order in Council under the provisions of the Colonial Prisioners' Removal Act, 1869.

V.—A Removal Warrant duly made out and signed shall be transmitted with every prisoner or criminal lunatic who is removed. The Warrant shall be handed over with the prisoner or criminal lunatic to every person from time to time authorised to receive him in custody for the purpose of giving effect to the Order of Removal.

VI—The forms of the Schedule to this Order or forms to the like effect varied as circumstances may require may be used under the said Act.

VII. This Order shall commence and come into operation on the first day of November 1907.

VIII. The Order in Council of the thirteenth day of December one thousand eight hundred and nine made under the Colonial Prisoners' Removal Act, 1884, shall continue in force until the commencement of this Order, and shall thereupon be revoked without prejudice to anything lawfully done thereunder.

IX. This Order may be cited as "The Colonial Presioners' Removal Order in Council 1907."

In the matter of the Dum Duma Jhar Tea Co., "Ld"

AT an Extraordinary General Meeting of the Shareholders of the abovenamed Company held at its Registered Office, Darjeeling, on 11th October 1906, the following extraordinary resolution was duly passed:—

That it having been proved to the satisfaction of the Company that the Company cannot by reason of its liabilities continue its business, and it having been arranged for the transfer of the assets of the Company to Messrs. Jetmull and Bhojraj upon the terms mentioned in the Resolution of the Company, dated the 29th March 1906, it is advisable to wind up the Company voluntarily, carrying into effect the terms of the said resolution, under the provisions of the Indian Companies Act, 1882, section 173 (e), and that accordingly the Company be so wound up; and at the same time Babus S P. Paul and S. K. Bose of Darjeeling, Shareholders of the Company, were appointed Liquidators with certain remunerations for the purposes of such winding up.

RAM CHANDRA SUKHANI, Chairman.

Dated the 9th November 1906.

N.B.—Through correspondence held by the Liquidators with the Publisher of the *Calcutta Gazette* in November 1906 they had the impression that the above notice was published in one issue of the *Gazette* in November. But it appears that this was not the case, though it was regularly published

in three issues of the *Darjeeling Visitor*. The terms of Notice to creditors, Dam Duma Joar Tea Co., "Ld.," published in the *Calcutta Gazette*, dated 12th December 1906 and 19th December 1906, and in the *Darjeeling Visitor*, dated 13th November 1906, 20th November 1906, and 27th November 1906, are hereby extended to them up to 31st January 1908

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

NOTICES TO MARINERS.

THE following Notices are published for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 17th January 1908.*

AUSTRALIA—NEW SOUTH WALES.

Newcastle harbour—Beacon light in entrance.

No. 23 (first publication).—The British Admiralty has given notice (No. 1863 of 1907) that a *white fixed* unwatched light, elevated 22 feet about high water, has been established on a beacon erected in a depth of 2¼ fathoms on the southern side of the entrance to Newcastle harbour; it is visible from the bearing of S. 40° W., through south and east, to N. 57° E., being obscured in other directions. This light has been placed on the chart at a distance of 180 yards N. 77° W. from Nobby head light.

Approximate position, lat. 32° 55¼′ S., long. 151° 48′ E.

(*Variation 10° Easterly in 1907.*)

This Notice affects the following Admiralty Chart:—Newcastle harbour, No. 2119, Also List of Lights, Part VI, 1907, page 261; and Australia Directory, vol. II, 1907, page 82.

KOREA, EAST COAST—YUNG HING BAY.

On Shan Tin (Gensan bay)—Shoals in.

No. 24 (first publication).—The British Admiralty has given Notice (No. 1871 of 1907) that the undermentioned shoals exist in On Shan Tin (Gensan bay):—

(*a*) A reef, about 6 yards in extent, with a depth of 11 feet over it, and from 13 to 15 feet around, situated with the lighthouse on the mole head at Gensan, bearing S. 8° E., distant 2$\frac{5}{10}$ cables, and Chotoku to lighthouse S. 71° E.

(*b*) A reef, with a depth of 3 fathoms over it, situated with the lighthouse on the mole head bearing about S. 5° W., distant 4$\frac{1}{10}$ cables, and Chotoku to lighthouse about S 51° E.

Approximate position, Chotoku to lat. 39° 11′ N, long. 127° 26½′ E.

(*Variation 6° Westerly in 1907.*)

This Notice affects the following Admiralty Charts:—Port Lazaref and Yung Hing bay, with plan of On Shan Tin, No. 3037, cape Duroch to Linden point, No. 1316: Also Sailing Directions for Japan, &c., 1904, page 136; and Supplement, 1906.

EASTERN ARCHIPELAGO—CELEBES, EAST COAST.

Kema—Coast reef northward of, extent.

No. 25 (first publication).—The British Admiralty has given notice (No. 1872 of 1907) that the coast reef north-eastward of Kema, Celebes island, extends to a distance of about 6½ cables from the shore, instead of only 2¾ cables as is at present shown on the chart.

Approximate position, Kema, lat. 1° 22′ N., long. 125° 4′ E.

This Notice affects the following Admiralty Chart:—North part of Celebes island on No. 930: Also Eastern Archipelago, Part II, 1904, page 383.

Simara island—Reef south-eastward of.

No. 26 (first publication).—The British Admiralty has given Notice (No. 1873 of 1907) that a reef, with a least known depth of 2½ fathoms over it, is situated about 1½ miles to the south-eastward of Simara island.

The reef, which is about 50 yards in extent, consists of coral boulders and is surrounded by deep water.

Approximate position, lat. 12° 47½′ N., long. 122° 6′ E.

(*Variation 1° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Philippine islands between St Bernardino and Mindoro straits, No. 2577; Molucca passage to Manila, No. 943: Also Eastern Archipelago, Part I, 1902, page 256; and Supplement, 1906.

PACIFIC OCEAN—PHILIPPINE ISLANDS—LUZON, SOUTH-EAST COAST.

Rapurapu strait—Shoal in southern entrance.

No. 27 (first publication).—The British Admiralty has given notice (No. 1875 of 1907) that a small coral shoal, with a depth of 22 feet over it, exists in the southern entrance to Rapurapu strait, at a distance of half a mile to the northward of Babayon point, Rapurapu island.

The shoal is not marked by any discolouration of the water.

Approximate position, lat. 13° 13′ N., long. 124° 3½′ E.

(*Variation Nil in 1907.*)

This Notice affects the following Admiralty Chart:—South part of Luzon island, No. 3368; Also Eastern Archipelago, Part I, 1902, page 382; and Supplement 1906.

EASTERN ARCHIPELAGO—CELEBES, SOUTH COAST.

Salayar strait, western approach—Non-existence of reported danger.

No. 28 (first publication).—With reference to Notice to Mariners (No. 343, dated the 20th July 1907, issued by this office, the British Admiralty has given further Notice (No. 1877 of 1907) that a careful search by H.N.M.S. *Borneo* having failed to find any indication of shoal water, in the vicinity of the discoloured water and surf, reported by H.N.M.S. *Siboga*, to exist in the western approach to Salayar strait, Celebes island, this vigia has been expunged from the chart.

Approximate position, lat. 5° 44′ S., long 119° 58½′ E.

This Notice affects the following Admiralty Charts:—Tomori gulf to Salayar strait, No. 3616; Makassar strait, No. 2637; Eastern Archipelago, No. 941b: Also Eastern Archipelago, Part II, 1904, page 348; and Supplement 1906.

JAPAN—KIUSIU, WEST COAST—YATSUSHIRO SEA.

Koji sima—Rock southward of.

No. 29 (first publication).—The British Admiralty has given notice (No. 1880 of 1907) that a rock, which covers at high water, exists to the southward of Koji sima, in a position from which the southern point of that island bears East, distant three-quarters of a cable and the western point of the island N. 37° W.

The ledge connecting this rock to the shore dries at low water.

Approximate position, lat. 32° 11½′ N., long. 130° 21¼′ E.

(Variation 4° Westerly in 1907.)

This Notice affects the following Admiralty Chart:—Amakusa islands and Yatsushiro sea, No. 836: Also Sailing Directions for Japan, &c., 1904, page 534.

JAPAN—YEZO ISLAND, NORTH-EAST COAST.

Yesashi Anchorage—Reef southward of

No. 30 (first publication).—The British Admiralty has given notice (No. 1881 of 1907) that the Master of the S.S. *Yoneyama Maru* reports that his vessel struck on a reef off Tokushibetsu river, situated southward of Yesashi anchorage.

The reef has apparently a depth of about 7 feet over it at low water, and is situated in approximately lat. 44° 51′ 35″ N., long. 142° 41′ 17″ E.

It has been placed on the chart in the above position and marked P.D.

This Notice affects the following Admiralty Chart:—Yezo island, No. 453: Also Sailing Directions for Japan, &c., 1904, page 750.

NEW ZEALAND—NORTH ISLAND.

Port Nicholson—Directions for passing Falcon shoals.

No. 17 (second publication).—The British Admiralty has given notice (No. 1839 of 1907) that the following regulations are to be observed by all vessels passing through the channels on either side of Falcon shoals, in the entrance to port Nicholson:—

(*a*) Vessels drawing under 23 feet must pass to the eastward of Falcon shoals light-buoy as defined by the sector of white light shown from Somes island lighthouse.

(*b*) Vessels drawing over 23 feet must pass to the westward of Falcon shoals light-buoy.

All vessels signalling by whistle their course, should be answered by vessels approaching from the opposite direction.

Approximate position, Falcon shoals light-buoy, lat. 41° 18½′ S., long. 174° 50½′ E.

This Notice affects the following Admiralty Chart:—Port Nicholson, No. 1423: Also, New Zealand Pilot, 1901, page 170; and Supplement, 1906.

NEW ZEALAND—NORTH ISLAND.

Wellington—Time Signal re-established.

No. 18 (second publication).—With reference to Notice to Mariners No. 371, dated the 6th October 1906, issued by this office, the British Admiralty has given further notice (No. 1840 of 1907) that a new Observatory has been constructed on Green or Battery hill, at Wellington.

Position of new Observatory, lat. 41° 17′ 4″ S., long. 174° 46′ 7″ E.

This position shows the New Observatory is situated at a distance of $3\frac{4}{10}$ cables S. 13 W. from the old one.

The time ball is now dropped as described in the Admiralty List of Time Signals, 1904, No. 60.

(Variation 16° Easterly in 1907.)

This Notice affects the following Admiralty Charts:—Port Nicholson, No. 1423: Also, New Zealand Pilot, 1901, page 172; and List of Time Signals, 1904, page 32.

EASTERN ARCHIPELAGO—Celebes, west coast—Makassar Strait.

Dangola (Dongala) Road—Lights established.

No. 19 (second publication).—The British Admiralty has given notice (No. 1844 of 1907) that two *red fixed* lights have been established at Dangola, one elevated 39 feet above high water on the village flagstaff, and the other on the beacon situated on the northern extremity of the reef $1\frac{5}{10}$ cables N. 6° E. from the flagstaff. It is assumed that these lights replace the light formerly exhibited from the flagstaff.

Approximate position, flagstaff, lat. 0° 39¾′ S., long. 119° 44¾′ E.

The name of this road has been altered from Dangola to Dongala.

(Variation 2° Easterly in 1907.)

This Notice affects the following Admiralty Charts:—Plan of Dangola road on No. 3209; strait of Makassar, No. 2636: Also, List of Lights, Part VI, 1907, No. 554, page 103; Eastern Archipelago, Part II, 1904, page 321; and Supplement 1906.

AUSTRALIA—Victoria—Port Phillip.

Geelong harbour approach—Beacon replaced by buoy.

No. 20 (second publication).—With reference to Notice to Mariners No. 109, dated the 9th March 1907, issued by this office, the British Admiralty has given further notice (No. 1854 of 1907) that point Wilson beacon, which has been removed, and which was formerly situated at a distance of 1¼ miles S. 5° E., from point Wilson in the approach to Geelong harbour, will be replaced by a red conical buoy surmounted by staff and ball.

Approximate position, point Wilson, lat. 38° 5¾′ S., long. 144° 30½′ E.

(Variation 5° Easterly in 1907.)

This Notice affects the following Admiralty Charts:—Geelong harbour, No. 2731; Port Phillip, No. 1171b: Also, Australia Directory, vol. I., 1897, page 469.

INDIA, WEST—Sind Coast.

Soundings off the Mouths of the river Indus.

No 21 (second publication).—The following Notice to Mariners (No. 139 of 1907) issued by the Bombay Government is republished:—

The Officer in charge, Marine Survey of India, makes the following report regarding the recent survey of the soundings off the Mouths of the River Indus.

The depth of water shows a slight increase in certain small areas, never exceeding one fathom, and a slight decrease in others. On the whole the existing charts may be considered to be correct.

The present position of Hajamrao Beacon is in—

Latitude	...	...	...	24° 03′ 35″ N.
Longitude	...	...	...	67° 22′ 20″ E.

And of the wreck of the 'Nithsdale' in—

Latitude	...	...	...	24° 38′ 55″ N.
Longitude	...	...	...	67° 05′ 15″ E.

This Notice affects the following Admiralty Charts:—Karachi to Vengurla, No. 826; Coasts of Sind and Kutch, No. 42; Kediwari Mouth to Nirani Creek, No. 118; and Cape Monze to Kediwari Mouth, No. 41; Also, West Coast of Hindustan Pilot, 1898, pages 298 and 300.

BAY OF BENGAL—Burma coast.

Naaf river buoys relaid.

No. 22 (second publication).—With reference to Notice to Mariners No. 270, dated the 7th June 1907, issued by this office, the Principal Port Officer, Burma, has given further notice that the Naaf river buoys were relaid on the 29th December 1907.

INDIA, WEST—Bombay coast—North Kanara.

Caution—Danger to Navigation near Karwar.

No. 1 (third publication)—The Bombay Government has given notice (No. 136 of 1907) that 19 teak logs on a raft in transport from Gangawali to Kodibag on 3rd instant were lost at sea off Beitkoe (Bhatkul) near Karwar Mariners are hereby warned.

AUSTRALIA, NORTH COAST—Torres strait.

Glamis Castle shoal—Position of—.

No. 2 (third publication).—The British Admiralty has given notice (No. 1766 of 1907) that careful but unsuccessful search has been made for Glamis Castle shoal in Torres strait in approximately lat 10° 18′ S., long. 141° 1′ E., without finding or seeing any indication of danger; but as it is considered possible that this shoal may exist in approximately lat. 10° 13′ S., long. 141° 1′ E, it has been decided to retain it with P.D. marked against it on the charts in this latter position.

This Notice affects the following Admiralty Charts:—Western approach to Torres strait No. 447; gulf of Carpentaria, No. 1043; Australia, No. 2759a: Also, Australia Directories, vol. II, 1907, page 579; vol. III, 1905, page 40.

AUSTRALIA, NORTH COAST—Torres strait.

Prince of Wales channel—Non-existence of rock.

No. 3 (third publication)—The British Admiralty has given notice (No. 1767 of 1907) that a careful but unsuccessful search has been made for the rock reported in 1891 about 5 miles N. 79° W. from Quoin point, Goode island, and marked E.D. on the charts in Prince of Wales channel in approximately lat. 10° 32½′ S., long. 142° 4½′ E, without finding any indication of danger.

As this rock was originally reported as being seen only, and no soundings taken over it, it is considered that it does not exist, and it has therefore been erased from the charts.

(Variation 4° Easterly in 1907.)

This Notice affects the following Admiralty Charts:—Albany pass to Booby island, No. 437; Torres strait, No. 2375: cape Grenville to Booby island, No. 2354; western approach to Torres strait, No. 447: Also, Australia Directory, vol. II, 1907, page 495.

AUSTRALIA, NORTH COAST—Torres strait.

Unsuccessful search for shoal in the western entrance.

No. 4 (third publication).—The British Admiralty has given Notice (No. 1768 of 1907) that careful but unsuccessful search has been made for the shoal reported in the western entrance to Torres strait in approximately lat. 10° 37½′ S., long. 141° 34½′ E., and marked P. D. on the charts.

As this shoal has previously been searched for by a surveying vessel without finding any indication of danger, it has been decided to place E.D. against it on the charts with the note, "Unsuccessfully searched for by *Paluma*, 1893, *Fantome*, 1907."

This Notice affects the following Admiralty Charts:—Cape Grenville to Booby Island, No. 2354; western approach to Torres strait, No. 447; gulf of Carpentaria, No. 1043: Also, Australia Directories, vol. II, 1907, page 578; vol. III, 1905, page 39.

AUSTRALIA, SOUTH—Gulf of St. Vincent.

Port Adelaide—Movements of Dredger.

No. 5 (third publication).—With reference to Notice to Mariners No. 72, dated 8th February 1907, issued by this office, the British Admiralty has given further notice (No. 1773 of 1907) that the dredger when at work in the vicinity of the second line of leading lights in the entrance to port Adelaide river will on inward and outward bound vessels making the signals described in Notice to Mariners No. 75 of 1907 be moved to the south side of the channel. A red ball by day or a *red* light under a *white* light by night will be always shown from the dredger.

Vessels must pass to the north-westward of the dredger.

The signals abovementioned are as follows:—

(*a*) Inward-bound vessels when abreast of the buoy showing an occulting light at the entrance to the river must give blasts of thirty seconds' duration every minute with a whistle or siren until answered by the dredgers in a similar manner.

(*b*) Outward-bound vessels when abreast of No. 3 beacon must give the same signal as above until it is repeated by the dredgers.

Approximate position, No. 3 beacon, lat. 34° 46¾′ N., long. 138° 29′ E.

This Notice affects the following Admiralty Publication:—Australia, vol. I, 1897, page 321.

AUSTRALIA, SOUTH-EAST—Victoria.

Port Phillip Entrance, Coles Channel—Position of buoy altered.

No. 6 (third publication)—The British Admiralty has given notice (No. 1781 of 1907) that in consequence of the extension to the westward of West sand on the eastern side of Coles channel, Port Phillip entrance, the red conical buoy formerly marking the southern point of West sand has been moved about 1$\frac{1}{10}$ cables N. 3° W. from its former position; it is consequently now in a position situated at a distance of 13¼ cables N. 27° E. from Swan island beacon.

Approximate position on chart No. 309, Swan island beacon, lat. 38° 15¼′ S., long. 144° 41¾′ E.

(*Variation 8° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Port Phillip, West channel, No. 301; port Phillip entrance, Nos. 1171a, 2747: Also, Australia Directory, vol. I, 1897, page 451.

INDIA, WEST—Kathiawar coast.

Porbandar—Non-existence of wreck in approach.

No. 7 (third publication).—The British Admiralty has given notice (No. 1787 of 1907) that the wreck in the approach to Porbandar has not been seen or heard of for nearly 11 years, and is not now considered to exist. It has, therefore, been erased from the charts.

Approximate position, lat. 21° 29½′ N., long. 69° 30½′ E.

This Notice affects the following Admiralty Charts:—Dwarka point to Dice head, No. 1420; gulf of Kutch to Viziadrug, No. 2736; Karachi to Vengurla, No. 826: Also, West Coast of Hindustan Pilot, 1898, page 265.

INDIAN OCEAN—Comoro Islands, Mayotta.

Bandeli Passage—Depths in—.

No. 8 (third publication)—With reference to Notice to Mariners No. 140, dated 23rd April 1906, issued by this office, the British Admiralty has given further Notice (No. 1789 of 1907) that further examination shows that the depths in Bandeli passage, Mayotta island, are less than those formerly found, and that at present there is a depth of 17 feet in the entrance not far from the leading line.

Vessels of any draught should only attempt the passage at about high water.

Approximate position, lat. 12° 53′ S., long. 45° 17′ E.

This Notice affects the following Admiralty Chart:—Mayotta island, No. 2741: Also Africa Pilot, part III, 1905, page 561.

CHINA SEA.

Hong Kong—Storm signals altered.

No. 9 (third publication).—The British Admiralty has given notice (No. 1792 of 1907) that the storm signals at that port have been altered as follows. They are made from a mas

in front of the Water Police station at Kaulung point, but do not necessarily imply that bad weather is expected at Hong Kong :—

	Signal.	Signification.
1.	A cone point upwards ...	Indicates a typhoon to the north of Hong Kong.
2.	A cone point upwards and drum below.	Indicates a typhoon to the north-east of Hong Kong.
3.	A drum	Indicates a typhoon to the east of Hong Kong.
4.	A cone point downwards and drum below.	Indicates a typhoon to the south-east of Hong Kong.
5.	A cone point downwards ...	Indicates a typhoon to the south of Hong Kong.
6.	A cone point downwards and ball below.	Indicates a typhoon to the south-west of Hong Kong.
7.	A ball	Indicates a typhoon to the west of Hong Kong.
8.	A cone point upwards and ball below.	Indicates a typhoon to the north-west of Hong Kong.

Red signals indicate that the centre is believed to be more than 300 miles away from the Colony.

Black signals indicate that the centre is believed to be less than 300 miles away from the Colony.

The above signals will, as heretofore, be hoisted only when typhoons exist in such positions or are moving in such directions that information regarding them is considered to be of importance to the Colony or to shipping leaving the harbour.

These signals are repeated at the Harbour Office, H.M.S. *Tamar*, Green island signal mast, and the flagstaff on the premises of the Hong Kong and Kaulung Wharf and Godown Company at Kaulung.

Urgent Signal.

In addition to the above, when it is expected that the wind may increase to full typhoon force at any moment, the following urgent signal will be made at the Wate Police Station, and repeated at the Harbour Office :—

Three explosive bombs, at intervals of ten seconds.

A black cross will be hoisted at the same time, superior to the other shapes.

Night Signals.

The following night signals will be exhibited from the flagstaff on the roof of the Water Police Station at Kaulung, the Harbour Office flagstaff, and H.M.S. *Tamar* :—

I.—Three lights vertical, *green, green, green.* Indicates that a typhoon is believed to be situated more than 300 miles from the Colony.

II.—Three lights vertical, *green, red green.* Indicates that a typhoon is believed to be situated less than 300 miles from the Colony.

III.—Three lights vertical, *red, green, red.* Indicates that the wind may be expected to increase to full typhoon force at any moment.

No. III signal will be accompanied by the explosive bombs, as above, in the event of the information conveyed by this signal being first published by night.

The above night signals will be substituted for the day signals at sunset, and will, when necessary, be altered during the night.

Supplementary Warnings.

For the benefit of native vessels and passing ocean vessels, a cone will be exhibited at each of the following stations during the time that any of the above day signals are hoisted in the harbour :—

Gap rock.	Cape Collinson.	Sai Kung.
Waglan.	Aberdeen.	Sha Tau Kok.
Stanley.	Sau Ki Wan.	Tai Po.

This will indicate that there is a depression somewhere in the China Sea, and that a storm warning is hoisted in the harbour.

Further details can always be given to ocean vessels, on demand, by signal, from the lighthouses.

Approximate position, Police flagstaff, lat. 22° 18′ N., long. 114° 10′ E.

This Notice affects China Sea Directory, vol. III, 1904, page 76.

CHINA, SOUTH COAST—Hong Hai Bay.

Sam Chau Inlet—Alteration in depths.

No. 10 (third publication).—With reference to Notice to Mariners No. 275, dated 3rd August 1906, issued by this office, the British Admiralty has given further notice (No. 1803 of 1907) that information has been received respecting the depths in the channels into Sam chau inlet as follows:—

a. The channel between Hsi hu (Entrance) island and Wai Chia (Outer bank) has narrowed considerably by the shifting to the southward and westward of the southern end of Outer bank: there are now depths of from 21 to 26 feet in it.

b. The channel westward of Nei chia (Inner bank) has now a least depth, off Tu ti chueh, of 9 feet in it, and the channel generally is shoaler than shown on the charts.

c. The channel eastward of Nei chia between Hsiying tu and Tung ching chueh has deepened, and there are depths of from 40 to 50 feet to the southward of Tung ching chueh. At the southern junction of channels eastward and westward of Nei chia there are depths of from 21 to 27 feet at low water.

The Outer and Inner banks break heavily at low water even in very light south-easterly winds.

Approximate position, Entrance islands, lat. 22° 41′ N., long. 114° 59′ E

This Notice affects the following Admiralty Chart:—Sam chu inlet, No. 3459: Also, China Sea Directory, vol. III, 1904, page 137; and Supplement, 1907.

PACIFIC OCEAN—Philippine Islands—Panay, east coast.

Turia Rock—Buoy altered.

No. 11 (third publication).—The British Admiralty has given Notice (No. 1804 of 1907) that the conical buoy marking Turia rock in the approach to Ilo Ilo having disappeared, it has been replaced by a can buoy painted in red and black horizontal bands moored in a depth of 27 feet, at a distance of 4½ miles S. 70° E. from Calabazas lighthouse.

Approximate position, lat. 11° 3′ N., long 123° 4′ E.

Vessels are recommended to give the above buoy a berth of half a mile in passing.

Note.—This buoy appears to be on the western side of Turia rock. Vessels therefore should pass to the westward of it. The track, which is shown on the Admiralty charts as passing to the eastward of it, has been erased in consequence.

(Variation 1° Easterly in 1907.)

This Notice affects the following Admiralty Chart:—Sulu or Mindoro sea, No. 2578: Also, Eastern Archipelago, part I, 1902, page 266.

PACIFIC OCEAN, SOUTH—Society islands—Tahiti island.

Papiete—Shoals in Pass.

No. 12 (third publication).—The British Admiralty has given notice (No. 1805 of 1907) that two shoal heads, one on either side of the leading line, with depths of 3¾ fathoms over them, have been found in Papiete pass. These shoals have been placed on the chart on either side of the leading line at a distance of 4 cables N. 13° W. from the Obelisk on Spaotoi reef.

Approximate position lat. 17° 31½′ S., long. 149° 34½′ W.

(Variation 9° Easterly in 1907.)

This Notice affects the following Admiralty Chart:—Papiete pass to Papeuu pass No. 1158: Also, Pacific Islands, vol. III, 1900, page 59; and Supplement, 1903.

PACIFIC OCEAN, SOUTH—TUAMOTO ARCHIPELAGO—HIKUERU OR MELVILLE ISLAND.

Tupapati—Occasional light.

No. 13 (third publication).—The British Admiralty has given notice (No. 1806 of 1907) that a *white fixed* light elevated 42 feet above high water, and visible in clear weather from a distance of 7 miles, has been established on a mast, 39 feet high, erected at the landing place of the village of Tupapati, Hikueru island.

Approximate position, lat. 17° 35′ S., long. 142° 42′ W.

This light is only exhibited when a vessel is in sight.

As the exact position of this light is not given, the name "Tupapati, light shown when ship is sighted," has been placed on the chart against Hikueru island.

This Notice affects the following Admiralty Chart :—Tuamotu, &c., No. 767: Also, List of Lights, Part VII, 1907, page 117; and Pacific Islands, vol. III., 1900, page 124.

BAY OF BENGAL—ORISSA COAST.

Dhumra River—"E" Buoy replaced.

No. 14 (third publication).—With reference to Notice to Mariners No. 514 of 7th December 1907, issued by this office, the Port Officer, Cuttack and Balasore Ports, has given further notice, dated 31st December 1907, that the "E" Buoy has been replaced in position in 28 feet reduced, light house structure bears S. 53° East, magnetic, distance 6,200 feet.

Crossing *South* Channel Bar.

Course in with "E" buoy bearing W. S. W. magnetic, gives 11 feet reduced on bar:—

Water on Bars.	Reduced.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN BENGAL (EXCEPT CALCUTTA) DURING THE YEAR 1906-07.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Calcutta, the 18th January 1908.

RESOLUTION No. 122M.

Resolution on the Reports from the Commissioners of Divisions on the working of Municipalities in Bengal (except Calcutta) during the year 1906-07.

THE number of Municipalities in the Province during the year under review was 128, as in the preceding year.

2. *Collections.*—The percentage of total collections on the current demand rose from 96·46 to 97·1 at the close of the year, the outstanding demands being only 4·9 per cent. of the total current demand. There was a marked improvement in this respect in the Chota Nagpur and Patna Divisions, where the percentage of collections on current demand rose from 95·9 to 100·2 and 99·9, respectively. Twenty-four Municipalities, as compared with 13 in the previous year, collected cent. per cent. or more of their current demand. The best results were obtained in the Municipalities of Ulubaria, Arrah, Chaibassa and Hajipur. In the 10 towns Arambagh, Titagarh, Garulia, Jagdispur, Lalganj, Sitamarhi, Roserha, Kurseong, Deoghar and Daltonganj, there was nothing outstanding at the close of the year. The percentage of total remissions on current demand also fell from 4·27 to 3·5, the highest

percentage being shown in the Bhagalpur, and the lowest in the Orissa Division. The total outstanding balance was Rs. 1,62,910, as compared with Rs. 1,78,944 in 1905-06. The Lieutenant-Governor notices with much pleasure the general improvement which the above figures indicate.

3. *Number of Rate-payers.*—The total number of rate-payers rose by 6,493, the bulk of the increase being due to the extension of the area of the Garden Reach Municipality.

4. *Results of elections held during the year.*—General elections of Commissioners were held in 52 Municipalities, which were successful in all cases, except in one ward each in the South Suburban and Baruipur Municipalities in the Presidency Division. In these cases Commissioners were appointed by Government under section 16 of the Act. The majority of the elections were contested, and the percentage of attendance of persons entitled to vote varied between 91·7 in Ward No. IV of the Jainagar Municipality in the Presidency Division and 1·5 in Ward B of the Monghyr Municipality. On the whole, there was no indication of a decline of public interest in Municipal affairs.

5. *Attendance at Meetings.*—The total number of meetings held was 2,077, of which 146 were adjourned, against 2,138 meetings in 1905-06, of which 177 were adjourned. The largest number of meetings was held by the Municipalities of Cossipore-Chitpur (43) and Kalna (39). Twenty municipalities failed to hold one meeting a month on the average, and at Baranagar only seven meetings were held. The average percentage of attendance of Commissioners was 55·71, against 53·55; while in 89 Municipalities, as against 78 in 1905-06, an average of more than one-half of the total number of Commissioners attended at each meeting. The highest percentage of attendance was obtained at Buxar (88·8), Baidyabati (85·6), Bihar (83·7), and in the South Suburban Municipality (80·0). The attendance was bad at Patna (38·7), Khulna (38·2), Jangipur (38·8), Giridih (28·6), Chatra (28·5) and Maheshpur (7·8). The attention of the Divisional Commissioners is directed to these results.

6. *Assessment and Taxation.*—The rate on holdings is levied in 48 Municipalities, and in certain portions of the Bhadreswar, South Dum-Dum, Garulia, Bihar, Bettiah, Darbhanga and Deoghar Municipalities. In last year's Resolution it was observed that the change from the tax on persons to a rate on holdings seemed desirable at Arrah and Darbhanga. The Commissioner of the Patna Division reports that the attention of the Municipal Commissioners of Arrah was drawn to the matter, and that they have resolved to take advantage of the proposed revision of the personal tax during the current year to ascertain carefully the valuation of holdings with a view to estimating the financial effect of the change. Famine operations absorbed the attention of the local authorities at Darbhanga, and the question has not yet been considered in that town. The rate on holdings was levied at less than the maximum rate allowed by law in 13 towns. Of the special rates, the latrine-rate was levied in 91 towns, the water-rate in 13 towns which are provided with a supply of filtered water, and the lighting-rate in the towns of Howrah, Cossipore-Chitpur, Maniktala and Darjeeling only.

7. The average incidence of Municipal taxation for the whole Province was Re. 1-5-11, showing an increase of 10 pies per head over that of the previous year. The incidence varied between Rs. 8-15-11 per head in Darjeeling and As. 4-6 in Debhatta in the district of Khulna.

8. *Revision of assessment.*—Assessments were revised during the year generally or partially in 50 Municipalities. Among those towns in which a general revision took place, substantial increases were obtained in the following:—

Name of Municipality.	Increase of revenue.
	Rs.
Bhagalpur	12,607
Berhampore	8,322
Bhatpara	6,008
Monghyr	5,425
Budge-Budge	4,880
Bhadreswar	3,892
Tollyganj	3,556
South Suburban	3,248
Gaya	3,000
Patna	2,985

9. *Fresh imposts levied during the year.*—A lighting-rate was for the first time imposed in the Municipalities of Cossipore-Chitpur and Maniktala. The Hackney Carriage Act was extended to the towns of Budge-Budge and Satkhira and to the area recently added to the Garden Reach Municipality. Part IX of the Act was extended to the towns of Barh and Siwan and to the remaining portion of the Tollyganj Municipality. Fees under section 261 for licenses granted for special trades were introduced in the Municipalities of Khulna and Jajpur, and, in the case of brick-kilns only, at Arambagh. At Vishnupur fees for licenses for pig-styes were levied under section 265 of the Act.

10. *Income and Expenditure.*—The total receipts of the Municipalities, including the opening balances, amounted to Rs. 61,91,760, against Rs. 57,25,680 in the preceding year. The increase occurred under the following heads:—Taxation (Rs. 1,38,000), Grants Rs. (46,000), Deposits Rs. (1,24,000) and Opening Balance Rs. (1,71,000). The total expenditure was Rs. 51,41,558, against Rs. 47,83,368 in 1905-06. The more important variations are explained in the paragraphs relating to expenditure below.

11. *Closing balances of Municipalities.*—The aggregate closing balances amounted to Rs. 10,50,202, against Rs. 9,42,312 in the previous year. The inclusion of unspent balances of loans or grants from Government accounts for this increase in most cases, but the large balances in Titagarh, Maniktala, Bhagalpur, Patna, Ranchi and Bhatpara might probably have been considerably reduced. A sufficient working balance was generally maintained, but in Baduria it fell to Rs. 46 only.

12. *Income (Rs. 52,62,176).*—Excluding the receipts under "Extra-ordinary and Debt," the total revenue receipts amounted to Rs. 42,46,298, against Rs 40,31,221 in the preceding year. The bulk of the increase was contributed by the Chota Nagpur Division.

13. *Octroi Tax (Rs. 29,276).*—The net receipts from this tax, after deducting refunds, amounted to Rs. 29,276, against Rs. 27,901 in 1905-06, showing an increase of Rs. 1,375. The tax is levied only in the Sambalpur Municipality.

14. *Tax on Houses and Lands (Rs. 12,39,399).*—The total revenue showed an increase of Rs. 66,604 as compared with the previous year. The increase was shared by all the Divisions, the improvement being most marked in the Municipalities of Gaya (Rs 6,950), Bhagalpur (Rs. 4,955), Monghyr (Rs. 4,112), Cossipore-Chitpur (Rs. 3,273) and Muzaffarpur (Rs. 2,507). The increase in Gaya resulted from the realisation of arrears of tax due on the railway premises and better collection of the current tax. In Muzaffarpur it was due to the realisation of arrears of the previous year. There was a marked decrease in Burdwan, which is attributed to the non-realization of taxes on account of objections to the revised assessment.

15. *Tax on Animals and Vehicles (Rs. 2,91,497).*—The receipts show an increase of Rs. 7,424 over those of the preceding year. The increase in Kishanganj (Rs. 2,399) is attributed to the larger number of carts that ply within the Municipality on account of the extensive jute cultivation in the locality. The tax was levied for the first time in the Katihar Municipality, and brought in an income of Rs. 684. There were also increases in the Presidency, Patna and Burdwan Divisions, due in some cases to closer supervision, and in others to the registration of a larger number of carts which found employment owing, it is said, to the heavy exports of rice.

16. *Tolls on Roads and Ferries (Rs. 1,10,894).*—The receipts under this head are made up of tolls on roads in Sambalpur and the income from ferries in 31 Municipalities. The receipts from ferries rose from Rs. 90,943 to Rs. 1,08,851, the bulk being contributed by the Patna Division (Rs. 14,447). The improvement in the Patna and Muzaffarpur Municipalities (Rs. 10,511 and Rs. 2,393, respectively) is reported to have been due to better settlements.

17. *Water-rate (Rs. 3,11,987).*—This tax was in force in 13 Municipalities, as in the previous year. The total revenue showed an increase of Rs. 13,341, the most noticeable improvement being obtained in the Municipalities of Bhagalpur (Rs. 3,164), Berhampore (Rs. 2,927) and Arrah (Rs. 2,144). The increase in Bhagalpur and Berhampore was due to revision of assessment during the year and to better collections; that in Arrah is attributed to better collections of both arrear and current demands.

18. *Lighting rate (Rs. 1,04,662).*—This rate was levied for the first time in the Municipalities of Cossipore-Chitpur and Maniktala, and brought in an income of Rs. 3,123 and Rs. 74, respectively. The rate is levied in two other Municipalities only, namely, Howrah and Darjeeling, where the income derived was Rs. 56,075 and Rs. 45,390, respectively, as compared with Rs. 55,788 and Rs. 38,456 in 1905-06. The increase in Darjeeling is due to the supply of additional electric current to private persons.

19. *Conservancy, including scavenging and latrine-rate (Rs. 7,47,886).*—The revenue under this head increased by Rs. 39,016. The improvement was general, but was most marked in the Presidency (Rs. 14,312) and Patna (Rs. 10,913) Divisions. Among Municipalities the increase was largest in Cossipore-Chitpur (Rs. 6,752), Garden Reach (Rs. 4,847) and Darbhanga (Rs. 3,695). In Cossipore-Chitpur it is ascribed to the revision of the scale of fees, and in Garden Reach and Darbhanga to the levy of the rate in added areas. The Kamarhati Municipality showed a large decline (Rs. 3,150), due to remissions granted to the local jute-mills on account of their septic tank installations. It is disappointing to notice how little income is obtained by the Municipalities in this Province from their trenching grounds, and the disposal of refuse and sweepings. In some Municipalities in other provinces large sums are realised from this source. This indicates not only benefit to the Municipalities but also the utilization of a valuable aid to agriculture. In this province this important matter is practically neglected altogether; and the Lieutenant-Governor would like the Divisional Commissioners to consider the question when inspecting Municipalities.

20. *Grants from Provincial and Local Funds and contributions from private individuals (Rs. 4,07,469).*—The income from this source shows an increase of Rs. 46,379, due mainly to increased contributions from Local Funds, and also to grants from Government for plague prevention and other medical purposes. The increase occurred in the Patna Division (Rs. 88,498), Presidency Division (Rs. 27,905) and Orissa Division (Rs. 2,355); while in the Bhagalpur, Burdwan and Chota Nagpur Divisions there were decreases of Rs. 52,337, Rs. 17,661 and Rs. 2,381, respectively. The grants from Government amounted to Rs. 2,02,450, from Local Funds to Rs. 1,35,011 and from other sources to Rs. 1,30,008, against Rs. 2,07,346, Rs. 1,04,600 and Rs. 1,09,144, respectively, in 1905-06. The instances of private liberality brought to notice in the Commissioners' reports have already been acknowleged by the Lieutenant-Governor in a separate resolution.

21. The income from the *Tax on Professions and Trades (Rs. 57,685)* and the *Tax on persons according to their circumstances and property (Rs. 3,88,653)* remained practically the same as in the preceding year.

22. *Expenditure.—Office and Collection Establishment (Rs. 3,84,518).*—Under this head there was an increase of Rs. 19,474, while the percentage of such expenditure on total ordinary expenditure was 9·4, against 10·2 in the previous year. The largest decline in the percentage was in the Chota Nagpur Division, where it fell from 13·2 to 10·7, while there was a rise of 1 per cent. in the Burdwan Division. Taking individual Municipalities, the percentages varied between 27·1 in Gobardanga, in the 24-Parganas, and 2·9 in Motihari, the head-quarters of the district of Champaran, where the percentage was affected by unusually heavy expenditure incurred on the local hospital building during the year.

23. *Prevention of fire (Rs. 51,861).*—Most of the expenditure under this head (Rs. 30,644) was, as in former years, incurred by the Municipalities of Howrah, Cossipore-Chitpur, Maniktala and Garden Reach, which contributed towards the cost of the Calcutta Fire Brigade. The Darjeeling Municipality spent Rs. 20,245 on the Fire Brigade established for that town during the year.

24. *Lighting (Rs. 2,37,263).*—The total expenditure fell by Rs. 8,882. The towns of Howrah and Darjeeling show a decrease under this head of Rs. 8,732 and Rs. 11,034, respectively: in the rest of the Province there was a slight increase.

25. *Water-supply (Rs. 3,45,537).*—The aggregate expenditure under this head shows an increase of Rs. 97,488, which occurred almost entirely under capital outlay, maintenance charges remaining practically stationary, and which was shared by the Municipalities of Maniktala (Rs. 55,593), Tollyganj (Rs. 7,000), Khulna (Rs. 9,473) and Gaya (Rs. 31,000). At

Maniktala and Khulna the water-supply has been further extended. At Tollyganj works for the supply of filtered water from the Calcutta mains have been constructed. The administrative approval of Government has been conveyed to a scheme for installing water-works at Gaya at an estimated cost of Rs. 6,30,000; subscriptions amounting to about two lakhs of rupees have been raised locally for the purpose, and a contribution will be made from Provincial Revenues towards the cost of the scheme. An important scheme of water-supply for the Municipality of Monghyr at an estimated cost of Rs. 3,46,715 has also been prepared, and the Lieutenant-Governor hopes that the inception of the work may not be long delayed, as the town has suffered much from outbreaks of disease in recent years. Schemes are also under preparation for Puri, Serampore, Jessore and Kurseong. In the case of Jessore, little progress appears to have been made with the scheme and the Commissioner will be asked to look into the matter.

25. The Sanitary Board have reported generally that the management of Municipal water-works installations in the Province has been satisfactory. The Howrah Municipality has maintained its high record, examination of the water supplied having shown that it is of excellent quality, while the cost of supply was only 1·1 anna per 1,000 gallons, which is the lowest in the Province. Arrah returns the highest cost, viz., 5·1 annas per 1,000 gallons, but this is chiefly due to the small quantity of water delivered from the works as compared with other towns. The average daily supply at Howrah was 1,925,377 gallons; and the number of new house-connections made during the year was 215, bringing the total number to 4,011. In Burdwan, where one portion of the town is served, the supply of water was abundant. The scheme for the extension of water-supply to the portion of the town lying on the other side of the Banka river, which runs through the Municipality, is still under the consideration of the Commissioners. At Berhampore the administration of the water-works showed further improvement, and the cost of maintenance was reduced from Rs. 16,815 in 1905-06 to Rs. 13,297, which was more than met by the receipts from the water-rate. In accordance with the orders passed in last year's Resolution, the Sanitary Commissioner, Bengal, made special enquiry in regard to the assertion that the introduction of the filtered water-supply had produced no effect on the mortality of the town. He reports that there is no doubt that the supply of pure water has diminished the incidence of deaths from water-borne diseases, such as cholera, dysentery, etc., but that it has caused no appreciable reduction in the mortality from fever, nor is it likely to have such effect until a proper drainage scheme is carried out, in order to carry off the large volume of waste water, which now sinks into the soil and tends to maintain the damp and humid conditions so inimical to health. A comprehensive scheme for the improvement of the drainage of the town is now under consideration.

27. *Drainage* (*Rs. 3,46,639*).—The expenditure rose by Rs. 1,81,635 under capital outlay and by Rs. 4,939 on account of maintenance charges, most of the increase under the former head being due to the construction of drainage works for the southern foreshore area of the town of Howrah. These works were in progress during the year, and a scheme for the drainage of the northern foreshore area was under preparation. Titagarh showed an increase of Rs. 6,444, which represented a portion of the cost of the drainage scheme which is to be completed during the current year. A comprehensive scheme for the drainage of the Burdwan Municipality has been prepared, but has not as yet been submitted to Government. The Cossipore-Chitpur scheme has been revised, and is now before the Commissioners; and the Maniktala scheme is also under revision in accordance with the instructions of the Sanitary Board. Drainage schemes for several other Municipalities in the 24-Parganas district are ready or in course of preparation. Levels were taken of the municipal area of Bettiah with a view to the preparation of a drainage scheme, and a complete scheme for the town of Monghyr is being drawn up under the supervision of the Assistant Sanitary Engineer. A survey has been made of the town of Hazaribagh for a similar purpose. The question of improving the drainage of the Bhagalpur Municipality was under the consideration of the Sanitary Board. A scheme for the improvement of the drainage of the town of Puri, at an estimated cost of Rs. 2,29,838 has received the sanction of Government since the close of the year. The

Municipal Committee intend to undertake at present the most urgent parts of the scheme at an estimated cost of Rs. 1,25,000, towards which Government has, in view of the importance of the place as a centre of pilgrimage, sanctioned a grant of Rs. 75,000 from Provincial Revenues. Sir Andrew Fraser is glad to observe from the Commissioners' reports that attention is being widely given to these most important subjects of water-supply and drainage.

28. *Conservancy, including road-cleaning and road watering and latrines (Rs. 12,46,285).*—There was an increase of Rs. 67,079 in the expenditure under this head, which was shared by all the Divisions, except Burdwan, where the expenditure declined by Rs. 6,410. The increase was marked in the Presidency, Patna and Bhagalpur Divisions, where it amounted to Rs. 39,616, Rs. 15,595 and Rs. 11,558, respectively. The large decline of Rs. 12,772 in the case of Howrah has not been explained. Health Officers were entertained by the Cossipore-Chitpur and Maniktala Municipalities, and jointly by the South Suburban, Tollygunj and Garden Reach Municipalities. The Commissioners of the Presidency and Bhagalpur Divisions report that due attention was given by the Municipalities to this important branch of Municipal administration. The Sanitary Commissioner also reports that Municipal conservancy arrangements are steadily improving, and that almost all Municipalities now have proper trenching grounds, most of which are cultivated as a means for restoring the purity of the soil.

29. The four biological filters installed in the Howrah Municipality disposed of nearly 25,000 gallons of offensive sewage daily, and continued to work satisfactorily. The conservancy tramway line to Belgachia has much facilitated the disposal of night-soil in this Municipality. The improvement of two *bastis* was completed and five more have been taken in hand, 276 bighas of insanitary *basti* land having been dealt with during the year. The septic tank in the Muzaffapur Municipality has not proved altogether satisfactory, and Government has sanctioned a grant of Rs. 1,000 from Provincial Revenues for further improvements in the installation. A sewage and septic tank scheme for Darjeeling received the administrative approval of Government after the close of the year: the scheme is estimated to cost Rs. 1,80,000, but for the present, only the section intended to serve the Bhutia *basti* is to be proceeded with experimentally; and the cost of this will be borne by Government. The experience that will be gained should prove of the greatest value when the remainder of the scheme is taken up.

30. *Hospitals and Dispensaries (Rs. 5,06,535).*—The gross expenditure as shown in the accounts, increased by Rs. 81,573: the increase is mainly due to the construction of a new hospital building at Motihari (Rs. 29,029), the equipment of the hospital at Berhampore (Rs. 17,581) and the extension of the Pilgrim Hospital at Gaya (Rs. 10,352). Deducting the contributions from Government and other sources, the interest on investments for medical purposes, and the income from "Fees and revenues from medical institutions" during 1906-07, the total net expenditure on hospitals from Municipal Revenues amounted to Rs. 1,64,825, against Rs. 1,99,444 shown in the Annual Dispensary Report for the calendar year 1906 as the net grant from Municipal Funds for that year.

31. *Plague charges (Rs. 98,952).*—There was an increase of Rs. 25,516 in the outlay under this head. In many of the towns in Bihar the year was marked by severe outbreaks of plague; and the Lieutenant-Governor has read with much pleasure the account of the good services rendered by various officers in this connection. Liberal grants were made from Provincial Revenues towards measures adopted to combat the desease. The bulk of the expenditure (Rs. 64,706) was incurred in the Patna Division where the Patna and Jagdispur Municipalities contributed Rs. 11,774 and Rs. 17,247, respectively, towards plague measures. The expenditure on this account in the Presidency (Rs. 14,254) and Bhagalpur (Rs. 14,973) Divisions was also considerable.

32. *Vaccination (Rs. 19,094).*—The expenditure was practically the same as in 1905-06. The total number of children available for vaccination during the year was 53,863, of whom 47,016, or about 87·3 per cent., were successfully vaccinated.

33. *Markets and Slaughter-houses (Rs. 28,396).*—The expenditure shows a large decline of Rs. 32,197, which is mainly accounted for by a decrease of

Rs. 4,500 at Howrah, Rs. 10,833 at Chapra, and Rs. 8,973 at Puri. At all these places heavy charges were incurred in the previous year on original works for the improvement of the local Municipal markets.

34. *Public Works (Rs. 5,87,987).*—There was a decrease of Rs. 50,331 under this head. The expenditure on the maintenance of roads declined in the aggregate from Rs. 5,01,857 to Rs. 4,48,463, whilst there was a small increase under the head "Stores." There was a decrease of Rs. 23,874 at Howrah; but it is reported that this is more apparent than real, as certain of the contractors did not submit their bills for road repairs in time to be paid during the year. The expenditure also declined largely in the Municipalities of Darjeeling (Rs. 7,293), Bhagalpur (Rs. 6,293), Arrah (Rs. 4,236), Chapra (Rs. 3,724) and Gaya (Rs. 3,604). In Darjeeling the expenditure on roads was curtailed in view of the unsatisfactory condition of the Municipal finances. Delay in the collection of road metal accounts for the decline at Bhagalpur, while at Arrah the decrease is reported to have been due to the fact that certain roads had been metalled in the previous year. The decrease at Chapra is not explained. As regards Gaya, the Commissioner remarks that considering the requirements of the town and the general state of the roads, the drop in the expenditure is not satisfactory.

35. *Public Instruction (Rs. 1,41,472).*—The outlay under this head rose by Rs. 9,565. The expenditure on primary education amounted to Rs. 80,317, which represents 3·18 per cent of the ordinary income of the Municipalities, against 3 per cent. in 1905-06. As in the previous year, the percentage was highest in the Orissa Division (4·1) and lowest in Burdwan (2·5). The low figure in the latter Division is due to the small percentage (1·6) of expenditure on primary education in the Howrah Municipality. Taking the Province as a whole the prescribed standard of 3·2 per cent. was almost attained.

36. *Loans.*—Thirty Municipalities were in debt at the close of the year, and after excluding the sum of Rs. 1,11,339 on account of the accumulated balances of the Sinking Fund for the repayment of debenture loans, the total net indebtedness amounted to Rs 36,24,915. The loan liabilites of Howrah alone amounted to Rs. 20,39,217. Five new loans were sanctioned during the year. The Howrah Municipality drew one lakh of rupees out of a new loan of 1½ lakh for widening the roads on which the electric tramways are to be laid, and also drew the second instalment of one lakh out of a previous loan made for drainage works. Darjeeling received Rs. 30,000 for the extension of electric lighting, and Rs. 15,000 for a fire-brigade and for the water-works in the town. Ranchi obtained a loan of Rs. 11,000 for the construction of a *gola* in the municipal market, and Khirpai Rs. 1,000 for an office building. Titagarh drew the second instalment of Rs. 35,000 of the loan sanctioned for drainage works.

37. On the 31st March 1907 the total outstanding liabilities of the Municipalities on account of unpaid bills and unfinished works amounted to Rs. 1,84,020, against Rs. 1,51,101 in 1905-06, which was more than 22·6 per cent. of the closing balances and 6·5 per cent. of the current demand of the Municipalities concerned. In 14 Municipalities the liabilities exceeded the closing balances: this is unsatisfactory, and more attention should be paid to the prompt payment of all liabilities as they fall due. All the Municipalities indebted to Government, except the South Suburban and the Uttarpara Municipalities, paid the fixed instalments for the repayment of their loans. The Corporation of Calcutta have not yet been able to increase the supply of water from their mains to the former Municipality, and the Commissioners were consequently unable to levy the full amount of water-rate. At Uttarpara there was delay in completing the preparation of the drainage scheme for which a loan was obtained, and the money could not be utilized by the Commissioners. In both these cases the repayment of the principal was postponed by Government. The financial condition of the Berhampore Municipality, the unsatisfactory nature of which was referred to in the last two annual Resolutions, is reported to have slightly improved as a result of the revised assessment, but it is still far from good. The total income of the Municipality from taxation rose from Rs. 50,449 to Rs. 56,320, but the Commissioners succeeded in realizing only 86·9 per cent. of the current demand for the year, which does not compare favourably with the Provincial average of 97·1 per cent.

38. *Audit of accounts and embezzlements.*—Petty defalcations, which do not call for special notice, were detected in three Municipilities, viz., Burdwan, Midnapore and Chatra.

89. *Working of the Porters' and Dandiwalas' Act.*—The Act was in force in Darjeeling and Kurseong only. In the latter town there were seven prosecutions and one license was cancelled. In Darjeeling no case was instituted under the Act: it is remarkable that there has been only one prosecution in this municipality during the last two years.

40. *Inspection.*—In many cases the reports are silent on this subject. The Lieutenant-Governor desires that in future Divisional Commissioners will state whether the District Magistrates have given adequate attention to the inspection of the work of Municipalities within their districts. It is essential that District Magistrates should keep in close touch with the working of all Municipalities in their districts; and this can only be done properly by periodical inspection for which the Act provides.

41. *General.*—The Commissioner of the Burdwan Division has specially brought to the notice of Government the efficient manner in which the municipal administration of the important town of Howrah was conducted during the past year; and the Lieutenant-Governor considers that much credit is due to Mr. Forrest, the Chairman, Babu M. N. Bhattacharjee, Vice-Chairman, and to the Commissioners and their officers for the good work done. The percentage of the total collections on the current demand remained much the same as last year, the figures being 97·3, as compared with 97·5; the outstanding balance was reduced from Rs. 9,019 to Rs. 7,014; while the percentage of total remissions on the current demand fell from 5·2 to 2·9. These figures are most satisfactory. The revised valuation, which was completed at the close of the year, raised the taxation from all sources by Rs. 2,13,000, and was carried out with great care in the face of considerable opposition and agitation. The objections raised against the revaluation have already been fully dealt with in this Government Resolution No. 1236T.—M., dated the 2nd October 1907. There can be no question that the value of many of the holdings in the town has largely increased, and that many had been greatly undervalued in the past. Howrah is a growing town, and it would have been impossible to meet the rapidly-increasing demand for improved roads, sanitation, lighting and water-supply with a nearly stationary income. The Commissioner's report shows that with the income available in 1906-1907 important progress has already been made. More than a lakh has been spent on widening and improving roads, and nearly half-a-lakh on the construction of certain portions of the sanctioned drainage scheme which is being gradually carried out as funds permit; the number of lights has been increased, and the conservancy staff has been strengthened. A third extension of the water-works, which is estimated to cost Rs. 42,964, has been sanctioned by Government since the close of the year. The increase in the resources of the Committee expected from the new assessment will, it is hoped, lead to a higher standard of road maintenance and conservancy, the extension of the lighting and water-supply, the creation of new markets and public conveniences, and the completion of the drainage of the town. The Lieutenant-Governor also commends the specially good work reported to have been done by the following gentlemen: Rai Bahadur Kishori Lal Gosvami, Babu G. C. Chakravarti, Mr. W. C. Lydiard and Mr. A. Wathen, Chairmen of the Serampore, Suri, Bankura and Kurseong Municipalities; Rai Bahadur Sital Prosad, Babu Sachchitanand Sahai, Babu G. N. Bose, Babu S. C. Sen, Babu S. P. Singh, Mr. Wasi Ahmad and Babu N. C. Mitter, Vice-Chairman of the Gaya, Arrah, Motihari, Darbhanga, Monghyr, Bhagalpur and Cuttack Municipalities, respectively; and Babu S. K. Aikat, a member of the Ranchi Municipal Committee. There are no doubt others who deserve commendation; but some of the reports give no definite information on this point, although the Lieutenant-Governor in 190 specially requested that the names of those doing good work should be reported.

42. The record of the year is, on the whole, a satisfactory one, and Sir Andrew Fraser has much pleasure in congratulating the Municipalities on the good work that has been done, and the interest that has been shown by a large number of members of Municipal Committees in their duties. To all the gentlemen who have ungrudgingly given both time and trouble to the service of their fellow-citizens, he desires to convey his hearty thanks.

By order of the Lieutenant-Governor of Bengal,

C. A. OLDHAM,

Offg. Secretary to the Government of Bengal.

* The difference from the last year's closing balance is due to the exclusion of the sum of Rs. 4,972, the balance of the Dispensary Fund from the Municipal account.

† Rupees 315, the closing balance of the Dispensary Fund for the year 1905-06, were included in the closing balance of last year, but this sum has been excluded from the present return; hence the difference.

‡‡ Includes Rs. 158-3-3 for cheques issued but not cashed *plus* 322 for municipal deposit.

(a) Dispensary Fund.

§ Value of cheques issued but not cashed.

* Revised figures.

(a) Actual balance as per cash book shown.

(b) This represents the actual balance, after excluding dispensary balance Rs. 5,940.

(c) Includes Rs. 901 on account of the Dispensary Fund at the close of 1905-06

RESOLUTION REVIEWING THE REPORTS FROM COMMISSIONERS OF DIVISIONS ON THE WORKING OF THE DISTRICT BOARDS IN BENGAL, DURING THE YEAR 1906-07.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVT.

Calcutta, the 18th January 1908.

RESOLUTION—No. 123L.S.G.

RESOLUTION on the Reports from Commissioners of Divisions on the working of District Boards in Bengal during the year 1906-07.

There was no change in the number of District Boards or Union Committees during the year. One new Local Board was constituted in the Giridih subdivision in the district of Hazaribagh.

2. *Constitution of District Boards.*—The number of members was increased slightly in the case of the District Boards of Birbhum, Bankura, Hazaribagh and Ranchi: otherwise the constitution of the Boards remained practically unchanged. The total number of meetings held was 426, against 414 in the previous year: of these, 21 were adjourned or proved abortive for want of a quorum. The District Board of Bhagalpur held the largest number of meetings (21), Shahabad and Monghyr following with 20 meetings each, and of the rest, only Hazaribagh, Sambalpur and Palamau failed to meet at least once a month. The average attendance at meetings (11·5) was practically the same as in 1905-06. Taking the numbers of members into consideration, the Presidency Division shows the best attendance, while Orissa is somewhat behind the other Divisions in this respect.

3. *Constitution of Local Boards.*—The total number of members of Local Boards increased from 942 to 946 owing chiefly to the formation of a new Local Board at Giridih. The Local Boards convened 899 meetings, or 27 more than in the previous year; but twenty-seven Local Boards failed to meet at least once a month, against 34 in 1905-06, and 122 meetings were adjourned or proved abortive for want of a quorum. The largest number of abortive or adjourned meetings occurred in the Jessore (17), Midnapore (15) and Nadia (13) districts. The attention of the Divisional Commissioners will be drawn to these results. The new Local Board of Giridih and that of Govindpur held only four meetings each during the year, while the Northern Zamindari and Southern Zamindari Local Boards in Sambalpur held only one and two, respectively. There was an improvement in the attendance of both the official and non-official members, the total average attendance being 5·9, against 4·9 in the previous year.

4. *Elections.*—General elections were held only in the districts of Midnapore and Howrah. The Commissioner of Burdwan reports that except in thana Contai very little interest was shown in the elections in the district of Midnapore: out of 11 thanas under the Sadar Local Board the elections were successful in four only; while in the Tamluk subdivision out of 5 thanas, Panskura alone elected a member. In Howrah the elections were more successful, but the Magistrate reports that very little interest was taken in them by the people generally.

5. *Powers of Local Boards.*—No change was made in respect of the power of the Local Boards.

6. *Union Committees.*—As in previous years, these Committees were in existence only in the Burdwan, Presidency and Orissa Divisions. The aggregate income of the 49 Union Committees rose from Rs. 15,263 to Rs. 18,582, and the total expenditure from Rs. 14,608 to Rs. 19,323. Twenty-four Union Committees expended the whole or nearly the whole of the allotment placed at their disposal. The Memari Union Committee in Burdwan and all the five Union Committees in the Orissa Division incurred no expenditure and did practically nothing during the year. With the exception of the Soro Union, no work has been done by these Union Committees during the past five years, and they appear to exist only in name. Useful work is reported to have been done by the Union Committees of Chanditola, Haripal, Pandua and Bolagore in

the Hooghly district. In the Bill to amend the Bengal Local Self-Government Act, 1885, it is proposed to take larger powers for Union Committees in the matter of local sanitation, and it is hoped that with an increase of powers and responsibilities these bodies will evince a greater interest in their duties.

7. *Financial results.*—The opening gross credit balance of the year was Rs. 33,33,159, and the total receipts of the District Boards from all sources amounted to Rs. 72,08,880. The total amount available for expenditure was Rs. 1,05,42,039, of which Rs. 75,43,686 were disbursed during the year. The year closed with a credit balance of Rs. 29,98,353.

The table below compares the income and expenditure under the main heads of account in the past two years:—

INCOME.

8. *Provincial Rates (Rs. 32,43,952).*—The income shows a decline in the aggregate of Rs. 11,011. The large decline in the Patna Division (Rs. 57,283) was due mainly to the decrease in the district of Darbhanga, (Rs. 61,617) where short collections were made owing to famine. In Gaya the decrease (Rs. 35,793) was due to the non-payment of road cess till after the close of the year by the 7-annas Tekari and Maksudpur Estates. On the other hand, the realizations in Muzaffarpur increased by Rs. 40,463.

9. *Police (Rs. 3,32,923).*—The income from pounds increased in the Divisions of Patna, Bhagalpur, Chota Nagpur and Orissa, and decreased in the Burdwan and Presidency Divisions, the net result being an improvement of Rs. 17,401. The increase is most marked in the Bhagalpur Division, where it amounted to Rs. 14,464, or 14·9 per cent. The Commissioner reports that the larger income is due to better settlements, to successful realisation of arrear demands, and to better receipts from the sale of unclaimed stray cattle. In the Purnea district thorough enquiry into the working of the system was made by the District Board during the year, with a view to checking abuses and improving the collection of pound rents; and the results appear to have been most

satisfactory. The income declined in ten districts, the decrease being most noticeable in Howrah (Rs. 1,738) where it was over 50 per cent. of the total collections, in Nadia (Rs. 1,713) and Sambalpur (Rs. 1,159). The decrease in Nadia is reported to be due to the short collection of pound rents owing to the unfavourable season and the recent floods in that district. No explanation of the large decline in Howrah is given, but the Commissioner reports that the income is now gradually increasing. It is satisfactory to notice from the figures and from the Commissioners' reports that more attention is being paid to this important source of revenue. The Lieutenant-Governor has reason to believe that there is still much room for improvement in the administration and supervision of pounds in this Province.

10. *Education (Rs. 58,994).*—The receipts from school fees remained practically unchanged, the improvement in the income under Education being caused by an increase under the sub-head "Contributions" in the Patna and Presidency Divisions, which was mainly due to contributions from the public towards the construction of Primary school buildings.

11. *Scientific and other Minor Departments (Rs. 20,397).*—The increase in the income under this head by Rs. 3,105 is mainly accounted for by the special grant of Rs. 2,500 made by Government to the Birbhum District Board for the establishment of a fodder farm in connection with the dairy established by the Board.

12. *Miscellaneous (Rs. 1,32,232).*—The receipts under this head show a large decrease of Rs. 51,398. The decline, which was general throughout the Divisions, is chiefly under the sub-head "Recoveries on account of cost for collecting arrear cesses." The income of the Howrah District Board from its share in the profits from the Howrah-Amta Light Railway declined by Rs. 2,308, a sum of Rs. 5,000 having been set aside out of the profits for the construction of feeder roads; while the 24-Parganas District Board failed to credit to their accounts within the year the sum of Rs. 12,668, being the profits from Barasat-Basirhat Light Railway. In Nadia the income in the previous year was swollen by the receipt of Rs. 9,562 on account of the unspent balance in a land acquisition case. In Patna the rent of land and buildings, which was hitherto shown under this head, was transferred to the head "Civil Works."

13. *Irrigation—Minor Works and Navigation (Rs. 5,790).*—Only two District Boards, viz., those of Jessore and Hazaribagh, derived any income from this source. The rent for the Hallifax Canal yielded Rs. 5,700 to the Jessore District Board, and in Hazaribagh a small income of Rs. 90 accrued to the District Board as the cost of survey for small irrigation schemes in the estate of the Raja of Padma.

14. *Civil Works (Rs. 17,38,000).*—The returns show a decrease of Rs. 88,565 under this head, which occurred mainly under "Contributions" (Rs. 53,020) and "Tolls on ferries" (Rs. 20,409). In the Patna and Chota Nagpur Divisions, however, the receipts under this head rose by Rs. 65,102 and Rs. 32,682, respectively. The large grant from Provincial Revenues for augmenting the resources of District Boards was continued during the year, the total amount of the grant being fixed at Rs. 9,00,000; and the Lieutenant-Governor is pleased to learn that the money has been very suitably utilised by most of the Boards. The receipts from ferries rose in seventeen districts and fell in eleven. The largest decrease (Rs. 15,115) is returned from the Muzaffarpur district; this does not, however, represent an actual decline in the revenue, but was due to the fact that the security deposits on account of certain important ferries, leased out for three years in the year 1905-06, were credited to the District Fund during that year, and that the rents from other ferries were not credited in full during 1906-07. The falling off of Rs. 8,248 in Darbhanga was due mainly to remissions allowed to the farmers of ferries owing to the stoppage of communications by floods. The decrease of Rs. 3,227 in Monghyr was due to failure on the part of certain farmers to pay the rent in full during the year, and also to the non-receipt from the District Board of Darbhanga of the Monghyr Board's share of receipts from certain ferries managed by the latter Board. In Howrah there was a decline of Rs. 3,968, which is more apparent than real, as the receipts in the previous year were swollen by the

collections of arrears. Better settlements, realization of arrears and the opening of new ferries led to increase of revenue in other districts.

15. *Contributions from Provincial to Local* (*Rs. 6,97,375*).—This head represents (*a*) the amount (Rs. 5,95,622) drawn during the year on account of the fixed assignment made to District Boards in order to establish equilibrium between the income and expenditure transferred to the Boards from the Provincial accounts, and (*b*) sums allotted for the improvement of roads in Government estates, which amounted to Rs. 32,819. The falling off of Rs. 1,04,589, in the aggregate income under this head, as compared with the previous year, is more than explained by the fact that the services of all Sub-Inspectors of Schools hitherto serving under the District Boards were transferred to Government towards the close of the previous year, and a corresponding reduction was made in the fixed assignments to the Boards on account of the salaries and travelling allowances of those officers. Contributions from Government for other purposes are shown in the accounts under the heads concerned.

16. *Loans* (*Rs. 1,10,000*).—The District Board of Champaran obtained a loan of Rs. 50,000 from Government for the repair of the extensive damages to roads caused by floods. The District Board of Muzaffarpur took a loan of Rs. 60,000 for the construction of a pontoon bridge at Athar ferry on the Athar Ghât Road.

17. *Deposits and Advances* (*Rs. 7,84,426*).—The receipts increased by Rs. 4,29,021. The fluctuation under this suspense head was due chiefly to the recovery of advances to contractors, the receipt of larger security deposits from them, and the large recoveries of unexpended balances of advances made to Collectors and others for gratuitous relief and other test works on the appearance of famine conditions in different districts.

18. The small fluctuations in receipts under *Interest* and *Medical*, as compared with the previous year, do not call for any explanation.

Expenditure.

19. *Administration* (*Rs. 2,22,906*).—The charges under "Office establishment" increased by Rs. 6,752, and under "Contingencies" by Rs. 3,083, due to normal expansion of work.

20. *Education* (*Rs. 11,44,153*).—The returns show an apparent decrease of Rs. 64,747 in the aggregate; but the charges under "Inspection" decreased by Rs. 1,31,820, as a result of the transfer of Sub-Inspectors of Schools from the service of the Boards to that of Government towards the close of the previous year, as explained in paragraph 15 above. Excluding the decline on this account, the actual increase of expenditure amounted to Rs. 67,073. Rupees 2,71,468 are shown as having been spent on the maintenance and management of schools, as compared with Rs. 1,11,608 in the previous year. Most of the increase under this head is only apparent, and is mainly due to an alteration in the classification of the expenditure on primary schools in the districts of Burdwan and Midnapore, a corresponding decrease being shown in the expenditure under "Grants-in-aid," which fell from Rs. 8,12,349 to Rs. 6,98,776. Taking the two heads together, the expenditure increased by Rs. 46,287. During the year one high school, 132 middle schools, 95 upper and lower primary schools, with 480, 8,704 and 8,550 pupils on their rolls, respectively, were maintained by the District Boards. In the upper and lower primary schools aided by the Boards 646,040 boys and 72,524 girls received instruction, as compared with 632,032 boys and 64,370 girls in 1905-06. It is satisfactory to notice that only one District Board, viz., Howrah, against nine in the previous year, failed to spend on Education the full amount assigned for this purpose from Provincial Revenues. In this district the receipts from pounds and ferries taken together have slightly declined, as compared with the revenue estimated in the settlement of the fixed grant made to the Board.

21. *Special Schools.*—No real progress appears to have been made by the Boards in the development of technical and industrial education, and the public have not availed themselves to any great extent of the advantages offered by the various schools maintained or aided from District Funds. These schools are as

yet in a more or less experimental stage, and it is evident that they are in need of more technical advice and supervision than it has been possible to give them in the past in the absence of any special staff qualified for the purpose. Sir Andrew Fraser has given close attention to the subject of technical and industrial development in this Province, and he is satisfied that the practice of starting schools here and there, without a definite plan of action and without arranging for their co-ordination under expert supervision, is faulty. An experienced officer has recently been placed on special duty with the object of enquiring carefully into the existing local conditions and formulating definite proposals for the orders of Government. The technical schools maintained or aided by the District Boards of Burdwan, Khulna, Midnapore, Ranchi, Hazaribagh and Manbhum were continued, and the Balasore District Board contributed Rs. 2,000 towards the construction of a suitable building for, and the equipment of, the Balasore Industrial School which was started during the year. A technical school was opened at Bhagalpur during the year, the initial expenditure being Rs. 1,049 and the cost of establishment, exclusive of that provided by Government and the zilla school, Rs. 1,061. Small technical schools are also maintained by the District Boards of Saran and Darbhanga. The Government grant to the technical school at Midnapore, which was suspended in 1905-1906, was renewed. The number of students on the rolls of this school rose from 21 to 41, of whom only three, however, were in the artisan class, which would seem to show, as the Commissioner points out, that the institution does not serve the purpose for which it was originally intended, viz., to impart better technical education to the people. In order to meet this defect, the Committee of Management have transferred all the stipends from the sub-overseer class to the artisan class, and it remains to be seen how far the people avail themselves of the advantage thus offered. The result of the examinations this year was unsatisfactory, only one student, of eight sent up, having passed the Subovorseership examination. Besides the maintenance of technical schools, most of the Boards gave scholarships to pupils attending the Sibpur and Bihar Engineering Colleges, the Veterinary College at Belgachia, and the Jaipur Art School. Scholarships were also given to some pupil-nurses at the Temple Medical School at Patna.

22. *Industrial development.*—Attempts are still being made by the District Boards to popularize the use of the fly-shuttle loom, with a view to improving the weaving industry. Little real progress has, however, been made, and it is apparent from the reports that most of the District Boards regard the matter with indifference. In Monghyr Rs. 360 were spent in teaching the use of the fly-shuttle, and it is stated that four students have thoroughly learnt its use. In Darbhanga Rs. 267 were spent on the same object. The Birbhum District Board purchased a loom, and the Midnapore Board distributed to zamindars and others copies of plans of an adaptation of the fly-shuttle to the ordinary loom. In Manbhum the District Board gave a monthly grant of Rs. 10 to the Municipal Industrial School in which the use of the loom is taught. The most practical effort in this direction was made by a private individual, the Revd. Dr. Campbell of Pakhuria in Manbhum, who fitted up a factory with ten looms and began regular work in October 1906. By the end of the year 1906-07, there were ten apprentices and two instructors at work, and the experiment was on a fair way to success. Unfortunately, however, Dr. Campbell's buildings and looms have since been destroyed by fire, and although Government has given a grant of Rs. 1,500 towards the reconstruction of the factory, progress has been much delayed. Copies of plans of the ordinary country loom with the fly-shuttle adapted to it, with estimates of the cost of the adaptation, were distributed by Government to all District Boards during the year. The Lieutenant-Governor hopes that when the large central Weaving School is well established at Serampore under expert supervision, in accordance with the scheme sanctioned by the Government of India and the Secretary of State, a considerable impetus will be given to the hand-loom industry in the Province.

23. The District Board of Hooghly contributed Rs. 1,000 towards an industrial and agricultural exhibition held during the year at Chinsura. The

exhibition is reported to have been successful in diffusing a knowledge of the products of the different parts of the district among the public, and in encouraging local industries and agriculture. Industrial and agricultural shows were also held at Midnapore, Birbhum, Bankura, Hooghly, Baraset, Khulna, Patna, Bihta, Kendrapara, Balasore, Sambalpur, Ranchi and Purulia. Sir Andrew Fraser is pleased to notice the increase in the numbers of these shows held during the year, which must be ascribed partly to the encouragement and assistance in the way of grants given by Government.

24. *Medical* (*Rs. 3,72,728*).—The expenditure increased by Rs. 54,699, mainly under "Hospitals and Dispensaries." The total number of dispensaries maintained by the Boards rose from 119 to 129, while the number of aided dispensaries was the same (137) as in the previous year. Three new dispensaries were opened by each of the District Boards of Bankura and Khulna, two by the District Board of Jessore, and one each by the Boards in Shahabad, Muzaffarpur, Darbhanga, Monghyr and Ranchi. The District Boards of Purnea and Hazaribagh closed one and two dispensaries, respectively. The largest number of dispensaries were maintained by the District Boards of Patna (11), Khulna (11), Burdwan (10) and Monghyr (10). No dispensaries were maintained by the District Boards of Murshidabad and Hazaribagh and the Sambalpur District Council. The Patna District Board continued to subsidize all Municipal dispensaries in the district, and made a grant of Rs. 3,000 towards the cost of a building for the Dinapore Dispensary. In this district the plague charges rose from Rs. 10,616 in 1905-06 to Rs. 30,463, of which Rs. 24,352 were spent on the destruction of rats. The Gaya District Board contributed Rs. 20,000 towards the cost of the extension of the compound of the Pilgrim Hospital at Gaya. The experiment of deputing Native Doctors in charge of dispensaries to local markets and fairs was successfully tried by the Hooghly District Board in the thana of Pandua. In Midnapore the experiment is said to have proved unsuccessful, except in thana Garhbeta. The District Board of the 24-Parganas purchased a house-boat with the requisite medical stores for a floating dispensary for the Sundarbans, but no work was done during the year. In Cuttack the District Board sanctioned the establishment of a floating dispensary with the help of a donation of Rs. 5,000 from Babu Nimai Charan Mittra, and a grant of Rs. 1,000 from Government.

25. *Sanitation.*—The sanitary work done by the Boards is of a somewhat varied character, and includes preventive measures against plague, cholera and other epidemic diseases, disinfection of wells and tanks and sanitary arrangements at fairs, *mélas* and important villages. In the case of most of the Boards the expenditure under the sub-head "Sanitation" was merely nominal, and it was only in the districts of Midnapore, Monghyr, Cuttack and Patna that any real attempt was made to carry out the system of village sanitation which has proved so effective in Patna. In the last named district 5,333 villages were cleansed during the year, in accordance with a systematic plan, under the supervision of the Chairmen and members of the Local Boards, and sweepers with conservancy carts were employed in every subdivision. In Midnapore, out of a total allotment of Rs. 1,500, Rs. 1,078 were spent in cleaning 51 villages in the four subdivisions, and Rs. 851 were collected from the public towards the work, a most satisfactory result. In Monghyr 37 villages were cleansed; while in Cuttack Rs. 1,301 were spent on similar work.

26. *Veterinary charges* (*Rs. 30,785*).—The total expenditure rose from Rs. 28,740 in 1905-06 to Rs. 30,785. With the exception of Howrah, all the District Boards incurred expenditure under this head. A new veterinary dispensary was opened at Sambalpur, and new veterinary hospitals are under construction at Arrah and Bhagalpur. The Muzaffarpur District Board returns the largest expenditure (Rs. 3,468) under this head: this Board maintained two dispensaries, at Muzaffarpur and at Sitamarhi, besides employing an itinerant Veterinary Assistant for work in the interior. One thousand and forty animals were treated at the Veterinary Dispensary at Burdwan, and 284 cattle were inoculated by the Veterinary Assistant with anti rinderpest serum. The Veterinary Assistant in Midnapore visited 188 villages and treated 6,061 cases, and 283 inoculations were successfully performed with the anti-rinderpest serum. The increase in the number of operations is reported to be due to the fact that one of the zamindars of the Contai subdivision allowed the operation to be performed on his cattle, a good exampl

that was readily followed by his tenants. Satisfactory work was also done by itinerant Veterinary Assistants in the district of Palamau, where 6,323 animals were treated, and in Hooghly, Monghyr, Bhagalpur and Hazaribagh. It is gratifying to note that in most districts the people now fully realize the value of the services rendered by the Veterinary staff, and are quite ready to take advantage of them. Several District Boards granted scholarships tenable at the Government Veterinary College at Belgachhia. The Lieutenant-Governor looks forward to the time when all the Boards will contribute under this head.

27. *Famine Relief.*—The heavy floods of July and August caused severe scarcity in the North Gangetic districts of the Patna Division, and in certain portions of Monghyr, Bhagalpur and Purnea. The expenditure incurred on gratuitious relief, which was in the first instance met from the funds of the District Boards, and which in the district of Darbhanga alone amounted to Rs. 1,60,431, was subsequently refunded by Government. The expenditure on test works was divided between the Government and the Board in all cases in which it was considered that the works constructed were for the benefit of the Board : in other cases the entire expenditure was refunded by Government. In the Darbhanga district charges amounting to Rs. 25,874, representing one-half of the expenditure on test works, were borne by the Board. In the Bhagalpur Division much special expenditure was incurred in repairing the damages done to roads by the floods, with the object of providing employment for those able to work. The Commissioner reports that the relief operations rendered necessary by the prevailing scarcity were mostly carried out through the agency of the Boards, but that separate figures are not available showing the extent of the relief afforded out of the amount of the expenditure charged to famine relief in the Board accounts. Rupees 23,885 are shown, however, as spent up to the end of the year on relief works in the Bhagalpur district; and this amount was subsequently refunded by Government. Partial distress also occurred in Murshidabad, Nadia and Jessore, and the relief operations were in the first instance carried out at the cost of the Boards.

28. *Civil Works* (*Rs. 43,77,497*).—The expenditure shows a large increase of Rs. 7,67,113, which occurred mainly under "Communications" (Rs. 5,54,770), "Water-works" (Rs. 29,976) and "Other works of improvement" (Rs. 81,373). The expenditure on "Establishment and Contingencies appertaining to Public Works" shows a comparatively small increase of Rs. 16,908. The Boards maintained 2,674 miles of metalled and 18,459 miles of unmetalled district roads, and 14,610 miles of village roads. The Lieutenant-Governor is much pleased to notice the increased activity shown by the Boards in this most important branch of their work. Large bridges were built in the districts of Burdwan, Patna, Gaya, Shahabad, Saran, Muzaffarpur, Champaran, Monghyr, Bhagalpur and Purnea, and important new roads were constructed in the districts of the 24-Parganas, Birbhum, Patna, Gaya, Shahabad, Muzaffarpur, Monghyr, Bhagalpur, Purnea, Hazaribagh and Ranchi The Muzaffarpur District Board acquired the ferry over the Bur Gandak River at Atharghat at a cost of Rs. 30,000, and is constructing a pontoon bridge over the river at an estimated cost of Rs. 65,260, of which Rs. 60,000 were spent during the year.

29. *Water-supply and Water Works* (*Rs. 1,38,199*).—The total expenditure increased by Rs. 29,976, or by about 28 per cent., but the increase occurred wholly in the Presidency and Burdwan Divisions, where the expenditure was almost doubled; in the rest of the Province the Lieutenant-Governor regrets to observe there was a decline in expenditure. The District Boards of Champaran, Muzaffarpur, Darbhanga and Palamau incurred no expenditure under this head, while in Howrah, out of a budget provision of Rs. 3,000, only Rs. 678 were spent against Rs. 464 spent in the previous year out of a similar budget provision. In the Presidency Division the expenditure increased by Rs. 21,839. In Nadia 21 wells were completed and 12 more taken in hand, while Rs. 1,099 were spent as interest on loans taken under the Land Improvement Act. In Jessore 23 tanks were excavated at a cost of Rs. 14,014, and 5 wells were made. In Khulna seven tanks were completed, work to the amount of Rs. 9,628 done on eight others, and 20 tanks were taken up under the grants-in-aid system at a cost of Rs. 7,349. The Lieutenant-Governor is glad to notice that the expenditure under this head in the Burdwan Division compares very favourably with that incurred during the

preceding year. In Gaya the District Board made a grant of one lakh of rupees to the Gaya Municipality towards the water-works scheme, and in Monghyr the District Board paid during the year a second instalment of Rs. 10,000 out of the promised contribution of Rs. 30,000 towards the Victoria Water Works in the town of Monghyr. Out of a total allotment of Rs. 1,500 made by the Sambalpur District Council under this head to the two tahsils, only Rs. 450 were brought to account.

30. *Drainage.*—Only four districts of the Presidency Division incurred any expenditure under this head. The Commissioner of the Division reports that the amount (Rs. 1,593) shown as spent represents grants to Municipalities and Union Committees for the improvement of local drains, and that further expenditure incurred on this account is included under "Sanitation and Civil Works." Some progress was made with the Magrahat drainage scheme referred to in last year's Resolution, and although the work is far from complete, an extension of cultivation and an improvement of health in the locality have already been reported. Up to the close of the year, this Government had made grants aggregating Rs. 5,00,000 towards this important scheme. The question of improving the drainage of an area of 3½ square miles near Bagerhat was still under the consideration of the Drainage Commissioners appointed under the Sanitary Drainage Act. In the Hooghly district the project for excavating the old bed of the River Kausiki, towards the cost of which the District Board contributed Rs. 8,500, is being carried out by the Public Works Department of Government. The Special Committee appointed to enquire into the question of drainage in the Presidency Division in connection with malarial fever submitted their report after the close of the year. The report has already been separately reviewed by Government in Resolution No. 1168Medl., dated the 26th November 1907, but it may be noticed here that the Committee advocate that attention be concentrated for the present on the following schemes :—

(*a*) Murshidabad district	...	Berhampur and Gobra *nala* schemes.
(*b*) Jessore district ...	...	Bhairab scheme.
(*c*) 24-Parganas ...	...	Bagjola scheme.

31. *Roads.*—Appendix C shows the number and length of the roads under each District Board, with detailed information as to the cost of maintenance and construction. The expenditure on account of repairs of metalled and unmetalled roads increased from Rs. 14,26,924 in 1905-06 to Rs. 15,61,300, while that on account of construction increased from Rs. 10,93,693 to Rs. 13,97,057, of which Rs. 9,89,717 were spent on original works on unmetalled roads. The average expenditure per mile on metalled roads shows a large decline, being Rs. 237 as against Rs. 302 in the previous year. In the case of unmetalled and village roads it increased from Rs. 35 and Rs. 13 to Rs. 40 and Rs. 14, respectively. The cost of repairs per mile of metalled road shows the most striking variations: for instance, in Bhagalpur with 61·5 miles of metalled road, the cost per mile was Rs. 618, while in Bankura, with 61 miles of metalled road, it was Rs. 54 only. The attention of the Commissioner will be drawn to these figures. The difference is probably largely due to the greater cost of carriage of metal in the former district.

32. *Railway feeder roads.*—It is satisfactory to notice that considerable progress was made with the construction of feeder roads during the year. In Burdwan the construction of two feeder roads was completed, and work on four others was in progress. In Birbhum Rs. 28,489 were spent on the construction of new feeder roads and the improvement of those already existing. Five feeder roads have already been completed in Bankura, and a scheme for the district at an estimated cost of Rs. 1,76,800 has been prepared, towards which the Commissioner has allotted Rs. 8,000 from the special grant placed at his disposal. In Hooghly and Howrah Rs. 4,744 and Rs. 38,316, respectively, were spent on the construction of feeder roads. In the Presidency Division, the District Board of the 24-Parganas spent Rs. 29,182 under this head, against Rs. 19,204 in the previous year, while the Murshidabad District Board spent Rs. 33,682. The Gaya District Board spent Rs. 21,926 on the construction or improvement of seven feeder roads, and in Shahabad two roads are at present under construction, the expenditure during the year being Rs. 11,068. In Muzaffarpur the construction of the feeder road to the Bidupur

station on the Katihar Branch of the Bengal North-Western Railway was completed during the year, the total cost of the work being Rs. 27,364, and the Waini-Pusa Road was constructed in Darbhanga from funds allotted to the Board by the Commissioner from his special grant. The grants made from Provincial Revenues towards this latter road, leading from the railway station at Waini to the Imperial Research Institute at Pusa, have amounted to Rs. 40,854. Of the four roads which were under construction in Monghyr in 1905-06, two were completed, and the other two are now almost finished. In Bhagalpur the District Board incurred expenditure on two roads and projects for constructing a new road and improving an existing road were sanctioned during the year. The Cuttack District Board constructed seven feeder roads, one of which was of considerable importance. Four roads were completed in Manbhum, and one in Puri; and seven more feeder roads were under construction during the year in the districts of Palamau, Hazaribagh, Manbhum and Balasore.

33. *Miscellaneous improvements.*—Expenditure was incurred on the promotion of roadside arboriculture by almost all the District Boards, ranging from Rs. 3,995 in Gaya to Rs. 81 in Puri. Sanctioned programmes for carrying on the work in a systematic manner were followed in nine districts, viz., Birbhum, Hooghly, Gaya, Saran, Darbhanga, Monghyr, Bhagalpur, Purnea and Cuttack. The Shahabad District Board shows the largest amount of receipts (Rs. 1,639) from the sale of fruit and timber. In Government Circular No. 7L.S.-G., dated the 29th January 1907, the District Boards have been asked to depute an Overseer or Sub-Overseer each year to the Royal Botanic Garden at Sibpur for training in arboriculture. During the current year a Manual of Arboriculture was also issued by the Director of Agriculture, for the guidance of local officers and local bodies. Sir Andrew Fraser expects that the Boards will devote increased attention to this important subject in future.

34. *Railways and Tramways.*—In the Burdwan Division a new Railway from Ondal to the Sainthia Railway Station was opened for traffic in January 1907; and two proposals for the construction of light railways, from Memari to Chakdighi and along the Burdwan-Katwa Road, are under consideration. The 24-Parganas District Board authorized the promoters of the Barasat-Basirhat line to apply to Government for sanction to the extension of the Railway to Taki and Hasnabad, and also authorized a preliminary survey for a branch line from the Beliaghata bridge to Patipukur. Proposals for extending the line to Satkhira are also under consideration. In Nadia an estimate amounting to Rs. 16,28,900, prepared by the Eastern Bengal State Railway, for constructing 56·10 miles of light railway between Krishnagar and Jellinghee, *vid* Meherpur, has been submitted to the District Board for consideration of the guarantee. The Patna District Board have sanctioned the extension of the Bakhtiarpur-Bihar Light Railway line to Silao. In Shahabad statistics were collected for a proposed light railway from Arrah to Sassaram, and permission has been granted by the District Board to the construction of a tramway line along the Board road from Dehri to Akbarpur, subject to the sanction of the Local Government. The surveys of the proposed Chapra-Masrakh line in Saran and of the proposed line from Darbhanga to Khagaria in Monghyr were completed by the Bengal and North-Western Railway Company. The Howrah-Amta, the Howrah-Seakhala, the Barasat-Basirhat and the Bakhtiarpur-Bihar Light Railways continued to work satisfactorily. The Boards' shares of the surplus profits in 1906 were—

35. The provisions inserted in the Bill to amend the Bengal Local Self-Government Act, 1885, to enable District Boards to levy a special cess for the payment of guaranteed interest on capital or of interest on loans for the construction of tramways and light railways have been withdrawn by the Select Committee of the Bengal Legislative Council, in view of the decided disapproval shown in the opinions submitted by the public bodies and associations consulted.

36. *Contributions* (*Rs. 42,027*).—This item mainly represents the payments made by District Boards for establishments in offices of account and control and refunds of unexpended portions of Government grants for special works.

37. *Debt* (*Rs. 9,09,935*)—The charges under the suspense head "Deposits and advances" rose from Rs. 3,01,640 to Rs. 8,89,833. This was due chiefly to the inclusion under this head, in accordance with the orders of the Government of India, of the figures representing the difference between the value of cheques cashed during the year in excess of those issued during the year. There was a large increase of about two lakhs in Darbhanga, the bulk representing advances for famine relief, test works and flood repairs. The increase of Rs. 71,066 in Muzaffarpur was due to advances for famine relief. In Champaran the increase of Rs. 72,243 was due to the refund of the Government grant and private subscriptions for the construction of the Motihari Dispensary building and the adjustment of the advances.

38. *Closing balances* (*Rs. 29,98,353*).—The actual aggregate closing balances of District Boards, excluding deposits, amounted to Rs. 27,98,583, against Rs. 23,68,683 at the close of the previous year. The Lieutenant-Governor regards this increase of the unspent balances as highly unsatisfactory. In the Patna Division where the steady rise in the closing balance was noticed in last year's Resolution, the amount shows a small decline of Rs. 14,757. The balances exceeded a lakh of rupees in eleven districts, the largest balance being reported by Midnapore (Rs. 2,19,103). These large balances are reported to be due either to the failure of the Boards to work up to their sanctioned programmes, owing to difficulty in the collection of materials or in procuring contractors, or to the receipt of large grants from Government late in the year for works, the estimates for which were delayed for want of materials or other reasons. The Commissioner of the Burdwan Division reports that with a view to secure as far as possible the full expenditure within the year of the allotments made from the special grant for augmenting the resources of District Boards, he has already distributed the current year's grant among the District Boards of his Division, in consultation with the Chairmen, and without waiting for the Conference of Collectors, at which the grants were distributed in previous years. The Commissioner of the Orissa Division states that the swollen balances are mainly accounted for by the fact that the official year closes at the season when work is, or ought to be, most active. These reasons, however, although they might afford sufficient explanation of larger balances in any one year, do not in any way explain the steady increase in the balances of the Boards which has been so noticeable of late years. The attention of the Commissioners is again directed to the necessity of closer supervision in this respect; it is essential that the District Boards should make full and proper use of the increased revenues recently placed at their disposal.

39. *General remarks.*—The Vice-Chairmen of the following Boards have been specially mentioned for the good work done during the year:—Burdwan, Birbhum, Midnapore, Hooghly, Howrah, Murshidabad, Khulna, Patna, Gaya, Darbhanga, Monghyr, Bhagalpur, Cuttack, Balasore and Puri. To these gentlemen, the thanks of the Lieutenant-Governor are due. His Honour has also been very pleased to read of the good services rendered by the District Engineers of Midnapore, Shahabad, Darbhanga, Monghyr, Bhagalpur and Puri.

40. On the whole the District Boards have done well during the year, and have shown considerable interest in the various branches of their work. The working of the Local Boards, on the other hand, is generally reported to have been unsatisfactory. The question of improving the status of these bodies is under the consideration of Government.

By order of the Lieutenant-Governor of Bengal,

C. A. OLDHAM,

Offg. Secy. to the Govt. of Bengal.

Messrs. W. B. Gwyther and R. P. Ashton resigned their membership of the Committee prior to their departure from India, but were re-appointed after their return.

Rai Krishna Chandra Banerjee Bahadur was appointed a member of the Committee during Mr. Gwyther's absence but resigned on the latter's return.

The following new members were appointed during the year :—

Major D. M. Moir, M.D., I.M.S.
The Hon'ble Mr. H. J. McIntosh, I.C.S.

The names of the following gentlemen were removed from the list of members of the Committee as they were not expected to return to Calcutta :—

T. A. Pope, Esq.
G. R. Gardiner, Esq.

THE GARDEN.

2. The visits of His Majesty the Amir of Kabul were the most important events of the year, and it is satisfactory to note that he took more than a casual interest in going round the garden and seeing everything worth seeing.

ESTABLISHMENT.

3. Rai R. B. Sanyal Bahadur, C.M.Z.S., continued in charge of the Garden as Superintendent throughout the year.

Under orders of the Government of Bengal, conveyed in their letter No. 1158, dated 25th February 1907, Mr. Bejoy Krishna Basu, Veterinary Inspector, was appointed Assistant Superintendent of the Garden.

BUILDINGS.

4. With the exception of the extension of the boundary wall as far as the exit gate on the Belvedere Road, at a cost of Rs. 4,102, no permanent improvement of any importance was undertaken during the year.

The buildings used as habitations for animals are necessarily subject to more than ordinary wear and tear,

requiring constant care and supervision in respect to their maintenance in a proper state of repair.

The following is a list of some of the more important repairs executed during the year :—

(1) Burdwan House—Repaired, outside colourwashed dens whitewashed, and iron works repainted.

(2) Smaller Carnivora House—Repaired, colourwashed and repainted.

(3) Murshidabad House—Repaired and repainted.

(4) Reptile House and its cages—Whitewashed and repainted.

(5) The Hermitage—Repaired, colourwashed and repainted.

(6) Buckland Enclosure—Repaired and repainted.

(7) Peafowl Pavilion—New partition erected and general repairs attended to.

(8) Abdul Gani House, for bears—Iron work strengthened, whitewashed, and repainted.

Petty repairs of smaller houses, sheds and enclosures were attended to.

FINANCE.

5. It will appear from the following comparative statement of receipts from visitors that the financial condition of the Garden was even better than that of the previous year which was exceptionally good in this respect.

	Rs.	A.	P.
1904-05	24,168	0	0
1905-06	31,324	4	0
1906-07	33,474	4	0

The accounts of income and expenditure are summarised in Appendix A.

THE PUBLIC.

The attendance of visitors showed a very satisfactory increase during the year, the turnstile records indicating a total for the year of 457,891 persons admitted, a daily average of 1,254, as exhibited in Appendix B.

Comparative table of visitors during the last three years—

1904-05	346,254
1905-06	422,282
1906-07	457,891

In addition, a large number of children under four years of age and school children attended by their teachers were admitted free. On the day of the Fancy Fair about 11,050 people, including complimentary ticket-holders, entered the Garden. Special permission was granted to the inmates of the Reformatory School at Alipore to visit the Garden under proper escort.

E. HAROLD BROWN,
Honorary Secretary.

E. A. GAIT,
President.

SUPERINTENDENT'S REPORT.

I HAVE the honour to submit the following report on the state of the menagerie of the garden.

The following comparative tables show how the various collections of animals in the garden stood during the last four years:—

	Mammals.	Birds.	Reptiles.
1903-04	464	842	238
1904-05	460	855	266
1905-06	432	772	281
1906-07	413	741	307

ACQUISITIONS.

The collection of Birds of Paradise was enriched by the acquisition, by purchase, of two Twelve-wired Birds of Paradise, which were new to the collection.

Among other acquisitions the following deserve notice:—

1 Tiger (presented by Mahant Dalmir Puri of Budhowli in Gaya District).
2 Reticulated Pythons (obtained by purchase)
1 Musk Deer (presented by His Excellency the Prime Minister of Nepal).
1 Black Leopard (purchased).
1 Andaman Robber Crab (presented by Mr. A J. Parkar)
1 Proboscis Monkey (purchased).
1 Greater Bird of Paradise (purchased).
1 Lesser Bird of Paradise (purchased).
1 Orang Outang (purchased).
1 Brow Antlered Deer (purchased).

A consignment of African, American and English mammals and birds was obtained through the good offices of Mr. R. I. Pocock, the well-known Superintendent of the Zoological Society's Gardens, London.

A list of donors and their donations during the year 1906-07 is given in Appendix C.

The following animals were bred in the Menagerie:—

3 Rhesus Monkeys.
5 Coypu rats.
4 Spotted Deer
3 Sambur Deer.
1 Hog Deer.
2 Indian Antelopes.
1 Banting.
1 Rufous necked Wallaby
5 Spotted bill Ducks.
1 Large billed Parrakeet.
4 Common Mynas.
1 Crested Pigeon.
3 Red Munias.
2 Undulated grass Parrakeets.

A large number of birds of different species breed in the Garden every year in a wild state and the following is a list of those which bred during the year 1906-07:—

(1) Indian House Crow—*Corvus splendens* (Viell).

The nesting of the species is often discouraged, and comparatively few of them nest in the garden now.

(2) Indian Tree-Pie—*Dendrocitta rufa* (Scop)

Nest found on a sweet Babul Tree (Inga Dulce).

(3) Jungle Babbler—*Crataropus canorus* (Linn).
(4) Bengal red-whiskered Bulbul—*Otocompsa emeria* (Linn).
(5) Black Drongo—*Dicrurus ater* (Herm).

No nest has ever been found in the Garden, but the birds have often been observed to carry grass and other materials during the breeding season.

(6) Indian Tailor-Bird—*Orthotomus sutorius* (Forst).
(7) Indian black-headed Oriole—*Oriolus melanocephalus* (Linn).
(8) Pied Starling—*Sturnopastor contra* (Linn).
(9) Magpie Robin—*Copsychus saularis* (Linn).

Generally selects a mango tree for nesting.

(10) House Sparrow—*Passer domesticus* (Linn).
(11) Red-backed Woodpecker—*brachypternus aurantius* (Strickl).
(12) Crimson-breasted Barbet—*Xanthotæma hæmatocephalu* (Shelley).
(13) Common Kingfisher—*Alcedo bengalensis* (Gm).
(14) White-breasted Kingfisher—*Halcyon smyrnensis* (Linn).
(15) Indian Koel—*Eudynamis honoratta* (Walden).
(16) Barn Owl—*Strix flammia* (Linn).
(17) Spotted Owlet—*Athene brama* (Blyth).
(18) Common Pariah Kite—*Milvus govinda* (Sykes).
(19) Spotted Doves—*Turtur suratensis* (Blyth).
(20) White-breasted Water-hen—*Amaurornis phœnicurus* (Salvd).
(21) Little Cormorant—*Phalacrocorax javanicus* (Horsf).
(22) Indian Snake bird—*Plotus melanogaster* (Gm).
(23) Night Heron—*Nycticorax griseus* (Blyth).

LOSSES.

It is greatly to be deplored that the Indian Lion presented by His Excellency the Viceroy (Lord Curzon) in April 1902 had to be destroyed. Although quite a young animal it was found on its arrival to have been suffering from liver and bowel complaints, and was very unsteady in its movements. Indeed its symptoms generally were strongly suggestive of disease of the spinal cord. Everything that could possibly be done to improve its health and mitigate its sufferings was tried, but the animal never showed any sign of improvement. On the contrary, as it grew in size its unsteady ataxic gait evidently became more and more painful to the animal, rendering it necessary to put an end to its miseries. A list of other losses is given under the Pathological Department.

PROVISIONS.

The Commissariat of the garden received careful attention. Since the revision of rates in favour of the butcher there has been less difficulty in procuring beef of a better quality. But there is still room for improvement. The root of the evil, however, lies elsewhere, and will remain untouched so long as the condition of things which now obtains in the local market in respect to its meat supply is not improved. As the question is of much wider importance than the well-being of a few animals in the Zoological Garden, it is hoped that the authorities of the market will move in the matter, and appoint as a first step towards the improvement in the direction indicated above, a Veterinary Inspector to examine the cattle before they are slaughtered in the Suburban Slaughter-house.

The difficulty of procuring fresh and wholesome milk remained the same as before, and large quantities of preserved milk were therefore used.

The prevailing high prices of food-grains were chiefly responsible for the enhanced cost of feeding during the year.

GENERAL CONDITION OF THE ANIMALS.

In spite of the losses recorded, the general condition of the animals, specially of the older inhabitants of the Garden, continued good. In the new open-air aviaries in connection with the "Sornamoyi House," the birds exhibited great activity in nesting, but owing to the unavoidable presence of a few hornbills the result was not as successful as could be desired.

The isolation sheds built some three years ago afforded considerable facilities in keeping the new arrivals, which in many cases carry all sorts of infection, separate from the rest of the collection for sometime after their acquisition, and also rendered it possible to isolate the suspected cases for treatment and observation.

COLLECTION OF ANIMALS.

Since the submission of the last report serious attempts have been made to exploit Darjeeling and its neighbourhood for Himalayan animals, specially birds. With the permission of the authorities of the Botanic Garden there, a small cage has been built for the reception of specimens as they come. Mr. F. E. Moller, Vice-Chairman, Darjeeling Municipality, who has kindly agreed to help the Garden in this connection, has engaged shikaris and caretakers to collect specimens and have them looked after. It is hoped that the experiment will prove successful. The experiment, if properly conducted, may yield satisfactory results in the future, enabling the Calcutta Garden to supply Himalayan specimens to other Gardens of the world.

Arrangements were also made, with the help of the Commissioner of Orissa, the Magistrate of Puri, and the Raja Bahadur of Parikud to exploit the Chilka Lake for aquatic birds, and in spite of the lateness of the season when the operation was begun, the result was, on the whole, not unsatisfactory.

RAMBRAMHA SANYAL,

Supdt, Zoological Garden, Calcutta.

* The report is for the week ending the 11th January 1908.

General Summary.—At the beginning of the week many districts received a little more rain and the weather has been cold and cloudy throughout the Province. The prospects of *rabi* have greatly improved, and in South Bihar owing to the recent rain it has been found possible to do some more sowings. Insects have caused considerable damage in the Barh subdivision of Patna. In South Bihar poppy is doing well. Sugarcane prospects are fair and the remainder of the winter rice crop has been harvested. Insufficient stocks of food-grains are reported in Bankura, Nadia, Murshidabad, Balasore, Palamau and the Deoghar subdivision of the Sonthal Parganas. Prices have ceased to rise, and in Bihar the fall is probably due to decreased export. In the north of Murshidabad there is still a scarcity of water. Cattle-disease is reported from Gaya, Bhagalpur, Purnea, Sambalpur, Ranchi and Palamau. Scarcity is apprehended in Nadia, Murshidabad, the Bhabhua and Sasaram subdivisions of Shahabad, the Darauli and Manjhi thanas of Saran, Ranchi, Palamau, Birbhum and Jessore. One test-work was opened at Bankura. In Cuttack the test-work was attended by 299 men, 84 women and 16 children (total 399). Gratuitous relief was given to 1,394 men, 3,196 women and 3,324 children (total 7,914). In Balasore 224 men attended the test-work. In Puri 1,461 attended the test-work, and gratuitous relief was given to 104 men, 304 women and 185 children. The total number on test-works in Bengal is 2,084 and in receipt of the gratuitous relief 8,507.

The report of the Feudatory States of Orissa for the week ending the 11th of January shows that during that period no rain fell and the prospects of *rabi* were not very favourable.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⌓, dew; o, overcast; d, drizzling rain; g, dark gloomy; p, passing temporary shower.
